ECZEMA
FOR YEARS CURED
TWO REMARKABLE CASES.

I have been an intense sufferer from Eczema for five years. I tried medicines, four doctors, and a specialist in skin diseases, with no improvement, and seeing me almost frantic with dreadful itching, Alternating three bottles of CUTICURA RESOLVENT, and one box of CUTICURA SOAP, I was completely cured.
GEO. A. LOWE, 196 Market St., Phila., Pa.

I had Eczema for seven years, and my scalp was in a fearful state. Three inches of my back was covered with the disease. The itching was so fierce I thought it would drive me mad. I tried all remedies, but could not get cured. I used bottles of CUTICURA RESOLVENT, five cakes of CUTICURA SOAP, and five boxes of CUTICURA SALVE, and I was completely cured.
C. LONG, 325 Wilton Ave., Toronto, Can.

SPEEDY CURE TREATMENT FOR TORTURING, DISFIGURING HUMORS, WITH LOSS OF HAIR.—Warm baths with CUTICURA SOAP, gentle anointings with CUTICURA, and mild doses of CUTICURA RESOLVENT.

FIGHT TO THE DEATH

Spain's Orders to the Philippine Commander.

Manila To be Defended to the Last Ditch.

General Agusti to Hold City Against Dewey.

Disorders Continue in Spain and Martial Law is Proclaimed in Other Provinces —Kingdom Needs Leaders.

LONDON, May 9.—It is announced today in a special dispatch from Madrid that the Spanishs minister of war and marine, General Correa and Admiral Bermejo, declare they do not expect Manila to be attacked before the arrival of reinforcements for Rear Admiral Dewey from the United States. The dispatch adds that orders have been sent to General Augusti, the governor general of the Philippine Islands to resist to death any attack of Manila.

MADRID, May 9.—NOON—The disorder in the Spanish provinces is increasing. Riots have now broken out at Cadiz and Alicante and the troubles are expected to spread to parts of the country which have hitherto been quiet. Martial law has been proclaimed in the provinces of Albacco and Jaen. At Martos, nine miles from Jaen, men women and children have been parading the streets, crying "death to the thieves."

MADRID, May 9.—10:15 A. M.—The political situation here is unchanged. The consultation between the queen regent and Senor Gamazo, the liberal leader, as well as her majesty's conference with Senor Montero Rios, the president of the senate, have been without result. Everybody appears loath to assume the responsibilities of assuming office under the existing condition of affairs.

RIOTS IN SPAIN ARE SPREADING.

MADRID, May 9.—11 A. M.—There was serious rioting at Linares, twenty-three miles from Jaen, yesterday. The mob assembled in front of the town hall and finding the doors locked, tore out the windows, swarmed into the building and threw everything movable into the streets. The civil guards intervened and a desperate struggle followed in the passages of the building.

The rioters were finally driven out by the civil guards, who frequently fired into the mob. Some of the rioters procured guns and returned the fire.

Fourteen persons are said to have been killed and about sixty wounded.

The local forces are not considered strong enough to cope with the disturbance and reinforcements of troops have been asked for.

12:30 P. M.—Later the mob made another attack on the town hall and drove out the civil guards. The rioters were well supplied with ammunition and kept up a galling fire, while shouts of "down with the taxes" were raised on all sides. After forcing an entrance into the town hall, the rioters pillaged the building, subsequently carrying the residence of the tax collector by assault.

They demolished everything in sight, stole 2,100 pesatas and a box of jewels and attempted to set fire to the house. Serious disorders have occurred at Bronos, near Seville, at which place the village priest had been stoned to death.

MADRID, May 9.—2:00 P. M.—It is announced here this afternoon that the cabinet ministers have placed their portfolios in the hands of Senor Sagasta, the premier, with the view of a probable reconstruction of the ministry.

BURNED TO DEATH.

Mrs. Habell and two Children Lose Their Lives in a Fire.

SENECA FALLS, N. Y.—May 9.—Mrs. Fred Habell and two children were suffocated by a fire that occurred at their home here today. Mr. Habell occupied an up-stairs room with three children, while Mrs. Habell with the two children slept down stairs. Habell was awakened about 4 o'clock this morning by smoke and succeeded in saving the three children who slept with him, but was unable to save the others. The origin of the fire is not known.

WANT INTERVENTION.

An Appeal Made to the United States by Irishmen.

DUBLIN, May 9.—There was a demonstration near West Port, county Mayo, yesterday, to protest against "the indifference of our brutal English rulers towards starvation in Ireland."

It was resolved to start a national appeal to the president and congress of the United States, pointing out the condition of the population "insulted and coerced by insolent foreign masters," and praying for the intervention of the government of the great republic "to obtain self-government for Ireland and a cessation of the famine and over-taxation.

ORDERED SOUTH.

Two Indiana Regiments to Go to Chickamauga.

Second and Third Likely To be the Chosen Ones—Battery I Will Follow in a Few Days.

INDIANAPOLIS, May 9.—Yesterday Governor Mount received the following telegram from Secretary of War Alger:

"It is the intention to order to Camp George H. Thomas, Chickamauga National Park, Ga., the first two regiments of infantry of your state, which shall be first completely equipped. Every effort should be exerted to complete as fast as possible each regiment in turn, rather than all simultaneously. Report by telegraph when first regiment will be ready, also any subsequent changes in date as to when regiment will be ready. It is the intention also to send one battery of light artillery to Camp Thomas."

The telegram was at once referred by Military Secretary Wilson to Captain May at Camp Mount, with instructions to be governed accordingly. Captain May, in speaking of the effect that the telegram would have on his work, stated that as yet no one regiment had been examined entirely and that its effect would be to stimulate all the regiments to become the first to get their men in shape for examination.

As soon as this work is completed, which will probably be this noon, Captain May will call the regiments out before him, and, taking each company, he will read over the names on the roll, each man stepping out from the ranks as his name is called. This is done in order to provide against duplications and to know that each man whose name appears on the rolls is actually present. He will then reach the mustering oath collectively, after which they will be a part of the United States Volunteer army. Before the sun sets tonight the Indiana National guard will be a thing of the past, and in its place will be four regiments of United States volunteers.

SECOND AND THIRD WILL GO SOUTH.

It is definitely known now that the Second and Third regiments, with battery A, have been selected to go. It is expected that the equipment for these troops will be here today and that no obstacle will intervene in the way of the men leaving Indianapolis tomorrow. Captain May, in speaking of the matter, stated that it was probable that before that time he would receive instructions to send the rest of the regiments to the same place if mustered and equipped by that time.

With regard to the other two regiments and Battery E, of Fort Wayne, neither Captain May nor any one else can say authoritatively that their destination is Chickamauga Park, and the fact that the first move made by the Indiana troops is in the nature of a division of forces presents an ominous feature of the chances of General McKee to lead the brigade as a federal organization. In fact, hope had about died in the breast of every one about headquarters, and, while expressing general regret at not being allowed to serve under him, they are more or less reconciled to the inevitable. General McKee presented his usual unruffled countenance yesterday, and if any one hoped to read his own private conclusions as to his chances for appointment in his face they were most signally disappointed. His air of reserved courtesy was the same as usual, and he attended to the details of his work with the same circumspection as has been characteristic with him.

ANNUAL MEETING.

Methodist Pastors and Stewards of Fort Wayne District to Assemble.

The annual meeting of the Methodist pastors and stewards of Fort Wayne district, will be held in the Simpson M. E. church tomorrow. All the other M. E. churches and the public are invited to attend these services. The program is as follows:

TUESDAY.

2:00 P. M.—Devotional by Rev. J. M. Haines.

2:30 P. M.—"Our Local Church Work." Discussion opened by Rev. F. M. Kemper.

3:30 P. M.—"Our Connectional Interests." Discussion opened by Rev. W. H. Daniel.

7:30 P. M.—Devotional by Rev. C. E. Davis. Sermon by Rev. W. D. Parr, D. D. Pentecostal services by Rev. T. M. Guild.

WEDNESDAY.

8:30 A. M.—Devotional by Rev. N. P. Barton.

9:00 A. M.—The apportionment of benevolences, by pastors and stewards.

10:00 A. M.—The stewards will fix and apportion the claim of the presiding elder, and apportion the claims of the bishops and conference claimants.

HONORS FOR DEWEY.

Congress Adopts Resolutions of Thanks.

Gratitude of the People Tendered the Hero.

President Recommends It in a Message.

Congress Passed a Bill Creating One More Rear Admiral and Dewey Will Be the Man—To Get a Sword.

WASHINGTON, May 9. — Honors were showered thick today upon Commodore Grorge Dewey and the heroes of his fleet at Manila.

President McKinley today sent a message to congress recommending that resolutions tendering the thanks and gratitude of the government and the people of the United States be passed by congress.

In both branches the resolutions were adopted without delay and a bill was passed by house and senate creating another rear admiral, to which rank Dewey will be raised.

In the senate a resolution was introduced and passed authorizing the president to present a sword to Dewey and medals to the officers and men who were under him at the battle at Manila. Ten thousands dollars is appropriated for the purpose.

PRESIDENT'S MESSAGE.

Following is the message sent to congress today by President McKinley:

"To the Congress of the United States:

"On the 24th of April I directed the secretary of the navy to telegraph orders to Commodore George Dewey, of the United States navy, commanding the Asiatic squadron, then lying in port at Hong Kong, to proceed forthwith to the Philippine islands, there to commence operations and engage the assembled Spanish fleet.

"Promptly obeying that order the United States squadron, consisting of the flagship Olympia, Baltimore, Raleigh, Boston, Concord and Petrel, with the revenue cutter McCulloch as an auxiliary dispatch boat, entered the harbor of Manila at daybreak on the 1st of May and immediately engaged the entire Spanish fleet of eleven ships, which were under the protection of the fire of the land forts.

"After a stubborn fight, in which the enemy suffered great loss, these vessels were destroyed or completely disabled and the water battery at Cavite silenced.

"Of our brave officers and men not one was lost and only eight injured, and those slightly. All of our ships escaped any serious damage.

"By the 4th of May Commodore Dewey had taken possession of the naval station at Cavite, destroying the fortifications there and at the entrance of the bay and parolling their garrisons. The waters of the bay are under his complete control. He has established hospitals within the American lines where 250 of the Spanish sick and wounded are assisted and protected.

"The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare. Outweighing any material advantage is the moral effect of this initial success. At this unsurpassed achievement the great heart of our nation throbs, not with boasting or with greed of conquest, but with deep gratitude that this triumph has come in a just cause and that by the grace of God an effective step has thus been taken toward the attainment of the wished-for peace.

"To those whose skill, courage and devotion have won the fight, to the gallant commander and the brave officers and men who aided him, our country owes an incalculable debt.

"Feeling as our people feel and speaking in their name, I at once sent a message to Commodore Dewey, thanking him and his officers and men for their splendent achievement and overwhelming victory, and informing him that I had appointed him acting rear admiral.

"I now recommend that following our national precedents and expressing the fervent gratitude of every patriotic heart, the thanks of congress be given acting Rear Admiral George Dewey, of the United States navy, for highly distinguished conduct in conflict with the enemy, and to the officers and men under his command for their gallantry in the destruction of the enemy's fortifications in the bay of Manila. WILLIAM M'KINLEY.

"Executive Mansion, May 9, 1898."

Senator Hale and Representative Boutelle, chairman respectively of the senate and house committees on naval affairs, were called to the white house during the cabinet session this morning, to consider the resolution of thanks recommended in the president's message. They spent but a few minutes, and the chairmen subsequently met at the capitol and decided upon the form of legislation for making Commodore Dewey a rear admiral, to be introduced simultaneously.

In the senate Mr. Hale presented the resolution of thanks to Commodore Dewey and a bill permitting him to be made a rear admiral. At the same time Mr. Boutelle presented the resolutions and a similar bill in the house.

THE RESOLUTIONS.

Following are the resolutions presented and passed:

"Joint resolutions tendering the thanks of congress to Commodore George Dewey, U. S. N., and to the officers and men of the squadron under his command:

"Resolved, By the senate and house of representatives of the United States of America, in congress assembled, that in pursuance of the recommendation of the president, made in accordance with the provisions of 1508 of the revised statutes, the thanks of congress and of the American people are hereby tendered to Commodore George Dewey, U. S. N., commander-in-chief of the Asiatic Squadon, for highly distinguished conduct in conflict with the enemy as displayed by him in the destruction of the Spanish fleet and batteries in the harbor of Manila, Philippine island, May 1, 1898.

"Section 2. That the thanks of congress and of the American people are hereby extended through Commodore Dewey to the officers and men under his command, for the gallantry and skill exhibited by them on that occasion.

"Section 3. Be it further resolved, that the president of the United States be requested to cause this resolution to be communicated to Commodore Dewey and through him to the officers and men under his command."

The resolutions were passed by the senate as soon as read, and at 10:20 they were passed in the house by a rising vote.

BILL PROMOTING DEWEY.

The following is the bill passed by congress raising the number of admirals from six to seven to provide for Commodore Dewey's promotion:

"Section 1. That the number of rear admirals in the United States navy now allowed by law be and is hereby increased from six to seven, and this act shall be construed and taken as validating and making in force and effect any promotion to said rank of rear admiral in the United States navy made heretofore or hereafter and during the existing war and based on the thanks of congress."

Senator Lodge presented and the senate passed a resolution authorizing the president to present a sword to Dewey and medals to officers and men under him who were in the battle at Manila. It appropriates $19,000 for the purpose.

SUNDAY RIOTS.

Three Hundred Persons Slain in Milan.

One Thousand Were Injured—Troops Repulsed in a Charge Upon the Maddened People.

LUGANO, Switzerland, May 9.—Sunday was a terrible day at Milan. About 1 o'clock in the afternoon a veritable battle occurred in the Via Somtrairie. Thousands of tiles and chimneys were hurled from the roofs upon the troops, who were compelled to retire. A similar fight took place in the Via Torino, and it is believed that no fewer than 300 were killed and 1,000 injured.

A Swiss merchant who has arrived here from Milan describes the events of Sunday as completely anarchistical. According to his account the leaders of the agitation evidently had well arranged plans. Columns of rioters emerged from all the gates of the town and converged on a center, where they rapidly constructed barricades.

When they were disloged by the troops they mounted to the roofs and rained tiles and chimneys down upon the soldiers.

The gates of the town were held by troops in the evening and throughout the night, so that workmen employed outside were unable to return to their homes. In this way the rising was deprived of additional help from without. During the night the city was in almost complete darkness and funeral silence. Artillery, cavalry and infantry bivouacked on the Piazza del Duoma, where re-enforcements were constantly arriving.

Late news last evening from Milan said the Secola had been seized and its editor arrested. The Postal telegraph offices have been closed and all dispatches of mails stopped. The public buildings are guarded.

Many fugitives from Milan have crossed the frontier into the canton of Ticino and to Fontana, among them being the editor of the Italia Del Popolo, the incriminated republican paper, who eluded the police. Eight thousand troops are quartered in the city.

The night passed without any further serious rioting, though the city was in partial darkness, owing to the destruction of the electric lighting wires. A proclamation has been issued calling upon the people to remain tranquil. Re-enforcements of troops continue to arrive here. They will guard the outskirts of the city.

Mr. and Mrs. S. L. Leszynsky, of San Francisco, are guests of friends in the city. Mr. Leszynsky is the western representative of the Foster Shirt Waist factory and this is his first trip to this city.

WILL PUSH THE WAR

Aggressive Measures To be the Program.

Cabinet Decides on a Vigorous Campaign.

The Fighting Will be Forced From Now On.

Troops Will be Hurried to Dewey—Havana Will be Attacked from Rear by United States Troops and Insurgents.

WASHINGTON, May 9.—At today's special cabinet meeting the leading subjects of discussion were the measures to be taken to reinforce Admiral Dewey at Manila and the probable movement on Cuba. As to the former there has been no material change in the plans. Approximately 5,000 troops will be dispatched on the City of Pekin and other transports. The Charleston will act as convoy.

The McCulloch has not left Mirs bay, outside Hong Kong harbor, where she is waiting further instructions to Admiral Dewey, which will be sent probably today or tomorrow. In his cablegram received here Saturday the admiral made no request for troops, not knowing the governor's intention in regard to the occupation of the islands. It seems quite certain, however, that the government intends to make an active campaign against the Spanish forces there and Admiral Dewey will be so informed.

It is not probable that the squadron will bombard the city or engage in an active work against the fortifications there except such as the admiral may find necessary in order to retain control of points now in his possession.

On the arrival of the troops, which will be immediately concentrated from the Pacific coast states, it is expected that a landing be made at once and operations begun to capture the city and reduce the remaining fortifications. In addition to the five or six thousand troops the transports also will take out a considerable cargo of supplies, including ammunition.

The president and the members of his cabinet are now expecting important news from Admiral Sampson's fleet which was dispatched against Porto Rico. It is believed that his victory there will be as complete that of Admiral Dewey at Manila although it is hardly to be expected that the consequences to his fleet will be as unimportant.

No alarm is felt as to the whereabouts of the Spanish fleet and it certainly is not expected that Admiral Sampson will encounter them at Porto Rico.

As to the plans of campaign in Cuba it is understood that there has been no material chance from those announced some time ago. At the proper time it is expected that a landing of a considerable force with provisions and munitions for the insurgents will be effected at some easily accessible point and that an active campaign will then begin from the rear as well as from the fleets in front of Havana and other important seaports.

TRANSPORTS AND TROOPS WAITING.

SAN FRANCISCO, Cal., May 9.—Within this week 5,000 men will be quartered at the Presidio in this city awaiting transportation to Manila. Every day troops from Oregon, Washington, Utah and Idaho will be pouring in and the work of mustering in the militia will continue. The state and federal authorities here are working night and day to have all in readiness when the transports are alongside the wharves for their freight. Gen. B. C. Merriam is expected here hourly from Vancouver. Word came from Washington late last night that all branches of the service would be represented in the first shipment of troops to the Philippines and that California had earned the warm commendation of the secretary of war for its admirable celerity in mustering in its quota and for the character of those that composed it. No effort is being spared to get into the ranks of the army and navy every company in California.

Adjutant General Barrett has sent to General Greely, chief of the signal corps at Washington, information that 100 men of California's signal corps stand fully equipped and well qualified to go to the front immediately. The naval militia is extremely anxious to be assigned to duty.

The vessels in port or expected here during the next forty eight hours that could be used as transports for men, horses, munitions of war and coal, are the Australia, Mariposa, Ohio, City of Pueblo, Leelanaw, City of Pekin, City of Sydney, Progresso, Washtenaw and Willamette.

Of these, the Ohio and Leelanaw were brought out here from the east for the St. Nichols trade and it will not take long to fit them out to carry a large number of troops.

The Progresso carries 3,000 tons, the Washtanaw 4,000 tons and the Willamette 2,400 tons of coal. They are now on their way here heavily laden.

The big Australian colliers Burmah and Tinia are now on their way here from Nanaimo, B. C., with about 10,000 tons of coal between them, so they would fill up the American steamer Progresso, Washtenaw and Willamette in short order.

The military camp at the Presidio is visited daily by thousands of citizens and the patriotic spirit of the people is shown by flags flying throughout the city.

ALMOST TRAPPED.

Vicksburg and Morrill Barely Escape Destruction.

Tricked by a Spanish Decoy Schooner, the Warships Get in Range of the Havana Batteries.

KEY WEST, May 9.—Only the poor marksmanship of the Spanish gunners saved the Vicksburg and cutter Morrill from destruction off Havana Saturday morning. For over half an hour they were under the fire of the guns of the Santa Clara water batteries, but both escaped without material injury, although sharpened shells flew from eight inch guns and exploded all about them, and both now show pitted scars of the Spanish bullets. A small schooner was sent out from Havana harbor before daylight yesterday to draw the Americans into an ambuscade. She was not discovered until three miles off shore. The Morrill and Vicksburg were about six miles from the schooner when the chase began. They steamed after her at full speed, the Morrill leading until within a mile and a half of the Santa Clara batteries.

An eight inch Shrapnel passed over the Morrill between the pilot house and smokestack, and exploded less than fifty feet on the port quarter. Two more shots followed in quick succession. One burst close under the starboard quarter and the other, like the first, passed over and exploded just beyond. The Spanish gunners had the range and their time fuses were accurately set. Both boats withdrew rapidly. A solid eight inch shot grazed the Morrill's starboard quarter. All guns of the water battery were now at work. One of them cut the Jacob's ladder of the Vicksburg adrift and another carried away a portion of the rigging.

As the Morrill and Vicksburg steamed away their aft guns were used, but only a few shots were fired.

The Spaniards continued to fire shot and shell for twenty minutes. Their shots were ineffective. As soon as the ships sheered off after the first fire, the Spanish gunners lost the range and their practice became ludicrous. Later in the day the Morrill captured the Spanish schooner Espana, bound for Havana, and towed the prize to Key West.

IT WAS A FAKE.

A Sensational Bulletin Causes Much Excitement.

Rumor That the Cincinnati Was Completely Destroyed the Work of an Imaginative Brain.

In years there has not been the intense excitement here caused by the posting of a bulletin last evening at the corner of Calhoun and Berry streets that Sampson had been defeated and the cruiser Cincinnati completely destroyed by the Spanish boats. The rumor spread like wild fire and in less than an hour the telegraph and newspaper offices were besieged with hundreds of visitors and telephone calls came in by the scores. On the Cincinnati is Ensign Freeman, of this city, and his relatives and friends were sorrowful. The alleged terrible defeat was announced in some of the local churches. At 7:30 inquiry at the Chicago office of the Associated Press brought the answer that there had been no battle and the Cincinnati was safely harbored at Key West.

JOHN RYAN'S NERVE.

Not many young men who desire to enter the army to defend "Old Glory" will display the nerve exhibited by John B. Ryan, of this city. He joined Company B so that he would be in the front at the beginning. When he was examined Dr. W. W. Barnett found that the cords were so affected in one of his legs that he could not be accepted. John asked if an operation would help and when told that it would he went to an Indianapolis hospital, the operation was performed and now he is improving so rapidly that within a few days the young man will be able to take his place alongside the other patriots.

MUST BE PERFECT PHYSICALLY.

As there are many young patriots who desire to enlist in the army as volunteer soldiers, it is well for them to known that the secretary of war has instructed all United States mustering officers to refuse all persons under 18 years of age, and also all who have any physical defect, and especially all those whose eyesight is at all impaired or imperfect. Perfect vision is one of the many essentials of a soldier, as his own life and that of the army might depend on his being able to correctly distinguish signals and persons. The government will only accept, as volunteers, men nearly physically perfect. It is useless for others to try to get into the army.

SAMPSON THE NEXT.

The Country Now Waiting to Hear From Him.

News of a Battle Expected in a Day or Two.

Spanish Cruiser Puts in at Port St. Thomas.

The Battleship Oregon Reached Bahia, Brazil, This Morning—Her Movements are Secret—Naval News.

WASHINGTON, May 9.—Nothing has been learned here today of the whereabouts of Admiral Sampson's fleet. No news respecting it has been given out from the navy department. It is expected that he will have met and engaged the Spanish fleet by tomorrow night.

ST. THOMAS, West Indies, May 9.—The Spanish cruiser Isabel II, an iron vessel of 1,130 tons displacement and carrying a crew of about 130 men, arrived here at 6 o'clock this morning. Her commander communicated with the Spanish consul at this port and the cruiser cleared immediately, destination unknown. No news has been received here of any engagement yesterday.

LISBON, May 9.—The newspapers of this city say that a Spanish fleet, consisting of nine vessels, passed Cape Espichel, twenty-one miles south by west of this port at about 1:30 o'clock yesterday afternoon. The fleet was steering a southerly course.

BAHIA, Brazil, May 9.—The United States battleship Oregon arrived here at 2:30 this morning. It is said she is now acting under secret instructions from Washington.

NEW YORK, May 9.—The Commercial cable sent out notice that the cable between Montevideo and Rio Grande do Sul is interrupted. This cuts off telegraphic communication with Montevadio and places south, including Buenos Ayers.

DELAWARE BREAKWATER, Dela., May 9.—The auxiliary cruiser St. Paul, Captain Sigsbee commanding, put to sea this morning. Her destination is not known.

NEW YORK, May 9.—The Commercial cable company announces that it is advised that telegrams for Spain written in code or cipher can only be accepted at senders' risk.

NASSAU, N. H., May 9.—First Lieutenant Andrew S. Rowan, of the Nineteenth infantry, the agent of the United States war department, who has been on a visit to Cuba, arrived here today, after accomplishing his mission. He has seen the Cuban leaders and, incidentally, he saw Rear Admiral Sampson's fleet steering in an easterly direction. Lieutenant Rowan left Cuba May 1 in an open boat.

NEW ORLEANS JOINS FLYING SQUADRON.

ON BOARD THE FLAGSHIP BROOKLYN, OFF FORT MONROE, Va., May 9.—Commodore Schley and his staff watched with great interest this morning from the bridge of the flagship the arrival of the new cruiser New Orleans. She came up Hampton Roads at a pretty lively gait and about 10 o'clock anchored about three miles distant from the squadron.

The New Orleans is in command of Captain Folger, and when she dropped anchor here and saluted the commodore's flag became one of the flying squadron.

Commodore Schley and officers of the fleet expressed admiration at the general appearance of the new cruiser. She is evidently a better fighter than the detached Columbia although not quite so fast.

Commodore Schley decided not to have her go up to Newport News for either coal or painting and she will remain at anchor here getting her coal from lighters. The Minneapolis will come down this afternoon fully coaled and the squadron will then consist of three cruisers, two battleships and a converted yacht.

The formidable dynamite cruiser, the Vesuvius, got away finally this morning from Key West, accompanied by the Swanwee. Both boats will join the blockading squadron in the vicinity of Cuba.

INSURGENTS EAGER TO FIGHT WITH UNCLE SAM.

NEW YORK, May 9.—The Evening Post's Key West correspondent today says:

An artist who has just arrived from Gomez's camp says that there are 18,000 Cubans in the neighborhood of Sancti Spiritius, but they are short of arms and ammunition. They also have difficulty in obtaining sufficient food, but are full of enthusiasm and desire to co-operate with our army. The condition of the reconcentrados is described as pitiable in the extreme.

TO ICY DEATH.

Ice Gives Way Beneath Party of Klondikers.

A Score of Men Precipitated to Certain and Awful Death—None of the Victims Yet Identified.

SAN FRANCISCO, May 9.—A special to the Examiner from Victoria, B. C., says:

On Monday last the ice covering a defile near Crater Lake, gave way under the passing throng of Klondikers, and more than a score of men were precipitated into the water and carried to certain death beneath the river's frozen coating. Dr. C. F. Frizelle, of Los Angeles, who came down in the Alki, who brings the news, passed the scene only a few hours after the calamity occurred. It was on the other side of the summit between Linderman and Long lake, at a point in the canyon some twenty-four miles above Stone House, where an ice slide over a mountain stream has been utilized as a path for sleds by the fortune seeker. A number of men were advancing in an unbroken rank, each hauling a heavy laden sled, when there was a sudden crash.

The ice opened for thirty feet or more and in an instant twenty-two men with their supplies were whirled down and under the smooth surface of the stream to drown without even the chance of battling for life. The names of the victims of the ice Dr. Frizelle says he cannot give. There is no possibility of identifying them now, he says, nor can the names be announced with positiveness until the bodies are delivered by the stream at the lake or the disappearance of the ice.

Four Montana and two California men are thought to have been among the victims, while the others included an eastern party of seven, almost all being remembered only by the nicknames which western freedom had given them.

MAINE MEMORIAL.

Heroes of the Battleship Honored by Churches.

Rev. Sherman Powell Preaches a Brilliant Discourse—Rev. W. D. Parr Talks of the War.

Maine memorial services were held in several of the M. E. churches of Fort Wayne last evening. Sermons especially appropriate to the occasion were preached and the services were attended by unusually large audiences. Music appropriate and thrilling was arranged, and the throngs of people were wrought to a high pitch of patriotic fervor.

TRINITY M. E. CHURCH.

At Trinity M. E. church every available inch of room was occupied, and the crowd overflowed to the outside, and strained its ears to catch some fragment of the discourse.

The music was stirring and well rendered. The address of Rev. Sherman Powell, the pastor, aroused great enthusiasm, and evoked several demonstrations of high feeling. Rev. Powell discussed the Spanish character with special reference to Spain and its national aspect.

"Honor without character is an ephemeral pretense," he said. "The only honor Spain has to defend is the honor of being the most intolerant, the most cruel and the most tyrannical nation in Christendom."

WAYNE STREET M. E. CHURCH.

Memorial services at Wayne street M. E. church were attended by a great audience and the sermon by Rev. W. D. Parr was strong and appropriate. He referred to the destruction of the Maine as the darkest incident of its kind in all history. He did not hold the Spanish government directly responsible, but Spanish influence was responsible. Rev. Parr said that now the war was on it was the duty of all citizens to support the administration. "We do not want one inch of land," he said. "We do want justice and fair play, and now that war is on we mean to have it, you will see. What a spectacle! The young republic literally going a gunning on mercy's account. It is America's honor to give the new and broader definition to the doctrine of brotherhood. By devotion to duty the heroes of the noble Maine have built their own monuments. The tooth of time cannot destroy it. A grateful people will never forget."

The annual election of officers of the Morning Musical was held at the Fort Wayne club Saturday morning, with the following result: Mrs. W. H. Myers was re elected as president; Mrs. S. C. Lumbard, vice president; Mrs. G. E. Bursley, second vice president; Mrs. Will Crighton, third vice president; Miss Edith Yarnelle, recording secretary; Miss Helen Smyser, corresponding secretary; Mrs. Minnie Brown, treasurer; Miss Stella Sweringen, librarian.

Justice Bullerman this morning united in marriage in his office Robert Veiweger and Ida Weiss.

C. J. Welker,

118 Calhoun St. Schmitz Block.

HEADQUARTERS FOR SHIRT WAISTS.

Ladies' percale waists, beautiful range of patterns, worth 75c, special price 50c.

Ladies' fine shirt waists, splendidly made of fine percale, beautiful assortment of plaids. and stripes, worth $1.00, at 75c.

Ladies' fine shirt waists, new styles, new patterns and fast colors, in fine gingham, madras, percale and cheviots, at special prices—$1, $1.25, $1 50 and $2.25.

BELTS AND SHIRT WAIST SETS.

Bargains in ladies' leather belts, at 25c, 39c, 50c, and $1.00.

Shirt waist sets, a new line just received at about half regular prices 10c, 25c and 50c.

SPECIAL SALE OF TOILET SOAPS.

5 gross Chaddock's Medicated soap at 10c a cake, or 25c a box of 3 cakes. Try it and you will use no other. We guarantee it to give perfect satisfaction.

5 gross wild rose boquet toilet soap, 10c a box of 3 cakes. A splendid soap for the money.

FREE! FREE! FREE!

WHEN Uncle Sam gets Cuba "pacified" perhaps he will find time to pacify Spain.

PAUL JONES was more fortunate than Dewey. His name was no encouragement to the fanny men.

SOME legal measures are in order to protect the thrice glorious name of Dewey from the blasphemies of the irrepressible punster.

THE Spaniards have abandoned Manila. What Dewey now needs is troops and the Philippines will be under the stars and stripes.

THE real war is raging among about a dozen of the leading American newspapers, each one of which solemnly claims to have scored a great "beat," the most "remarkable journalistic achievement of the century," in first publishing the news that Dewey had been heard from and giving details of the great engagement at Manila.

CUBA should soon be rid of Spaniards. Havana waits to be taken. As soon as Sampson finishes his work with the Spanish fleet and reduces Porto Rico the only remaining detail will be the conquest of Spain in Cuba. And that will be as easy as any job yet undertaken. The soldiers of the new republic will help the affair along with vast celerity.

FROM Washington comes the welcome announcement that henceforth the war against Spain is to be pushed with all vigor. That is the thing to do. Strike the enemy and give him no rest. To strike and keep striking was the offensive policy of Napoleon. Grant made it his rule of war to hurl himself upon his enemy whenever and wherever he found him. It is good news that the United States intends to force the fighting. That will mean a speedy end to the war.

THE disparagement of our navy has been so persistent for years that the people have witnessed with a thrill of delight the developments of the last month. Though the United States navy is far from commensurate with the position we hold among nations, great progress has been made in the last few years in naval construction. Congressman Boutelle, chairman of the house committee on naval affairs, says that fifteen years ago there was not a modern gun afloat in the navy of the United States. Since that time $38,000,000 has been appropriated for naval expenses, the tonnage has been increased 258,000 tons, 5,500 men have been added to the enlisted force, 114 vessels have been built, sixty-three torpedo boats and destroyers have been authorized, and a navy has been made that is capable of throwing at one discharge of its guns 122,260 pounds of metal.

IT is not at all likely that in the event of the invasion of Cuba the American troops will suffer from disease in any such proportion as the Spanish forces have experienced. Medical skill is already at work on precautionary measures. Maps pointing out the fever tracts have been made and will be used in planning campaigns. United States soldiers will be better cared for than the Spanish, and will care better for themselves. Medical attendance will be the best, and the sanitary regulations will be faithfully enforced. There is no doubt of the dangers to health of the low-lying districts of Cuba, but it is a question if the menace is greater than in some parts of our own southern coast. The Americans who have fought with the Cuban insurgents in the highlands do not seem to have suffered severely from disease, and it must be remembered that insufficient and improper food has had much to do with the military distress in Cuba.

A Southern Tribute to Grant.

The first and firmest friend found by the defeated south was U. S. Grant.

The great soldier's efforts to restore entire peace and brotherhood began at Appomattox, when he accepted the surrender of Lee's army upon terms more magnanimous than victor had ever before extended to foeman. Grant made peace between north and south possible, and from the day the confederate army stacked its arms under the stars and stripes to that mournful day when the final summons came to him on Mt. McGregor, Grant hoped and prayed and strove for peace—everlasting brotherly peace. At the Grant birthday dinner in New York, the other day, Henry Watterson, the brilliant editor of the Louisville Courier-Journal and an officer in 1864 on the staff of the confederate general, Joe Johnston, called Grant "our great captain." In his address on the "Reunited Sections" Colonel Watterson referred to the present union of the once hostile sections as a sight that would have gladdened Grant's heart. Said the speaker:

"If the illustrious soldier whose memory we celebrate were with us here tonight, his heart would glow with satisfied pride in the answer which time has made to his prayer for peace between the once warring sections of the union and in the spectacle which the present unfolds of a whole people rallying as a single man under the stars and stripes.

"I cannot help thinking that, when the history of our generation comes finally to be made up, it will be related that two mistakes of the first order were perpetrated by the people of the United States the latter half of the nineteenth century. It was a mistake of the south, for any cause whatever, to precipitate a war of sections, and it was a mistake of the north, after the overthrow of the confederacy, to undertake a reconstruction of the union by force of arms. That the country has survived errors of such magnitude is proof of amazing vitality: of a vitality that draws its sustenance from the adaptability and the flexibility of free institutions and from a popular character equal to all emergencies. Man proposes and God disposes, and often we build wiser than we know. Perhaps the very mischances of these forty years of domestic controversy were needful to make us the nation we are today.

"It was General Grant himself who issued the order finally withdrawing the troops from the southern states, and, when we remember that it was none other than Grant who stood between the confederate soldier and a surrender that might have been dishonoring to American manhood, the debt we owe our great captain becomes incalculable."

When the south begins, as it has, to look back to Grant as "our great captain," it is time to realize that the wounds of the war have not only healed, but the scars have disappeared.

RUSH WAR ORDERS.

Cleveland Concern Filling Big Contract for Ponchos to be Used in Cuba.

CLEVELAND, May 9.—The Cleveland rubber works has just received a rush order from the United States government to furnish 15,000 ponchos for the volunteer army. The ponchos are light rubber blankets 72x45 inches, and are adapted to three uses. They can be used as blankets, as capes, or four of them may be laced together and made into a tent. It is the intention of the government to furnish all the volunteers with these blankets as they will be especially serviceable in Cuba during the rainy season.

Another order for 50,000 ponchos will probably be given the company within a few days.

Messrs. Warner and Swasey today shipped the various coast forts the first installment of new telescopic sights they have been making for the big guns.

Lieutenant Mongomery, of the United States army, inspected the new instruments and has pronounced them all right. The contract for these telescopic sights is the first given to an American firm, they having heretofore all been made in England.

Veterans of the late war are talking of arranging a public demonstration in honor of Admiral Dewey's great victory in the Philippines. Members of the G. A. R. and Union Veteran Legion are in favor of such a celebration, believing that such an event in American history deserves to be commemorated. Some of those gentlemen will probably call upon the city officials, and will also call on the business men, to work up a sentiment in favor of a public gathering.

WON ONE A PIECE.

New Castle and Fort Wayne Split Even Yesterday.

The Fort Waynes Could Not Solve Clarence Smith's Three-fingered Curves—Guese Was Wild—Notes.

There were more than 1,500 people at Lakeside park yesterday afternoon to see the double-header between the Fort Wayne and New Castle base ball clubs. Both games were interesting and each team was credited with a victory.

Clarence Smith, the young gentleman whose fingers are rather scarce on his pitching hand, was in the box for the Yanigans and the local batters could not solve his deceptive curves. Try as they would, only three times were Fort Wayne's hard sluggers able to hit the sphere safely and any "crank" knows that a game cannot be won on three hits. Minnehan pitched a nice game, too, and but for a wild throw by Fitch the score would have been 2 to 1.

Guese started to do the twirling for the visitors in the second game, he having pitched the eleven-inning, two to one, game last Friday. Yesterday, however, he was very wild and in four innings hit two men and gave four bases on balls. When he did get the ball over the plate the Fort Wayne sluggers generally lined it out for a safe hit. After seven runs were scored Woodside was sent to the pitcher's box by Manager Lytle and although he was hit as hard as Guese he had better control and kept the hits scattered. the result being that in five innings only one run was scored off him. Reiman pitched for Fort Wayne and was hit harder than Minnehan, but the hits were not bunched enough to score many runs. Scores:

MANSFIELD, 6; TOLEDO, 2.

TOLEDO, Ohio, May 9.—Inability to bat Miller's delivery, coupled with four rank errors by Second Baseman Beck, lost yesterday's game to the Mansfield team, which played its first game of the season here. The score:

Mansfield ....0 1 1 1 0 0 1 2 *— 6
Toledo.,.....2 0 0 0 0 0 0 0 0— 2

Base Hits—Toledo, 5; Mansfield, 7. Errors—Toledo, 6; Mansfield, 4. Batteries—Keenan and Arthur; Miller and Law. Umpire—Colgan.

YOUNGSTOWN, 17; GRAND RAPIDS, 10.

GRAND RAPIDS, Mich., May 9.—The visitors made nine runs in the third on four hits and five Grand Rapids errors. The score:

Youngstown .5 0 9 2 0 1 0 0 *—17
Grand Rapids.5 1 0 0 0 1 0 3 0—10

Hits—Grand Rapids, 18; Youngstown, 12. Errors—Grand Rapids, 8; Youngstown, 3. Batteries—Camp, Kostel and Cole; Brunner, Garvey and Zinran.

DAYTON, 7; SPRINGFIELD, 6.

DAYTON, May 9.—Dayton won the game here yesterday before an audience of 3,000. It was close and exciting from the start, as the teams are great rivals. The score:

Dayton .....0 0 1 2 2 1 1 0 0— 7
Springfield...0 0 2 0 2 0 0 0 2— 6

Base Hits—Dayton, 10; Springfield, 9. Errors—Dayton, 1; Springfield, 3. Batteries—E. Brown and C. Brown; Crabill and Graflius. Umpire—Lally. Time—2:00.

NOTES.

That was a cracking big crowd at Lakeside yesterday.

Warner's judgment on balls and strikes is not perfect and he is inclined to even up.

Pitcher Beam has signed a Mansfield contract and the Haymakers are correspondingly happy.

Hickey was strictly in it yesterday. His batting and Babb's fielding were features of Fort Wayne's play.

Youngtown is here for three games. Alloway is twirling today. Patterson will be in the points tomorrow.

The west side bleechers fell yesterday with several hundred people on them, but luckily no person was injured.

The Robison Park league season will open on the 29th of this month. Work on the grounds will begin this week.

The Youngstown ball team arrived at noon today and are guests of the Randall.

Belden is able to be about and has been on the bench with the other members of the team during the last two days. He may be able to play in a week.

Toledo Commercial: "'Shorty' Wetzel is again with the Dayton team. Aside from 'Goat' Fitch he is the most diminutive ball player in the league."

Grand Rapids fans are delighted with the article of ball put up by the Inter-State league, and are not at all sorry over their divorcement from the class A organization.

Manager Geer, of Youngstown, has released John Spears, pitcher, and John Smith, catcher. He expects to get two players from the Pittsburg league team—a first baseman and catcher.

Patterson, the Youngstown first baseman, never handles a ground ball cleanly, but he always ceases his fumbling just in time to retire a runner who may be getting encouraged at seeing his juggling specialty.

The Keystones defeated the True Blues yesterday at the jail flats by a score of 7 to 3. Batteries—For Keystones, Bates and Connelly; for True Blues, Green and Boseker. Bast hits—Keystones, 11; True Blues, 5.

George Tebeau sends word to THE SENTINEL that he is well pleased with the new rules of the game. He says he never kicked except when he believed he had a "kick coming" and then he kicked good and strong. He would not have it any other way than the Brush resolution makes the game.

The ball game on the Concordia college grounds last Saturday afternoon was disastrous to the Penna club, the score standing 20 to 13 in favor of the college boys. This defeat has led to a reorganization of the Penna club, which hereafter will be under the management of W. S. Wells, with Frank Doriot as secretary and W. Y. Cherry as captain. Hugh Hogan, jr., who last year was a member of the Robinson Park league, has joined the Pennas and the club has been strengthened by other additions. On Saturday, May 21, this club will play the South Bends at that city and on Memorial day it will play at Columbia City with the Warsaw club.

Nattress is undoubtedly the best ball player in the New Castle team. He is the speediest runner, covers a big lot of ground and can hit as safely as any member of the team. His fielding while here was not perfect, but the poor fellow was on "nettles" all the time. Not only were the members of the team roasting him, but Manager Lytle kicked because the scorer did not credit up more errors against him, and the fast little fielder was covering more ground than any other two players on the team. He can give Lytle cards and spades and then beat him playing any point of the game. Quit knocking and New Castle will have the fastest little short stop in the Inter-State.

The Rifles defeated the Shamrocks yesterday morning by a score of 11 to 10. Heller was handled in gilt-edged style by Eising, but was given poor support on the infield. Collars' work in center was fine. Slow work on the bases and inability to connect with Baker's curves in the last inning lost the game to the Shamrocks. Tegtmeyer was in the points for the Rifles until the last inning, when a hot liner from Robbins' bat put him out of the business. When Tegtmeyer retired the score was 11 to 10 with two Shamrocks on bases and no one down. Baker went in the box at this point, and struck out the first two men up. The next hitter was retired on an easy one to Baker. Braiden caught two men on the bases in the eighth inning. Tegtmeyer has plenty of steam, and with a little coaching will keep the Robison Park league teams guessing.

Columbus Journal: "The New Castle Inter-State league team is touring that circuit, heralded as an aggregation that could jump into the Western league and beat at least five teams that belong to Ban Johnson's "eight." In other words, the New Castle management states that their team could join the Western league and finish third or higher in the race. If winning seven out of the eight games at the opening of the season inflates the top pieces of the New Castle magnates to such an extent, some enterprising hatmaker should keep a representative with the New Castle team, as new headgear will be required frequently, until the inevitable process occurs. The New Castle team seems to be a good one in that company, but such absurd claims can only emanate from the brain of pipe devotees, who would do well to follow the example of Manager Torreyson of the Grand Rapids team. The latter gentleman honestly says that Inter-State ball cannot be as fast as the Western league furnishes, but that does not detract from the interest, as any time teams are well matched, no matter how small the league, complete satisfaction is given patrons." The New Castle team is not as strong by any means as several other clubs in the Inter-State.

Saturday workmen, while digging a trench near the barn in the barnyard at the C. S. Knight home on Spy Run avenue, dug up the almost intact skeleton of a man, presumably an Indian. The figure of the man must have been of good stature, for only a few of the bones of the skeleton are missing, and the frame is that of a big man. All of the teeth have remained in their place in the jaws of the late lamented red man, and this fact, too, tends to prove that the deceased belonged to the American rather than the Caucasian race.

IN POTTER'S FIELD.

Sleep the Heroes of the Battleship Maine.

In Unmarked Graves, Beneath the Fierce Tropical Sun They Rest—Old Cemetery at Key West.

(Copyright 1898, by the Associated Press.)

FROM A STAFF CORRESPONDENT.

KEY WEST, Fla., May 6.—In the outskirts of the town, where the small Spanish cottages cluster silent and sunburned along the narrow street, is the city cemetery of Key West.

Near the main entrance, which is guarded by a croaking old wooden gate, is a group of newly made graves.

They are in the Potter's field—the part of the burying ground set apart for the pauper dead. These are the graves of the heroes who lost their lives on the battleship Maine in Havana harbor on the night of February 15.

There are twenty-four of them unmarked. Above each mound of glistening white limestone soil a small American flag droops in the fierce sun that beats incessantly down upon this island. The flags are faded and frayed When a breeze comes up from the ocean they flutter sadly for a moment and again droop to the scorched earth.

On the center of each mound is a small glass goblet which still holds the discolored and withered stems of flowers.

"They were put there by a lady from Philadelphia," said the dreamy old sexton, "but I don't know who she was. She came here about ten days after the bodies were buried and put flowers on all the graves. I asked her who she was, but she said no matter."

And these faded little flags and withered stems of flowers are all that mark the resting place of the heroes of whom the civilized world has been talking since the fatal night, nearly three months ago. There is nothing else to tell the stranger who passes through the potter's field where the heros of the Maine are sleeping.

The space where the graves are was evidently prepared in great haste. Near the little white mounds on all sides are unsightly heaps of litter and rubbish.

In one spot stands an old hearse, weather beaten and ghastly in its very aspect of loneliness and decay. The sexton said it had once been used as the city hearse, but one day it broke down while carrying a body to the potter's field and there it still stands.

Just to the north of the resting place of the Maine sailors is a small iron inclosure which marks the grave of Bridget E. Hoffman, who died in 1864.

"I guess we will have to call her Mother Hoffman," said the old sexton, "for she is the only one buried here who's got a name, and I think she ought to be mother of everybody in potter's field."

Very close to the twenty-four mounds is a group of thirty-six naval seamen who died of yellow fever. The sexton, however, was unable to tell when they were buried there. Nothing on the little twelve-inch slabs at the head of each group tells the story of the life or death of the dead seamen. The names and the words "United States navy" alone are carved upon the slabs.

But nature, even with the barren lime rock below and the scorching sun above, seems trying to do what the hand of man has failed to do in beautifying the graves of our heroes. Luxuriant trees of the tropical species are all about the newly made graves. On one side a massive green cactus lifts its pulpy foliage high in the air. On the opposite side a row of tropical trees refreshingly green are in full blossom, and with every breeze cover the sunburned mounds with beautiful scarlet flowers.

Near another side of the little burial plot is a row of royal spruce pines which throw a shadow upon the graves in the afternoon and through those branches the sea breezes constantly sing when the sun has gone down.

Rarely does any one visit the place. It is without care or attention—a by-corner of the island, where for two centuries Spaniards, negroes and fisher folks have put their dead and forgotten them.

Perhaps one-half the graves in the cemetery are those of unknown sailors whose sleeping places are unmarked. Most of the inscriptions on tombstones are in Spanish. The graves of the Maine's victims are surrounded by tombstones with Spanish inscriptions. It is a picture of melancholy desolation.

The graveyard is located on a high point in about the middle of the island and from it the great stretch of blue ocean may be seen on either side but a half mile distant. There is no soil there. The graves are carved out of the limestone and rock. All day the sun beats down upon the barren white rock surface until the scanty vegetation curls and crackles in the heat. Rarely is there a sound to break the melancholic silence.

Sometimes one hears the weary cry of a sea bird overhead, or the soft parrot-like voices of the Spanish children in the cottages nearby but that is all.

The voices from the warships out at sea, the clatter of commerce in the harbor and the idle babble of the town never disturbs the sleep of our hero sailors here in their rock-bound berths.

Of the twenty-four who are buried here only two were identified. They were a negro and a Japanese. It is probable that at some future time they may be removed to another burial place. If not, a suitable monument will be erected to their memory.

Mothers, be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. May8eod&w

At the meeting of the Fireshire association, held in London last night, Dr. Wallace told a story of a pensioner who used to stand with a placard on his breast enumerating his claims to the coppers he begged. The list ran thus: "Battles, 4; wounds, 5; children, 6; total, 15." This is almost as good as Sir M. Grant-Duff's story of the Irish beggar, who prayed: "For the love of God, sir, give me a crust, for I am so thirsty that I don't know where I shall sleep tonight."

Custom vs. Science.

The most ignorant frequently stumble upon discoveries which when developed prove of rare advantage. For many years the Southern blacks were in the habit of wrapping meat in pawpaw leaves to make it tender, as they said, and they also threw one or two of the leaves into a soup pot to make it taste better. No one gave the fact any thought until a chemist one day analyzed the leaf and found that it contained a new digestive principle of considerable importance. He began to manufacture the extract, which is now regarded as a panacea by many people who would have laughed to scorn the suggestion of using the pawpaw leaf as mentioned.—New York Mail and Express.

CASTORIA

For Infants and Children

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

SPECIAL EXCURSION

To Indianapolis Via Wabash Railroad, Sunday, May 15.

The Wabash special Indianapolis train will leave Fort Wayne at 6:00 a. m., Sunday, May 15. The round trip ticket fare has been placed at only $1.50. Visit Indianapolis. Visit Camp Mount. 7 7t

Fast Time to Colorado.

A new through Sleeping Car line between St. Louis and Colorado Springs will be established over the Wabash-Rock Island Short Line May 15th, 1898. The time will be the fastest made with through service between these two points by many hours. A through sleeper will leave St. Louis on Wabash train No. 3, at 9:20 a. m., arriving at Colorado Springs the next morning at 11, with a direct connection for Denver, arriving at 12:30 p. m. This is the fastest regular through service ever established between St. Louis and Colorado. Returning, the sleeper will leave Colorado Springs at 2:45 p. m., and arrive at St. Louis the next evening at 6:15.

Patrons of this line will avoid the only unpleasant feature heretofore attendant on Colorado travel, inasmuch as the trip through Missouri's fertile fields will now be by daylight, and the unattractive portion of Kansas will be traversed during the night, with the mountain scenery to greet the tourists in the morning.

The fast time of this line will naturally commend the Wabash Route to intending Colorado tourists.

Particulars will be gladly furnished on application.

Catarrh

Mrs. Josephine Polhill, of Pine Woods, S. C., had a severe case of catarrh, which finally became so deep-seated that she was entirely deaf in one ear, and part of the bone in her nose sloughed off. The best physicians treated her in vain, and she used various applications of sprays and washes to no avail. Fourteen bottles of S. S. S. promptly reached the seat of the disease, and cured her sound and well.

CURED BY

SSS

S. S. S. never fails to cure a blood disease, and is the only remedy which reaches deep-seated cases. Guaranteed purely vegetable. Books free; address Swift Specific Co., Atlanta, Ga.

SPRING SUIT

DON'T let cheapness guide you. You must consider **Quality** if you expect **Satisfaction.** When that is missing disappointment is bound to follow.

This spring we have gathered for your delectation an assortment of Suits that lacks nothing of being perfect. Perfect in infinite variety. Perfect in its qualities. Perfect in its tailor-made stylishness.

Prices Range From $5 to $18.

But we can give you no adequate idea of the values represented until you have made an examination.

WE PERMIT NO OVERSTATEMENTS In Our Advertisments.

SOME people consider deception an art. It may be, but it's an art we have no use for. Fair dealing is artistic enough for us. It makes new friends and holds old ones, and that's all we are after. Prices are the only difference between clothing here and elsewhere. There is a chance to prove it. The competition in clothing has never been so keen as this season, and we realize that only some extraordinary effort on our part will enable us to get our share. This superhuman effort we are now making. Visit all the clothing stores in town, or the one which you consider the best, and then come to our establishment to compare styles and prices.

LEHMAN'S Clothing = House,

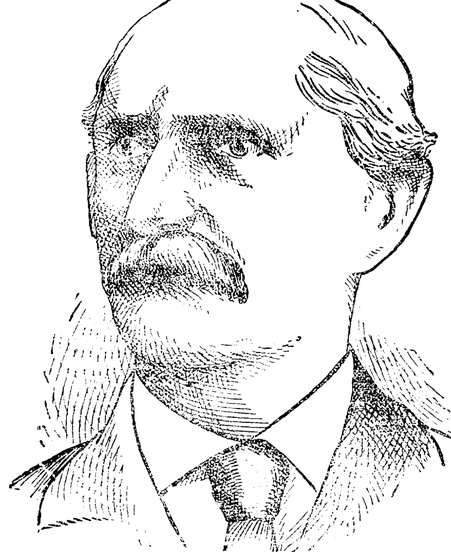
A WORN-OUT FAD.

"Spring Medicines," "Blood Purifiers" and "Tonics" an Old-Fashioned Idea.

Pure blood, strong nerves and muscles, firm, healthy flesh, can only come from wholesome food well digested. "Blood purifiers" and "nerve tonic" do not reach the cause of the mischief. The stomach is the point to be looked after. The safest and surest way to cure any form of indigestion is to take after each meal some harmless preparation of this kind composed of vegetable essences pure pepsin, golden seal and fruit salts, sold by druggists under name of Stuart's Dyspepsia Tablets, and these tablets taken after meals, assist digestion wonderfully because they will digest the food promptly before it has time to ferment and sour, and the weak stomach relieved and assisted in this way soon becomes strong and vigorous again.

Stuart's Dyspepsia Tablets are superior to any secret patent medicines because you know what you are taking into your stomach.

They are sold by druggists everywhere at 50c per package. Write F. A. Stuart Co., Marshall, Mich., for book on stomach diseases, mailed free.



AMES BURNS,
Ex-Collector of the Port of Kansas City.

Of the men who have occupied positions of public trust in Kansas City, either by gift of the people or by appointment; none has a more enviable reputation for ability, honesty and efficiency than James Burns, Collector of the Port of Kansas City under Grover Cleveland. He lived to the letter the maxim, "a public office is a public trust," and when he retired he carried with him the respect of everyone in the community—Democrats and Republicans alike.

James Burns has used Stuart's Dyspepsia Tablets and he does not hesitate to say they have accomplished wonders.

"I suffered with dyspepsia for twenty years," said Mr. Burns yesterday. "Never knew what it was to enjoy life—in fact living seemed a burden, as it does to all who suffer severely with dyspepsia. A few months ago I began taking Stuart's Dyspepsia Tablets. From the first I felt relief, and now, although I am still taking them, I feel entirely cured. For the first time in twenty years I can eat anything I want and suffer no ill effects from it. You can't imagine the pleasure of this unless you have been a dyspepsia sufferer.

"I never gave a testimonial for any medicine before, but I feel as if everybody ought to know of this remedy, and while it is personally distasteful to me to appear in print in this connection, I feel as if I had no right to shirk the opportunity to, perhaps help some of the sufferers from dyspepsia. I have been recommending the Tablets to all my friends. Only recently I took James H. Lillis, the father of Father Lillis, down to get some, and I understand he also is being wonderfully benefitted. I can't recommend it too highly."

THE BIRD OBJECTED.

FAIRY BROTHERS & CO., FT. WAYNE, IND.

FOR SALE BY ALL GROCERS.

THIRTEEN HOURS

Is the Work Schedule at the Electric Works.

Several Accidents to Railway and Shop Employes—Randolph Breeze is on the Montgomery.

The electric works is again falling away behind its orders for machinery and to facilitate the work of building dynamos the men in the machinery department, which is presided over by Charles F. Knothe, will hereafter work thirteen hours per day. The instrument makers under Foreman Strubey will also work thirteen hours per day.

TWO UNFORTUNATE SWITCHMEN.

James Young was struck by engine No. 198 last night and thrown several feet, but luckily he escaped any serious injury. He was taken to his home on Walton avenue, where Dr. G. C. Stemen attended him.

Switchman Minnich was caught between the deadwoods Saturday night and his right arm and hand were painfully pinched, but not so as to cripple them. He will be disabled a few days. Dr. G. C. Stemen attended him also.

WABASH'S NEW TIME CARD.

Next Sunday the Wabash will put a new time card into effect. As now arranged the card will be as follows:

No. 1, fast westbound mail, no change: arrive here at 6:30 p. m.

No 3, no change; 8 p. m.

No. 5, which leaves here now at 9:33, will become the "Continental Limited" and run via. Eel River road.

No. 7. no change; 12:30 p. m.

No 11, the Fort Wayne accommodation, will be changed to run between Lafayette and Springfield.

No. 25, new local passenger, will leave the city for the west at 9:10 a. m.

No. 2, now due at 5:31, will arrive at 6:07 a. m.

No. 4, due here at 6:25 p. m., will become the "Continental limited" and go to the Buffalo division.

No. 6, no change; 11:10 a. m.

No. 10, the accommodation from the west arriving here at 8:55, will be transferred to the middle division.

No. 20, no change; 6:55 a. m.

No. 24 will be a new local mail and passenger train and will pass here at 6 p. m.

There is a probability that there will be one or two minor changes in the foregoing time card, but its main features are correct.

PERSONAL AND OTHERWISE.

Blacksmith J. D. White, of the Pittsburg shops, is sick.

Nickel Plate engine 15 has gone to the shops for repairs.

Nickel Plate Fireman John Bresnihan is off duty on account of sickness.

Casper Lehmkuler is again confined to his home by sickness. He is a blacksmith.

The Wabash will inaugurate the dollar Sunday excursions to Toledo on the 22nd inst.

The electric works this morning shipped a 1,500 light incandescent machine to Elgin, Ill.

Fred Kaiser, a boilermaker in the Wabash shops at Peru, was the guest of James Olive, jr., over Sunday.

The machinists will hold their regular meeting tomorrow evening. All members are requested to be present.

Car Inspector R. Krull, who had been on the sick list, resumed his duties in the Pittsburg yards this morning.

The Wabash employes at Peru raised a big pole and flung the American flag to the breezes last Saturday.

George Noll was at Indianapolis yesterday to see his brother, who is a member of company B, Third regiment.

Walter Lyman has sold his interest in the Wayne Buggy company to Barges & Long. Mr. Lyman will continue in the employ of the firm.

The city freight depots at Indianapolis are now closed at 5 o'clock in the evening. They were formerly kept open until 6 and sometimes 7 o'clock.

It is said that J. A. Spoor, president of the Chicago, Hammond and Western road, was offered the presidency of the Nickel Plate, but declined it.

Capt. J. C. Kensill, who had one of his knees injured two weeks ago, is recovering and will resume his place in the Pittsburg shops tomorrow or Wednesday.

John Withers, an employe of the Wabash roundhouse at Andrews, dropped dead while at his work at 4:30 o'clock Saturday afternoon. He was supposed to be afflicted with heart disease.

John Slater, the blacksmith, is on the streets again and is making rapid progress towards health. He has been in a bad way physically for six months, but thinks he will speedily recover now.

Fred Hayden Shoaff, who has completed his course of instruction in the Fort Wayne Business college, has returned to Cleveland, Ohio, to accept a position in the general offices of the Nickel Plate.

William Wartenbee resumed his old place in the Pittsburg blacksmith shop this morning. He was a member of the true blues, but failed to pass examination at Indianapolis and was sent home.

The Baltimore and Ohio shopmen at Garrett, Ind., raised a large pole Saturday evening and hoisted upon it the American and the Cuban flags.

F. E. Long, Nickel Plate conductor, is again running in the through freight service, after being on a short haul out of Bellevue a few weeks.

Nickel Plate engine No. 2, just out of the Stony Island shops, has taken the place of engine 169 in the passenger service and the latter will now go to Stony Island for light repairs.

The Baltimore and Ohio Midland division may affect arrangements with the Panhandle, whereby the former may use the latter's terminals at Columbus, thus gaining access to the Union station.

President J. J. Hill, of the Great Northern, has returned from Europe. It is supposed that he will immediately endeavor to put a stop to the passenger rate war now being waged in the northwest.

John Rhinesmith, of the firm of Rhinesmith & Simonson, has returned from Warren, Ohio, where he spent six weeks. The sojourn there restored his health and he came back as "hearty as an ox."

Fred Hurst, a machinist at the electric works, had the little finger of his left hand so badly mangled Saturday afternoon that it will have to be amputated. The digit was caught in a lathe which Mr. Hurst was operating.

District Passenger Agent Thompson, of the Wabash, is distributing a little book which will be greatly prized by those interested in base ball. It is a well gotten up schedule of the Inter-State league games for the season of 1898.

The St. Paul, the warship on which our townsman, Philip Hess, is employed, sailed this morning for ports unknown to any but those on board the ship and naval authorities at Washington. She is thought to be bound for Cuban waters.

The Sunday excursions to Rome City are beginning to assume larger proportions, yesterday's numbering ninety-four. As the season advances these excursions will be more liberally patronized. The price of boats has been reduced from $1 to fifty cents a day.

All the lines leading into Indianapolis ran excursions into that city yesterday. Even the Pennsylvania, which announced a few weeks ago that it would run no Sunday excursions, took a hand in swelling the crowds in the Hoosier capital and at Camp Mount yesterday.

Freight traffic on the Nickel Plate is light at present and the trainmen have no trouble in getting a "lay off" when ever desired. Those who are at present enjoying that privilege are Engineer Ed. Wolf and Firemen G. Weisell, John Lalander, Abraham Stoner and W. Kohlbach.

Frank X. Miller, blacksmith, had one of this thumbs badly cut Saturday afternoon while at work in the Pittsburg shops. In placing a bar of iron in the furnace, he struck his hand against the protruding end of another bar with the foregoing result. Dr. George C. Stemen attended the injured man.

There is trouble brewing over the differential question and it is being inaugurated by the Vanderbilts, who were refused favors for the West Shore and Nickel Plate equal to those enjoyed by the Panhandle. Passenger men are inclined to the belief that this difficulty will end in the abolishment of differentials.

There are three important lodge events at Indianapolis this month for which the railways running to that city will make special low rates. They are the celebration of the fiftieth anniversary of Raper commander, Knights of Templar, May 14; grand lodge of Odd Fellows and Rebekah assembly of the state of Indiana, May 16 to 19, and the grand lodge of the Masons, May 25.

Arthur H. Dougall, a bookkeeper at the electric light offices, has resigned and will go to Hartford City to accept a similar position with the Hartford City Paper company, of which his brother-in-law, Stephen Fleming, is the general manager. Mr. Dougall has been employed at the electric works for several years, and during his term of service there was promoted three times.

A letter from Randolph Breeze, formerly of the Pittsburg shops, states that he is a member of the cruiser Montgomery's crew. He is a machinist by trade, but he is serving in the gunners' department on the war ship. Shortly after he left this city, a year ago, Mr. Breeze entered the government service and was placed on the Newport, where he served all last summer. When the trouble with Spain broke out he was transferred to the Montgomery. His father was a naval officer.

There will be a wedding in the country, four miles south of the city, next Sunday evening, which will interest the employes of the Wabash shops. The groom will be Frank Fruechtenich, of the boiler shop, and the bride Miss Durgens, the daughter of one of the prominent farmers out in that section. The ceremony will be performed by Rev. J. F. Miller. The prospective groom is maintaining the most strict secrecy about his approaching wedding, but the facts leaked out this morning.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER

ROYAL BAKING POWDER CO., NEW YORK.

STILL SOARING.

Wheat Has Its Kite Up and It Keeps Going.

July Touches $1.21 and Closes at $1.20 1-4 --May Leaps to $1.15 and Hangs There-- Wild Scenes on the Board.

CHICAGO, May 9.—Wheat today on board of trade touched $1.21 a bushel for July, the active option, and closed within ⅛c of the top, at an advance of 13⅞c. The market opened mid wild excitement at an advance of 3c to 4c with sales of July all the way from $1.09½ to $1.10¾. The price advanced to $1.16, fell back to $1.11¾ and rallied again to $1.16 in the first five minutes of trading.

From that time on July advanced steadily till it touched $1.21, just two minutes before the close, which was at $1.20¼. The May option which was neglected closed at the highest point of the session $1.15, a net gain of 8 cents. The pit was in a turmoil throughout the day, fluctuations between trades frequently being a full cent. The sensational advance at Liverpool, equal to 12 cents a bushel in July, was apparently the sole cause of the excitement.

CLOSING PRICES.

CHICAGO, May 9.—Wheat—May, $1.15; July, $1.20¼; Sept., 96¼c; Dec., 88⅝c.

Corn—May, 36⅞c; July, 36⅞@37c; Sept., 37⅜@37½c.

Oats—May, 31¾@32⅝c; July, 25⅞@28c; Sept., 24½c.

Pork—May, $10.90; July, $11.22.

Lard—May, $5.55; July, $5.92@5.95; Sept., $6.02.

Ribs—May, $5.55; July, $5.60; Sept., $5.67.

Barley—Cash No. 3, 45@52.

Rye—cash, 55c; May, 55c; July, 71c.

Flax—Cash, $1.20; cash N. W., $1.38; May, $1.28; Sept., $1.24½.

Timothy—May, $2.80.

MAYOR'S CABINET.

He Has Not Made Official Announcement,

But Here's the Way It Will Probably Be— Only Two Changes—Berghoff and Shambaugh Again.

Mayor Scherer kept away from everybody today except two prisoners in police court, but THE SENTINEL learns from reliable, but unofficial sources, that his cabinet will be as follows:

City Attorney — W. H. Shambaugh.

Comptroller—H. C. Berghoff.

Board of Public Works—Peter Eggemann, J. K. McCracken and P. H. Kane.

Board of Safety—Charles Buck and L. C. Kasten, certain; J. L. Gruber, a possibility and the mayor's probable choice. He may, however, decide to appoint Abraham Wolf in place of Mr. Gruber.

Board of Health—Drs. Carl Schilling, A. J. Kessler and J. E. Miller.

City Civil Engineer—F. M. Randall.

The only changes from the old board are on the board of safety, Charles McCulloch and George H Wilson retiring.

BOB ACCEPTS.

Will Meet Kid McCoy in the Prize Ring.

He Also Tenders Pompadour Jim an Opportunity to Contest for the Heavy Weight Championship.

BOSTON, May 2.—Bob Fitzsimmons has announced his acceptance of the offer of Kid McCoy to pay the champion $10,000 for a fight at middle weight, and also his acceptance of the offer of James J. Corbett of $25,000 for an opportunity to regain the heavy weight championship. Fitzsimmons will meet either man before the regularly organized club offering the largest purse, but he will insist on a side bet of $10,000 in each case and both matches must take place before the last of September, this year.

This announcement is accompanied with the offer of Julian, Fitzsimmon's manager, and the prize fighter himself, to bet $2,500 that neither McCoy nor Corbett will make good his offer.

CORBETT IS EAGER.

DENVER, Colo., May 9.—After reading the Associated Press dispatch from Boston this afternoon, announcing that Robert Fitzsimmons had accepted his offer of $25,000 for an opportunity to regain the heavyweight championship, James J. Corbett sent the following dispatch to W. A. Brady, his manager, who is in New York city:

"Go after that man (Fitzsimmons) and make my offer to him again—$25,000 that I will stop him in ten rounds—and put up some money. Show him up."

A MEDICAL DISCOVERY.

RHEUMATISM NO LONGER A DREADED DISEASE.

Quickly Cured by Gloria Tonic—The Latest Find in Medicine.

As reports come in of the continued successes of Gloria Tonic in the cure of rheumatism, interest in this wonderful medicine has spread even among physicians who are not particularly favorable to new remedies that cure without the doctor's assistance. A case in point illustrates: John Carston of Belton, Texas, had planned for his wife a trip to Germany, but she was subject to rheumatism and the journey was delayed. She went through the usual experience of home remedies, doctors and so on without success, but finally got around to Gloria Tonic, and after using three boxes of the remedy was entirely cured. She was naturally overjoyed at the prospect of going abroad, and Mr. Carston, in writing to the proprietor of Gloria Tonic stated that his wife had started on her journey. He concludes his letter by saying:

"Kindly send me 5 more boxes of Gloria Tonic for a daughter of a neighbor who is also very seriously afflicted with rheumatism. I have recommended it to her very highly. She has spent a great deal of money with physicians without being helped and would like 5 boxes of this grand cure."

Gloria Tonic is made by John A. Smith, 243 Summerfield Church Building, Milwaukee, Wis., and is sold by all druggists at $1.00 a package.

A book of testimonials and a free trial package of Gloria Tonic is mailed free to those who will send Mr. Smith their name and address.

CANDLE MAKING IN SWEDEN.

Some Are Made From Stearin That Is Obtained From Insects.

W. S. Harwood has an article in St. Nicholas on "A Giant Candle," describing one of the unique features at the Stockholm exposition. Concerning candle making in Sweden, Mr. Harwood writes:

The candles of Sweden are not "dipped" in the old fashioned way, but are made on what might be called scientific principles, after the experience of a good many centuries has told the makers just what materials will produce the best results. They are not "run" in hand held molds, at the risk of burning somebody's fingers or spotting the kitchen floor with splashes of tallow. Tallow in its crude state is, indeed, used in the manufacture of these Swedish candles, but it must pass through a long treatment before it yields up the pure stearin from which the snowy candles are made.

Some of this tallow reaches Sweden after long ship journeyings from South America, while some of the stearin does not come from tallow at all, but from palm oil gathered by the natives of South Africa, and still another supply of stearin is secured in a curious way—from insects shipped from China. The insects, in dying, turn into a wax very rich in stearin.

When the stearin is ready for the mixing, it is nearly pure white in color, a clean liquid that has the hue and consistency of melted white sugar. In the factory the attendants fill their large, wide lipped zinc pitchers with the liquid stearin, step to a long row of candle molds, and pour in the melted stearin. The molds are in sections, 12 candles to a section of the smaller sized candles. The wicks for the candles have first been twisted from threads into the proper size and threaded through the molds by machinery.

As soon as the stearin has cooled around the wicks a keen knife passes under and cuts the ends of the wicks, the candles in the section are lifted out and another set of wicks, all threaded through another set of molds, stands ready for the next pouring. Swiftly breaking the candles apart, the attendant passes them on in a box to another workwoman, who sends them whizzing through a trimming and polishing machine, from which they go to the counting table.

I watched a young woman who was at work one day in a factory in Sweden (and the factory, by the way, was located in the candlestick of the giant candle), counting these candles—a small kind it happened to be that they then were making, perhaps five inches in length. With a deftness which was quite extraordinary she thrust her hands into a pile of candles and unerringly drew forth 24 never more, never less. All day long she stands at this counter and not once in a thousand times, so I was told by the superintendent, would she draw out other than 24. I suppose it had become a matter of intuition, so to speak. She knew exactly how many candles would be included in a grasp of her hands and she practically never made a mistake.

Ancient Gallantry.

The respect and veneration paid to the fair sex formed an essential ingredient in chivalry. This, it is supposed, was derived from the customs of the primitive Germans, whose females are represented to have been very high spirited and to have exercised considerable sway over the other sex. Whatever truth there may be in this statement, certain it is that a high species of gallantry forms the very spirit of modern chivalry, and as a proof of this we have only to refer to the classification of a knight's duty, to fear God and love the ladies, to perceive how necessary female adoration is to the very existence of this order.

This principle of female adoration, so prominently displayed in every aspect of chivalry, extended its influence to the laws of the times, for we find James II of Aragon ordering in this manner: "We will that every man, whether knight or no, who shall be in company with a lady, pass safe and unmolested unless he be guilty of murder."

And Louis II, duke of Bourbon, instituting the order of the Golden Shield, enjoins his knights to honor, above all, the ladies, and not permit any one to slander them, "because," adds he, "from them, after God, comes all the honor that man can acquire."—New York Ledger.

THE STING OF POVERTY.

Or the Unhappy Klondiker and the Baked Beans.

He stood outside the restaurant with sunken cheeks and eyes that glittered feverishly.

It was night, and to the weary wanderer the brilliantly lighted interior seemed like a glimpse of heaven. Not that that particular restaurant was one which would have held out many temptations to an epicure. As a matter of fact, it was distinctly a third rate establishment. But a starving man is seldom inclined to be fastidious.

To the tattered wretch who shivered outside and gazed longingly through the window the place was all that mortal could desire. But it was almost more than he could bear to see the waiters emerge from the kitchen laden with steaming dishes to set before the fortunate individuals who were seated at the tables. And every time the street door opened there was wafted to him an appetizing odor of cooking which mounted to his head like wine.

For the fiftieth time he drew out a slender pocketbook and carefully examined its contents. For the fiftieth time he replaced it with a heavy sigh. "It's no use," he murmured sadly. "There's only $3 left. Oh, this cursed poverty! Had I but $2 more I could boldly enter and call for a dish of baked beans."

Bursting into tears, the unhappy Klondiker turned away and went forth into the night.—New York Journal.

Been Doing Time.

Mr. Medders—Git out! I won't help you ergin. I don't believe you've done a thing all winter.

Wandering Willie—You wrong me, sir. I've just done 90 days.—Up to Date.

A Ruling.

"I object to that motion," exclaimed Broncho Bob at a meeting of the city council in Crimson Gulch.

"What motion?" inquired Rattlesnake Pete, who was in the chair for the first time.

"The one just made by Teepee Tom."

"Well," was the answer, "I didn't see the motion referred to, but the objection is sustained on general principles. In a gathering where there are so many seven shooters, all in easy reach, gentlemen cannot be too careful about how they make motions."—Washington Star.

Self Help Not Wanted There.

"What's that you're reading so hard, Mr. Cashier?"

"Oh, merely improving myself, sir—it's Smile's 'Self Help!'"

"H'm. You can draw your month's salary and leave at once, Mr. Cashier; we want no one in charge of the cash who has corrupted his mind with such pernicious literature. 'Self Help,' indeed!"—Pick Me Up.

DEWEY.

Naval Hero, Born in Montpelier, Vt.

Son of Julius Y. Dewey, the Founder and First President of the National Life Insurance Company, and Brother of President Charles Dewey.

Charles Dewey, president.
James C. Houghton, vice president.
Joseph A. DeBoes, secretary.
Harry M. Cutler, treasurer.
Osman D. Clark, assistant secretary.
Clarence E. Moulton, assistant treasurer.

NATIONAL LIFE INSURANCE CO.,
MONTPELIER, Vt., May 5, 1898.
C. H. Fitch, General Agent, Fort Wayne, Ind.:
DEAR SIR:—Your note of the 2nd inst., received. I take great pleasure in stating that Commodore Dewey was born in the city of Montpelier, the son of the company's first president, Dr. Julius Y. Dewey, and own brother to President Charles Dewey and Director Edward. Since the early fifties, Commodore Dewey has been continuously identified with the naval service of the United States. His own report of the engagement at Manila is not yet received, but it will undoubtedly substantiate what the cable messages tend to prove, a great and overwhelming victory on land and sea, equalling, if it does not surpass at every point, the greatest sea victories of history. It was most unusual as it was most pleasing that this victory by one brother should be announced in concurrence with the celebration by Mr. and Mrs. Charles Dewey of the fiftieth anniversary of their marriage, which occurred on Tuesday evening last. I am sure that the many very pleasant words received from representatives of the company are very gratifying to the president, as the event itself is a source of admiration and unbounded satisfaction to us all.

Yours truly,
JOSEPH A. DEBOER,
Secretary and Actuary.

The National Life Insurance company commenced business in 1850 with Dr. Julius Y. Dewey as president. As early as 1856 the National published in its yearly statement this rule of the company:

No. 9. Should the holder of a life policy after three or more years wish to surrender it, he will receive its equitable value in cash."

In the days of forfeitures and confiscations it required the courage of a Dewey to take the initiative in guaranteeing cash surrender values in life insurance policies.

Money to Loan.

WASHINGTON, May 9.—For Indiana: Partly cloudy tonight and Tuesday; fresh south to southwest winds.

NEWS NOTES.

Miss Katherine Bossler is in Cincinnati.

Mrs. Albrecht, of Kondallville, is visiting her son, Frank Albrecht.

Mrs. Morris Carroll, of Bucyrus, Ohio, is visiting friends in the city.

Born, to Mr. and Mrs. George App, of East Washington street—a son.

Miss Jessie Reitze entertained the B. E. S. club at her home Saturday afternoon.

Milo Meredith, of Wabash, grand commander of the K. O. T. M., is in the city today.

Dr. and Mrs. McCaskey and Master Edward have gone to Rome City for a few days.

Miss Adah Higgins was the hostess for the meeting of the J. U. G. club Saturday.

Mrs. Edward Reinhart, of St. Paul, is the guest of her sister, Mrs. James Harizell.

Miss Ella Stubbs, of Richmond, is the guest of her sister, Miss Mary Stubbs, of Westminster seminary.

Rev. George McKay, representing the Chicago Interior, is in Fort Wayne in the interest of his publication.

Oliver Layman returned to his home in South Whitley Saturday, after an extended visit with the Misses Lockhart, of High street.

D. H. Caldwell and daughter, Helen, have gone to Denver to bring home Mrs. Caldwell and Miss Ruth, who have been in that city for several weeks.

The company of young men who have enrolled their names with I. W. Leonard will meet in the hall in the White Bank block this evening for permanent organization.

Edward and Allen Strous Mrs. Rebecca Craig, of Garrett, arrived in the city Saturday, to visit their brother, Joseph Strouse, botter known as Joe Acton, the wrestler.

Dr. J. E. Miller returned Saturday evening from a three-months trip south for his health. Most of the time was spent on the farm of the doctor's father, in Ohio, but before returning a visit was made to Nashville. The doctor is much improved and says he never felt better in his life.

The Students' Art league will give their annual spring exhibition of work on May 26 and 27. This exhibition is open to all who wish to enter are work of any kind, such as painting, drawing, wood carving, etc. Miss Agnes Hamilton and Miss Fannie Winch are the committee for application. Miss Bertha Jackson, Miss Abbie Keegan and Miss Kate Chapin are the committee on entertainment.

Carl P. Swain returned home Sunday evening from Baltimore and Washington. Carl was at Old Point Comfort a few days and saw the flying squadron under Captain Schley, now lying at anchor in Hampton roads. He talked with many of the sailors and they are all anxious to fight. One old sailor knew Commodore Dewey and said he was a wonderful fighter, which fact has now been demonstrated. In Washington, Saturday, there was great excitement.

The St. Joseph classes, branch of the Ohio synod of the Reformed church of the United States, will hold its session here this week. The sessions will be held at the Heidelberg and St. John's Reformed churches, and it is expected that about sixty delegates will be in attendance at each meeting. Rev. Maurice Sampson will deliver the opening address of welcome to the city. Among the visitors will be Rev. B. B. Royer, of Goshen; Rev. Nicholson, of Colon, Mich.; Rev. Barbour, president of the classes at Culver, Ind., and Rev. Rohrbaug, of Three Rivers, Mich.

Mrs. F. A. Newton has returned to Chicago.

D. W. Lewis, of Mentone, Ind., spent Sunday in the city.

Miss E. R. Nelson has returned from a visit in Indianapolis.

The West End Golf club met with Carl Woodworth Saturday evening.

Mrs. L. Wessel, of Springfield, Ill., is visiting Mr. and Mrs. H. C. Katt.

Another case of scarlet fever is reported at Freiburger's, on Charles street.

Mrs. Ora Schaffer was in the city Sunday spending the day with friends.

Mrs. A. B. Crowe has returned from a visit with relatives in Hartford city.

Guy Bell was home from Chicago university to spend Sunday with his parents.

Mr. and Mrs. William Moellering are expected home from a western trip this week.

Miss Minnie Smith returned to Chicago yesterday after a visit with her sister, Mrs. Savercool.

Miss Bertha Scott, of the Home Telephone office, has returned from a month's visit at Lima, Ohio.

Mr. and Mrs. Mason Long, who have been guests in Kansas for several weeks, have returned home.

The handsome saddle horse, Russ, which was owned by Sam Fisher for the past two years, has been sold to Major W. W. Barnett.

R. G. Thompson is in receipt of a letter informing him that Dr. T. J. Dills will leave Pomona, Cala., for Fort Wayne on May 25th.

Mrs. C. D. Gorham, accompanied by her granddaughter, Georgiana Bond, arrived in the city from Indianapolis Saturday evening.

Edward L. Tenney and family have removed from Toledo to this city and will make this their home. They resided here some years ago.

The Tuesday Social club will be entertained by Mrs. L. O. Hull this week. Mrs. J. R. Swan, of Topeka, Kan., a sister of Mrs. Hull, will be the guest of honor.

Dr. and Mrs. W. W. Shryock left today noon for Springfield, Ill., where they will attend the Illinois Dental convention. They will be away until Saturday.

The board of waterworks trustees will hold their first meeting tonight. A president will be chosen and other business which may come before them will be disposed of.

Seventy-five children and four grown persons of the St. Peter's Catholic church, were confirmed yesterday by Bishop Rademacher, who also dedicated the bell, which was bought by the school children.

The annual meeting of the board of charities will be held in the city council chamber this evening. The annual reports of the officers will be received and the committees will be appointed to serve the ensuing year.

Mrs. Montgomery Hamilton and her mother, Mrs. Pond, and Master Quintus Hamilton, have returned from the east. Miss Madge Hamilton is at Saranac Lake, in the Adirondacks, where she will remain a month.

Howard Cohen, of New York, is registered at the Wayne and called on his Fort Wayne friends yesterday. Mr. Cohen is a member of Grand Rapids lodge of Elks. He was initiated in the B. P. O. E. in Fort Wayne and was transferred.

The following invitations are being distributed: "You are cordially invited by Mrs. Ormsby and pupils, in conjunction with the Westminster seminary, to attend the complimentary Shakesperian recital tendered them by Prof. Blanchard, Friday evening, May 13th, at 8 o'clock, at Fort Wayne Club hall."

The Robison park season opened yesterday. Cars were run to the handsome pleasure resort every twelve minutes and more than 300 people availed themselves of the opportunity to enjoy the ride, notwithstanding it was somewhat chilly. A few warm days and cars will be running to the pleasure resort every day.

Dr. W. W. Barnett has purchased Hon. R. C. Bell's handsome riding horse for his own use in the field. He also purchased E. V. Emrick's horse for Adjutant Henry Hagerman. Sam Fisher's horse was purchased by Adjutant H. K. Scott, of Angola. They are the three best saddle horses in Fort Wayne and no doubt will appreciate the chance to help protect the red, white and blue.

Frank Alderman informs THE SENTINEL that some persons to him unknown destroyed young trees and shrubbery in his yard and along the sidewalk. Words of condemnation are not strong enough to denounce the action of vandals who may have done this work to gratify personal spite. The officers should make an investigation and the perpetrators of the vandalism located and punished.

There were two prisoners in police court this morning, one drunk and one vag. The drunk was sent over for eleven days and the vag for fifteen days. The alleged vagrant was a young man dressed in a bicycle suit, who was arrested by Officer Murphy about 1 o'clock Sunday morning. He claims to have attended school at Ann Arbor and says that his home is near there. The police are investigating.

Joe Nix has purchased the Peter Eggemann shoe shop, on East Main street. Mr. Eggemann has been again selected by Mayor Scherer to serve for three years as chairman of his board of public works and he decided to dispose of the business he established more than a quarter of a century ago. Mr. Nix has been in the employ of the retiring proprietor for a number of years and is thoroughly conversant with the business of the shop.

Frank Didier and Maggie Rush have been licensed to wed.

The board of safety will probably reject all bids for the conduit system the city was to build and re-advertise.

The Ladies' auxiliary of the Order of the Eastern Star will meet at the Masonic Temple tomorrow afternoon, at 2:30 o'clock.

Judge Mock is sitting in the superior court today listening to arguments for a new trial in the case of Miller vs. Bottenberg.

Mary Jansen brings suit for divorce and $500 alimony against her husband, Herman Jansen. E. V. Emrick is plaintiff's attorney.

Mr. and Mrs. Charles Lapp, Miss Blanch Coombs, Miss Lizzie Lapp and Frank Cutchall were the guests of Lieut. O. C. Meyers over Sunday.

The ladies of Degree of Honor No. 2 will be entertained Thursday, from 2 to 9 p. m., by Mrs. C. F. Haiber, corner Cass and Wells streets.

Mrs. John Watt, who has been very ill at the hospital for several weeks, has so far recoved that she is now able to be at her home on West Berry street.

The new Columbia locomotive No. 605 of the Wabash will stand in front of the passenger depot tomorrow afternoon from 2 to 4 o'clock. This is to enable the people to see it.

Mr. and Mrs. Alex Muirhead very delightfully entertained friends and relatives at a card party Saturday evening. The house was tastefully decorated with flowers, and a three-course supper was served.

The L. B. Root company has filed articles of incorporation at Terre Haute in which the following are included as stockholders, as well as the heirs: Charles McCulloch, M. C. McDougall and S. R. Alden, of Fort Wayne, and Robert O. Miller, Fred J. Griffith and Harry J. Baker, of Terre Haute. The capital stock is $100,000. The company was formed for the purpose of carrying on the business and taking it out of the hands of the executrix. The holdings of the Fort Wayne stockholders are nominal.

MAY MEAN TROUBLE.

Seventh Ward Democrats Will Meet Tonight

And Discuss the False Returns Made Election Day by the Thirty-third Precinct Election Board.

The democrats in the Seventh ward will hold a meeting this evening in Gruber's barber shop, No. 331 Lafayette street, to discuss the false return that was made election night of the vote in the Thirty-third precinct. There has been, in years past, so much alleged crooked work in the Seventh ward that the democrats are determined to locate the blame and try to put a stop to it. Some of the residents believe that there should be prosecutions, while others assert that it was purely an accident. There is some talk of a contest by Mr. Shelzer, although the latter gentleman is opposed to it, except in so far as a contest may guarantee a purer ballot in the future.

The voters of the Seventh ward are as reputable as those of any other ward in the city and they will not stand the stigma which is heaped upon them almost every election by a few men. If they are convinced that no person had knowledge of the mistake of twenty-five votes the matter will be dropped, but if there is any indication that members of the board did know the returns were wrong prosecutions will follow.

CHAUNCEY OLCOTT COMING

The Sweet Singer and Superb Actor at the Temple Tuesday Night.

Chauncey Olcott comes to the Temple Tuesday, May 10, to set and sing in Augustus Pitou's Irish comedy drama, named after the village on the River Lee in Ireland, "Sweet Inniscara." In 1812 the wealthy young Irishman finds himself tired of London society and on his way to Cork stops at Inniscara and meets an heiress of vast estates who is for the time serving in the place of the tardy schoolmaster. The young man pretends he is the new master and falls in love with the heiress Her father frowns and they meet secretly. They are discovered and there is a plot to carry off the lover. This partly succeeds, as he is knocked senseless and carried aboard a man-of-war, but just as the young lady's father is trying to pursuade her to sign a marriage contract with the swain he favors, the lover escapes and returns. He tells who he is, whereupon the father loses no time in transferring his preference, especially as the man first favored is exposed as an adventurer. Mr. Olcott will sing several new sogs. This play attracted audiences from New Years until Memorial day, or thereabout, in New York last season, which shattered Mr. Olcott's record to smithereens.

WILL BE DISBANDED

Brooklyn's Crack Regiment, the Thirteenth, Has Dishonored Itself.

NEW YORK, May 9.—Brooklyn's former pride in the military line, the Thirteenth regiment, National guard, will, it is said, soon cease to exist, in consequence of the way in which it responded to the order to go into camp in compliance with the president's call for volunteers to fight against Spain. Colonel Watson of the Thirteenth, and many of the men, took the stand that the regimental integrity of the regiment should be guaranteed before they entered the service of the United States. In consequence, when Governor Black designated the Thirteenth along with other regiments to make up New York's quota under the president's call, there was a lame and unsatisfactory response.

Of a total membership of about 900 only 135 of Hempstead Plains are tobome a part of Camp Black.

The presence of this remnant has not helped affairs at the camp and today the announcement is made that the Thirteenth boys will be sent home. It is also intimated very distinctly that the regiment will be disbanded by order of Governor Black.

A SUDDEN DEATH.

Mrs. Ira Ruppert Called Home Without Warning.

Arose From Her Bed and Commenced to Dress and Later Was Found Cold in Death—Funerals.

Mrs. Ira Ruppert died suddenly this morning at her home, No. 231 West DeWald street. She was in her usual good health last night and this morning got up, and it is supposed, commenced to dress. Her aged husband, who lived alone with her, walked into the room at an early hour and noticed the bed was empty and, although he saw a black skirt lying on the floor between the bed and dresser, did not notice his wife, and went to another room. Presently a neighbor who looked after the affairs of Mr. and Mrs. Ruppert called and stepping into the sitting room saw Mrs. Ruppert lying on the floor in the bed room. He called her daughter, Mrs. Henry Stapleford, and when the daughter went to assist the mother she was horrified to find she was dead. Death probably resulted from cerebral apoplexy. Mrs. Ruppert leaves besides her aged husband two daughters, Mrs. Henry Stapleford, of this city and Mrs. Wallace Dawson, of Los Angeles, Cala. Deceased was sixty-eight years old.

CROWE.

Mrs. John Crowe, aged fifty-two years, died yesterday afternoon at the residence of her sister, Mrs. Al Palmer, 62 West Pontiac street, after a brief illness with pneumonia. The deceased was the wife of the contractor and builder who did an extensive business in this city prior to the world's fair, having a shop at Baker street and Fairfield avenue. In 1892 the family moved to Chicago and were just arranging to again take up a residence in this city, when the death of Mrs. Crowe occurred. The funeral will take place tomorrow morning at 9 o'clock, from St. Patrick's Catholic church.

SOLDIERS WILL MOVE

Indiana Troops Going to Washington and Chickamauga.

Secretary Alger Decides Where the Troops of the Several States Will Concentrate.

The Fort Wayne soldiers now at Indianapolis will soon be ordered to move. THE SENTINEL this afternoon received the following dispatch from the Associated Press:

"In answer to repeated requests from all sections of the country for information as to where the various organizations of state troops, which are being mustered into the United States service are to be sent, Secretary Alger today furnished the Associated Press the following statement, showing the destination of the volunteer troops. The list is subject to correction. It will be noticed that, generally speaking, three points are to receive the greater number of troops.

"It appears that that the animating purpose of the department in making the assignments was to divide the volunteer forces in such a way as to be available for three distinct purposes.

"The first regiments raised in each state mustered in and found ready for service are to be sent to Chickamauga to be licked into shape, and thence sent to Tampa and other gulf ports, including Mobile, New Orleans and Galveston, preparatory to embarking for Cuba.

"The second division of regiments go to Washington, where they are to form a grand reserve, ready to reinforce the Cuban army at any moment to man the cost defenses, or for other purposes.

"The third division is to remain for the present in the state in which the organizations are mustered, subject to call for duty in the Philippines or for general reserve purposes. Possibly they may never be called upon to leave their native states."

Of the Indiana troops one regiment of infantry and one battery of light artillery will be ordered to Washington and two regiments of infantry and one battery of light artillery will be sent to Chickamauga.

The remaining infantry regiment will be assigned to department commanders for coast defense and reserve. The last regiment left in the state may never be ordered from Indiana soil.

As stated in THE SENTINEL'S Indianapolis dispatches the Third regiment, including the two Fort Wayne infantry companies, is one of the two regiments ordered to Chickamauga

MAD WITH LOVE.

At South Bend Frank Harrington Kills Mrs. Vahlert and Himself.

SOUTH BEND, Ind., May 9.—Frank Harrington today fatally shot Mrs. Vahlert, a widow with whom he boarded, because she refused to marry him. He then blew out his own brains.

There will be a meeting of Home lodge No. 342, F. and A. M., tomorrow evening.

NOT SCRIPPS-M'RAE.

The Hustling Press Association Sent No Bulletins to This City Last Night.

To the Editor of the News:

The bulletins which were posted last night at Woodworth's drug store regarding the alleged defeat of Admiral Sampson's fleet were not sent to Fort Wayne by the Scripps-McRae league. These reports were current all over America circulated by bulletin associations but were not handled by the Scrips-McRae association which furnishes news to the Fort Wayne Daily News. Neither was the bulletin received or posted by the Postal Telegraph Co. this city.

FIGHT TO THE DEATH

Spain's Orders to the Philippine Commander.

Manila To be Defended to the Last Ditch.

General Agusti to Hold City Against Dewey.

Disorders Continue in Spain and Martial Law is Proclaimed in Other Provinces ---Kingdom Needs Leaders.

LONDON, May 9.—It is announced today in a special dispatch from Madrid that the Spanishs minister of war and marine, General Correa and Admiral Bermejo, declare they do not expect Manila to be attacked before the arrival of reinforcements for Rear Admiral Dewey from the United States. The dispatch adds that orders have been sent to General Augusti, the governor general of the Philippine Islands to resist to death any attack of Manila.

MADRID, May 9.—NOON—The disorder in the Spanish provinces is increasing. Riots have now broken out at Cadiz and Alicante and the troubles are expected to spread to parts of the country which have hitherto been quiet. Martial law has been proclaimed in the provinces of Albacete and Jaen. At Martos, nine miles from Jaen, men women and children have been parading the streets, crying "death to the thieves."

MADRID, May 9.—10:45 A. M.—The political situation here is unchanged. The consultation between the queen regent and Senor Gamazo, the liberal leader, as well as her majesty's conference with Senor Montero Rios, the president of the senate, have been without result. Everybody appears loath to assume the responsibilities of assuming office under the existing condition of affairs.

RIOTS IN SPAIN ARE SPREADING.

MADRID, May 9.—11 A. M.—There was serious rioting at Linares, twenty-three miles from Jaen, yesterday. The mob assembled in front of the town hall and finding the doors locked, tore out the windows, swarmed into the building and threw everything movable into the streets. The civil guards intervened and a desperate struggle followed in the passages of the building.

The rioters were finally driven out by the civil guards, who frequently fired into the mob. Some of the rioters procured guns and returned the fire.

Fourteen persons are said to have been killed and about sixty wounded.

The local forces are not considered strong enough to cope with the disturbance and reinforcements of troops have been asked for.

12:30 P. M.—Later the mob made another attack on the town hall and drove out the civil guards. The rioters were well supplied with ammunition and kept up a galling fire, while shouts of "down with the taxes" were raised on all sides. After forcing an entrance into the town hall, the rioters pillaged the building, subsequently carrying the residence of the tax collector by assault.

They demolished everything in sight, stole 2,100 pesatas and a box of jewels and attempted to set fire to the house. Serious disorders have occurred at Bronea, near Seville, at which place the village priest had been stoned to death.

MADRID, May 9.—2:00 P. M.—It is announced here this afternoon that the cabinet ministers have placed their portfolios in the hands of Senor Sagasta, the premier, with the view of a probable reconstruction of the ministry.

BURNED TO DEATH.

Mrs. Habell and two Children Lose Their Lives in a Fire.

SENECA FALLS, N. Y.—May 9.—Mrs. Fred Habell and two children were suffocated by a fire that occurred at their home here today. Mr. Habell occupied an up-stairs room with three children, while Mrs. Habell with the two children slept down stairs. Habell was awakened about 4 o'clock this morning by smoke and succeeded in saving the three children who slept with him, but was unable to save the others. The origin of the fire is not known.

WANT INTERVENTION.

An Appeal Made to the United States by Irishmen.

DUBLIN, May 9.—There was a demonstration near West Port, county Mayo, yesterday, to protest against "the indifference of our brutal English rulers towards starvation in Ireland."

It was resolved to start a national appeal to the president and congress of the United States, pointing out the condition of the population "insulted and coerced by insolent foreign masters," and praying for the intervention of the government of the great republic "to obtain self-government for Ireland and a cessation of the famine and overtaxation.

ORDERED SOUTH.

Two Indiana Regiments to Go to Chickamauga.

Second and Third Likely To be the Chosen Ones—Battery E Will Follow in a Few Days.

INDIANAPOLIS, May 9.—Yesterday Governor Mount received the following telegram from Secretary of War Alger:

"It is the intention to order to Camp George H. Thomas, Chickamauga National Park, Ga., the first two regiments of infantry of your state, which shall be first completely equipped. Every effort should be exerted to complete as fast as possible each regiment in turn, rather than all simultaneously. Report by telegraph when first regiment will be ready. also any subsequent changes in date as to when regiment will be ready. It is the intention also to send one battery of light artillery to Camp Thomas."

The telegram was at once referred by Military Secretary Wilson to Captain May at Camp Mount, with instructions to be governed accordingly. Captain May, in speaking of the effect that the telegram would have on his work, stated that as yet no one regiment had been examined entirely and that its effect would be to stimulate all the regiments to become the first to get their men in shape for examination.

As soon as this work is completed, which will probably be this noon, Captain May will call the regiments out before him, and, taking each company, he will read over the names on the roll, each man stepping out from the ranks as his name is called. This is done in order to provide against duplications and to know that each man whose name appears on the rolls is actually present. He will then reach the mustering oath collectively, after which they will be a part of the United States Volunteer army. Before the sun sets tonight the Indiana National guard will be a thing of the past, and in its place will be four regiments of United States volunteers.

SECOND AND THIRD WILL GO SOUTH.

It is definitely known now that the Second and Third regiments, with battery A, have been selected to go. It is expected that the equipment for these troops will be here today and that no obstacle will intervene in the way of the men leaving Indianapolis tomorrow. Captain May, in speaking of the matter, stated that it was probable that before that time he would receive instructions to send the rest of the regiments to the same place if mustered and equipped by that time.

With regard to the other two regiments and Battery E, of Fort Wayne, neither Captain May nor any one else can say authoritatively that their destination is Chickamauga Park, and the fact that the first move made by the Indiana troops is in the nature of a division of forces presents an ominous feature of the chances of General McKee to lead the brigade as a federal organization. In fact, hope had about died in the breast of every one about headquarters, and, while expressing general regret at not being allowed to serve under him, they are more or less reconciled to the inevitable. General McKee presented his usual unruffled countenance yesterday, and if any one hoped to read his own private conclusions as to his chances for appointment in his face they were most signally disappointed. His air of reserved courtesy was the same as usual, and he attended to the details of his work with the same circumspection as has been characteristic with him.

ANNUAL MEETING.

Methodist Pastors and Stewards of Fort Wayne District to Assemble.

The annual meeting of the Methodist pastors and stewards of Fort Wayne district, will be held in the Simpson M. E. church tomorrow. All the other M. E. churches and the public are invited to attend these services. The program is as follows:

TUESDAY.

2:00 P. M.—Devotional by Rev. J. M. Haines.

2:30 P. M.—"Our Local Church Work." Discussion opened by Rev. F. M. Kemper.

3:30 P. M.—"Our Connectional Interests." Discussion opened by Rev. W. H. Daniel.

7:30 P. M.—Devotional by Rev. C. E. Davis. Sermon by Rev. W. D. Parr, D. D. Pentecostal services by Rev. T. M. Guild.

WEDNESDAY.

8:30 A. M.—Devotional by Rev. N. P. Barton.

9:00 A. M.—The apportionment of benevolences, by pastors and stewards.

10:00 A. M.—The stewards will fix and apportion the claim of the presiding elder, and apportion the claims of the bishops and conference claimants.

HONORS FOR DEWEY.

Congress Adopts Resolutions of Thanks.

Gratitude of the People Tendered the Hero.

President Recommends It in a Message.

Congress Passed a Bill Creating One More Rear Admiral and Dewey Will Be the Man—To Get a Sword.

WASHINGTON, May 9. — Honors were showered thick today upon Commodore Grorge Dewey and the heroes of his fleet at Manila.

President McKinley today sent a message to congress recommending that resolutions tendering the thanks and gratitude of the government and the people of the United States be passed by congress.

In both branches the resolutions were adopted without delay and a bill was passed by house and senate creating another rear admiral, to which rank Dewey will be raised.

In the senate a resolution was introduced and passed authorizing the president to present a sword to Dewey and medals to the officers and men who were under him at the battle at Manila. Ten thousands dollars is appropriated for the purpose.

PRESIDENT'S MESSAGE.

Following is the message sent to congress today by President McKinley:

"To the Congress of the United States:

"On the 24th of April I directed the secretary of the navy to telegraph orders to Commodore George Dewey, of the United States navy, commanding the Asiatic squadron, then lying in port at Hong Kong, to proceed forthwith to the Philippine islands, there to commence operations and engage the assembled Spanish fleet.

"Promptly obeying that order the United States squadron, consisting of the flagship Olympia, Baltimore, Raleigh, Boston, Concord and Petrel, with the revenue cutter McCulloch as an auxiliary dispatch boat, entered the harbor of Manila at daybreak on the 1st of May and immediately engaged the entire Spanish fleet of eleven ships, which were under the protection of the fire of the land forts.

"After a stubborn fight, in which the enemy suffered great loss, these vessels were destroyed or completely disabled and the water battery at Cavite silenced.

"Of our brave officers and men not one was lost and only eight injured, and those slightly. All of our ships escaped any serious damage.

"By the 4th of May Commodore Dewey had taken possession of the naval station at Cavite, destroying the fortifications there and at the entrance of the bay and paroling their garrisons. The waters of the bay are under his complete control. He has established hospitals within the American lines where 250 of the Spanish sick and wounded are assisted and protected.

"The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare. Outweighing any material advantage is the moral effect of this initial success. At this unsurpassed achievement the great heart of our nation throbs, not with boasting or with greed of conquest, but with deep gratitude that this triumph has come in a just cause and that by the grace of God an effective step has thus been taken toward the attainment of the wished-for peace.

"To those whose skill, courage and devotion have won the fight, to the gallant commander and the brave officers and men who aided him, our country owes an incalculable debt.

"Feeling as our people feel and speaking in their name, I at once sent a message to Commodore Dewey, thanking him and his officers and men for their splendent achievement and overwhelming victory, and informing him that I had appointed him acting rear admiral.

"I now recommend that following our national precedents and expressing the fervent gratitude of every patriotic heart, the thanks of congress be given acting Rear Admiral George Dewey, of the United States navy, for highly distinguished conduct in conflict with the enemy, and to the officers and men under his command for their gallantry in the destruction of the enemy's fortifications in the bay of Manila. WILLIAM M'KINLEY,

"Executive Mansion, May 9, 1898."

Senator Hale and Representative Boutelle, chairman respectively of the senate and house committees on naval affairs, were called to the white house during the cabinet session this morning, to consider the resolution of thanks recommended in the president's message. They spent but a few minutes, and the chairmen subsequently met at the capitol and decided upon the form of legislation for making Commodore Dewey a rear admiral, to be introduced simultaneously.

In the senate Mr. Hale presented the resolution of thanks to Commodore Dewey and a bill permitting him to be made a rear admiral. At the same time Mr. Bontelle presented the resolutions and a similar bill in the house.

THE RESOLUTIONS.

Following are the resolutions presented and passed:

"Joint resolutions tendering the thanks of congress to Commodore George Dewey, U. S. N., and to the officers and men of the squadron under his command:

"Resolved, By the senate and house of representatives of the United States of America, in congress assembled, that in pursuance of the recommendation of the president, made in accordance with the provisions of 1508 of the revised statutes, the thanks of congress and of the American people are hereby tendered to Commodore George Dewey, U. S. N., commander-in-chief of the Asiatic Squadon, for highly distinguished conduct in conflict with the enemy as displayed by him in the destruction of the Spanish fleet and batteries in the harbor of Manila, Philippine island, May 1, 1898.

"Section 2. That the thanks of congress and of the American people are hereby extended through Commodore Dewey to the officers and men under his command, for the gallantry and skill exhibited by them on that occasion.

"Section 3. Be it further resolved, that the president of the United States be requested to cause this resolution to be communicated to Commodore Dewey and through him to the officers and men under his command."

The resolutions were passed by the senate as soon as read, and at 10:20 they were passed in the house by a rising vote.

BILL PROMOTING DEWEY.

The following is the bill passed by congress raising the number of admirals from six to seven to provide for Commodore Dewey's promotion:

"Section 1. That the number of rear admirals in the United States navy now allowed by law be and is hereby increased from six to seven, and this act shall be construed and taken as validating and making in force and effect any promotion to said rank of rear admiral in the United States navy made heretofore or hereafter and during the existing war and based on the thanks of congress."

Senator Lodge presented and the senate passed a resolution authorizing the president to present a sword to Dewey and medals to officers and men under him who were in the battle at Manila. It appropriates $10,000 for the purpose.

SUNDAY RIOTS.

Three Hundred Persons Slain in Milan.

One Thousand Were Injured—Troops Repulsed in a Charge Upon the Maddened People.

LUGANO, Switzerland, May 9.—Sunday was a terrible day at Milan. About 1 o'clock in the afternoon a veritable battle occurred in the Via Somtrairie. Thousands of tiles and chimneys were hurled from the roofs upon the troops, who were compelled to retire. A similar fight took place in the Via Torino, and it is believed that no fewer than 300 were killed and 1,000 injured.

A Swiss merchant who has arrived here from Milan describes the events of Sunday as completely anarchistical. According to his account the leaders of the agitation evidently had well arranged plans. Columns of rioters emerged from all the gates of the town and converged on a center, where they rapidly constructed barricades.

When they were disloged by the troops they mounted to the roofs and rained tiles and chimneys down upon the soldiers.

The gates of the town were held by troops in the evening and throughout the night, so that workmen employed outside were unable to return to their homes. In this way the rising was deprived of additional help from without. During the night the city was in almost complete darkness and funeral silence. Artillery, cavalry and infantry bivouacked on the Piazza del Duoma, where re-enforcements were constantly arriving.

Late news last evening from Milan said the Secola had been seized and its editor arrested. The Postal telegraph offices have been closed and all dispatches of mails stopped. The public buildings are guarded.

Many fugitives from Milan have crossed the frontier into the canton of Ticino and to Fontana, among them being the editor of the Italia Del Popolo, the incriminated republican paper, who eluded the police. Eight thousand troops are quartered in the city.

The night passed without any further serious rioting, though the city was in partial darkness, owing to the destruction of the electric lighting wires. A proclamation has been issued calling upon the people to remain tranquil. Re-enforcements of troops continue to arrive here. They will guard the outskirts of the city.

Mr. and Mrs. S. L. Leszynsky, of San Francisco, are guests of friends in the city. Mr. Leszynsky is the western representative of the Foster Shirt Waist factory and this is his first trip to this city.

WILL PUSH THE WAR

Aggressive Measures To be the Program.

Cabinet Decides on a Vigorous Campaign.

The Fighting Will be Forced From Now On.

Troops Will be Hurried to Dewey—Havana Will be Attacked from Rear by United States Troops and Insurgents.

WASHINGTON, May 9.—At today's special cabinet meeting the leading subjects of discussion were the measures to be taken to reinforce Admiral Dewey at Manila and the probable movement on Cuba. As to the former there has been no material change in the plans. Approximately 5,000 troops will be dispatched on the City of Pekin and other transports. The Charleston will act as convoy.

The McCulloch has not left Mirs bay, outside Hong Kong harbor, where she is waiting further instructions to Admiral Dewey, which will be sent probably today or tomorrow. In his cablegram received here Saturday the admiral made no request for troops, not knowing the governor's intention in regard to the occupation of the islands. It seems quite certain, however, that the government intends to make an active campaign against the Spanish forces there and Admiral Dewey will be so informed.

It is not probable that the squadron will bombard the city or engage in an active work against the fortifications there except such as the admiral may find necessary in order to retain control of points now in his possession

On the arrival of the troops, which will be immediately concentrated from the Pacific coast states, it is expected that a landing be made at once and operations begun to capture the city and reduce the remaining fortifications. In addition to the five or six thousand troops the transports also will take out a considerable cargo of supplies, including ammunition.

The president and the members of his cabinet are now expecting important news from Admiral Sampson's fleet which was dispatched against Porto Rico. It is believed that his victory there will be as complete that of Admiral Dewey at Manila although it is hardly to be expected that the consequences to his fleet will be as unimportant.

No alarm is felt as to the whereabouts of the Spanish fleet and it certainly is not expected that Admiral Sampson will encounter them at Porto Rico.

As to the plans of campaign in Cuba it is understood that there has been no material chance from those announced some time ago. At the proper time it is expected that a landing of a considerable force with provisions and munitions for the insurgents will be effected at some easily accessible point and that an active campaign will then begin from the rear as well as from the fleets in front of Havana and other important seaports.

TRANSPORTS AND TROOPS WAITING.

SAN FRANCISCO, Cal., May 9.—Within this week 5,000 men will be quartered at the Presidio in this city awaiting transportation to Manila. Every day troops from Oregon, Washington, Utah and Idaho will be pouring in and the work of mustering in the militia will continue. The state and federal authorities here are working night and day to have all in readiness when the transports are alongside the wharves for their freight. Gen. B. C. Merriam is expected here hourly from Vancouver. Word came from Washington late last night that all branches of the service would be represented in the first shipment of troops to the Philippines and that California had earned the warm commendation of the secretary of war for its admirable celerity in mustering in its quota and for the character of those that composed it. No effort is being spared to get into the ranks of the army and navy every company in California.

Adjutant General Barrett has sent to General Greely, chief of the signal corps at Washington, information that 100 men of California's signal corps stand fully equipped and well qualified to go to the front immediately. The naval militia is extremely anxious to be assigned to duty.

The vessels in port or expected here during the next forty eight hours that could be used as transports for men, horses, munitions of war and coal, are the Australia, Mariposa, Ohio, City of Pueblo, Leelanaw, City of Pekin, City of Sydney, Progresso, Washtenaw and Willamette.

Of these, the Ohio and Leelanaw were brought out here from the east for the St. Nichols trade and it will not take long to fit them out to carry a large number of troops.

The Progresso carries 3,000 tons, the Washtenaw 4,000 tons and the Willamette 2,100 tons of coal. They are now on their way here heavily laden

The big Australian colliers Burmah and Tinia are now on their way here from Nanaimo, B. C., with about 10,000 tons of coal between them, so they would fill up the American steamer Progresso, Washtenaw and Willamette in short order.

The military camp at the Presidio is visited daily by thousands of citizens and the patriotic spirit of the people is shown by flags flying throughout the city.

ALMOST TRAPPED.

Vicksburg and Morrill Barely Escape Destruction.

Tricked by a Spanish Decoy Schooner, the Warships Get in Range of the Havana Batteries.

KEY WEST, May 9.—Only the poor marksmanship of the Spanish gunners saved the Vicksburg and cutter Morrill from destruction off Havana Saturday morning. For over half an hour they were under the fire of the guns of the Santa Clara water batteries, but both escaped without material injury, although sharpened shells flew from eight inch guns and exploded all about them, and both now show pitted scars of the Spanish bullets. A small schooner was sent out from Havana harbor before daylight yesterday to draw the Americans into an ambuscade. She was not discovered until three miles off shore. The Morrill and Vicksburg were about six miles from the schooner when the chase begun. They steamed after her at full speed, the Morrill leading until within a mile and a half of the Santa Clara batteries.

An eight inch Shrapnel passed over the Morrill between the pilot house and smokestack, and exploded less than fifty feet on the port quarter. Two more shots followed in quick succession. One burst close under the starboard quarter and the other, like the first, passed over and exploded just beyond. The Spanish gunners had the range and their time fuses were accurately set. Both boats withdrew rapidly. A solid eight inch shot grazed the Morrill's starboard quarter. All guns of the water battery were now at work. One of them cut the Jacob's ladder of the Vicksburg adrift and another carried away a portion of the rigging.

As the Morrill and Vicksburg steamed away their aft guns were used, but only a few shots were fired.

The Spaniards continued to fire shot and shell for twenty minutes. Their shots were ineffective. As soon as the ships sheered off after the first fire, the Spanish gunners lost the range and their practice became ludicrous. Later in the day the Morrill captured the Spanish schoonor Espana, bound for Havana, and towed the prize to Key West.

IT WAS A FAKE.

A Sensational Bulletin Causes Much Excitement.

Rumor That the Cincinnati Was Completely Destroyed the Work of an Imaginative Brain.

In years there has not been the intense excitement here caused by the posting of a bulletin last evening at the corner of Calhoun and Berry streets that Sampson had been defeated and the cruiser Cincinnati completely destroyed by the Spanish boats. The rumor spread like wild fire and in less than an hour the telegraph and newspaper offices were besieged with hundreds of visitors and telephone calls came in by the scores. On the Cincinnati is Ensign Freeman, of this city, and his relatives and friends were sorrowful. The alleged terrible defeat was announced in some of the local churches. At 7:30 inquiry at the Chicago office of the Associated Press brought the answer that there had been no battle and the Cincinnati was safely harbored at Key West.

JOHN RYAN'S NERVE.

Not many young men who desire to enter the army to defend "Old Glory" will display the nerve exhibited by John B. Ryan, of this city. He joined Company B so that he would be in the front at the beginning. When he was examined Dr. W. W. Barnett found that the cords were so affected in one of his legs that he could not be accepted. John asked if an operation would help and when told that it would he went to an Indianapolis hospital, the operation was performed and now he is improving so rapidly that within a few days the young man will be able to take his place alongside the other patriots.

MUST BE PERFECT PHYSICALLY.

As there are many young patriots who desire to enlist in the army as volunteer soldiers, it is well for them to known that the secretary of war has instructed all United States mustering officers to refuse all persons under 18 years of age, and also all who have any physical defect, and especially all those whose eyesight is at all impaired or imperfect. Perfect vision is one of the many essentials of a soldier, as his own life and that of the army might depend on his being able to correctly distinguish signals and persons. The government will only accept, as volunteers, men nearly physically perfect. It is useless for others to try to get into the army.

SAMPSON THE NEXT.

The Country Now Waiting to Hear From Him.

News of a Battle Expected in a Day or Two.

Spanish Cruiser Puts in at Port St. Thomas.

The Battleship Oregon Reached Bahia, Brazil, This Morning—Her Movements are Secret—Naval News.

WASHINGTON, May 9.—Nothing has been learned here today of the whereabouts of Admiral Sampson's fleet. No news respecting it has been given out from the navy department. It is expected that he will have met and engaged the Spanish fleet by tomorrow night.

ST. THOMAS, West Indies, May 9.—The Spanish cruiser Isabell II, an iron vessel of 1,130 tons displacement and carrying a crew of about 130 men, arrived here at 6 o'clock this morning. Her commander communicated with the Spanish consul at this port and the cruiser cleared immediately, destination unknown. No news has been received here of any engagement yesterday.

LISBON, May 9.—The newspapers of this city say that a Spanish fleet, consisting of nine vessels, passed Cape Espichel, twenty-one miles south by west of this port at about 1:30 o'clock yesterday afternoon. The fleet was steering a southerly course.

BAHIA, Brazil, May 9.—The United States battleship Oregon arrived here at 9:40 this morning. It is said she is now acting under secret instructions from Washington.

NEW YORK, May 9.—The Commercial cable sent out notice that the cable between Montevideo and Rio Grande do Sul is interrupted. This cuts off telegraphic communication with Montevedio and places south, including Buenos Ayers.

DELAWARE BREAKWATER, Dela., May 9.—The auxiliary cruiser St. Paul, Captain Sigsbee commanding, put to sea this morning. Her destination is not known.

NEW YORK, May 9.—The Commercial cable company announces that it is advised that telegrams for Spain written in code or cipher can only be accepted at senders' risk.

NASSAU, N. H., May 9.—First Lieutenant Andrew S. Rowan, of the Ninetteenth infantry, the agent of the United States war department, who has been on a visit to Cuba, arrived here today, after accomplishing his mission. He has seen the Cuban leaders and, incidentally, he saw Rear Admiral Sampson's fleet steering in an easterly direction. Lieutenant Rowan left Cuba May 1 in an open boat.

NEW ORLEANS JOINS FLYING SQUADRON.

ON BOARD THE FLAGSHIP BROOKLYN, OFF FORT MONROE, Va., May 9.—Commodore Schley and his staff watched with great interest this morning from the bridge of the flagship the arrival of the new cruiser New Orleans. She came up Hampton Roads at a pretty lively gait and about 10 o'clock anchored about three miles distant from the squadron.

The New Orleans is in command of Captain Folger, and when she dropped anchor here and saluted the commodore's flag became one of the flying squadron.

Commodore Schley and officers of the fleet expressed admiration at the general appearance of the new cruiser. She is evidently a better fighter than the detached Columbia although not quite so fast.

Commodore Schley decided not to have her go up to Newport News for either coal or painting and she will remain at anchor here getting her coal from lighters. The Minneapolis will come down this afternoon fully coaled and the squadron will then consist of three cruisers, two battleships and a converted yacht.

The formidable dynamite cruiser, the Vesuvius, got away finally this morning from Key West, accompanied by the Suawnee. Both boats will join the blockading squadron in the vicinity of Cuba.

INSURGENTS EAGER TO FIGHT WITH UNCLE SAM.

NEW YORK, May 9.—The Evening Post's Key West correspondent today says:

An artist who has just arrived from Gomez's camp says that there are 18,000 Cubans in the neighborhood of Sancti Spiritus, but they are short of arms and ammunition. They also have difficulty in obtaining sufficient food, but are full of enthusiasm and desire to co-operate with our army. The condition of the reconcentrados is described as pitiable in the extreme.

TO ICY DEATH.

Ice Gives Way Beneath Party of Klondikers.

A Score of Men Precipitated in Certain and Awful Death—None of the Victims Yet Identified.

SAN FRANCISCO, May 9.—A special to the Examiner from Victoria, B. C., says:

On Monday last the ice covering a defile near Crater Lake, gave way under the passing throng of Klondikers, and more than a score of men were precipitated into the water and carried to certain death beneath the river's frozen coating. Dr. J. F. Frizelle, of Los Angeles, who came down in the Alki, who brings the news, passed the scene only a few hours after the calamity occurred. It was on the other side of the summit between Linderman and Long lake, at a point in the canyon some twenty-four miles above Stone House, where an ice slide over a mountain stream has been utilized as a path for sleds by the fortune seeker. A number of men were advancing in an unbroken rank, each hauling a heavy laden sled, when there was a sudden crash.

The ice opened for thirty feet or more and in an instant twenty-two men with their supplies were whirled down and under the smooth surface of the stream to drown without even the chance of battling for life. The names of the victims of the ice Dr. Frizelle says he cannot give. There is no possibility of identifying them now, he says, nor can the names be announced with positiveness until the bodies are delivered by the stream at the lake or the disappearance of the ice.

Four Montana and two California men are thought to have been among the victims, while the others included an eastern party of seven, almost all being remembered only by the nicknames which western freedom had given them.

MAINE MEMORIAL.

Heroes of the Battleship Honored by Churches.

Rev. Sherman Powell Preaches a Brilliant Discourse—Rev. W. D. Parr Talks of the War.

Maine memorial services were held in several of the M. E. churches of Fort Wayne last evening. Sermons especially appropriate to the occasion were preached and the services were attended by unusually large audiences. Music appropriate and thrilling was arranged, and the throngs of people were wrought to a high pitch of patriotic fervor.

TRINITY M. E. CHURCH.

At Trinity M. E. church every available inch of room was occupied, and the crowd overflowed to the outside, and strained its ears to catch some fragment of the discourse.

The music was stirring and well rendered. The address of Rev. Sherman Powell, the pastor, aroused great enthusiasm, and evoked several demonstrations of high feeling. Rev. Powell discussed the Spanish character with special reference to Spain and its national aspect.

"Honor without character is an ephemeral pretense," he said. "The only 'honor' Spain has to defend is the honor of being the most intolerant, the most cruel and the most tyrannical nation in Christendom."

WAYNE STREET M. E. CHURCH.

Memorial services at Wayne street M. E. church were attended by a great audience and the sermon by Rev. W. D. Parr was strong and appropriate. He referred to the destruction of the Maine as the darkest incident of its kind in all history. He did not hold the Spanish government directly responsible, but Spanish influence was responsible. Rev. Parr said that now the war was on it was the duty of all citizens to support the administration. "We do not want one inch of land," he said. "We do want justice and fair play, and now that war is on we mean to have it, you will see. What a spectacle! The young republic literally going to thrashing on mercy's account. It is America's honor to give the new and broader definition to the doctrine of brotherhood. By devotion to duty the heroes of the noble Maine have built their own monuments. The tooth of time cannot destroy it. A grateful people will never forget."

The annual election of officers of the Morning Musical, was held at the Fort Wayne club Saturday morning, with the following result: Mrs. W. H. Myers was re elected as president; Mrs. S. C. Lumbard, vice president; Mrs. G. E. Barsley, second vice president; Mrs. Will Crighton, third vice president; Miss Edith Yarnelle, recording secretary; Miss Helen Snyder, corresponding secretary; Mrs. Minnie Brown, treasurer; Miss Stella Sweringen, librarian.

Justice Bullerman this morning united in marriage in his office Robert Veiwegen and Ida Weiss.

WHEN Uncle Sam gets Cuba "pacified" perhaps he will find time to pacify Spain.

PAUL JONES was more fortunate than Dewey. His name was no encouragement to the funny men.

SOME legal measures are in order to protect the thrice glorious name of Dewey from the blasphemies of the irrepressible punster

THE Spaniards have abandoned Manila. What Dewey now needs is troops and the Philippines will be under the stars and stripes.

THE real war is raging among about a dozen of the leading American newspapers, each one of which solemnly claims to have scored a great "beat," the most "remarkable journalistic achievement of the century," in first publishing the news that Dewey had been heard from and giving details of the great engagement at Manila.

CUBA should soon be rid of Spaniards. Havana waits to be taken. As soon as Sampson finishes his work with the Spanish fleet and reduces Porto Rico the only remaining detail will be the conquest of Spain in Cuba. And that will be as easy as any job yet undertaken. The soldiers of the new republic will help the affair along with vast celerity.

FROM Washington comes the welcome announcement that henceforth the war against Spain is to be pushed with all vigor. That is the thing to do. Strike the enemy and give him no rest. To strike and keep striking was the offensive policy of Napoleon. Grant made it his rule of war to hurl himself upon his enemy whenever and wherever he found him. It is good news that the United States intends to force the fighting. That will mean a speedy end to the war.

THE disparagement of our navy has been so persistent for years that the people have witnessed with a thrill of delight the developments of the last month. Though the United States navy is far from commensurate with the position we hold among nations, great progress has been made in the last few years in naval construction. Congressman Boutelle, chairman of the house committee on naval affairs, says that fifteen years ago there was not a modern gun afloat in the navy of the United States. Since that time $388,000,000 has been appropriated for naval expenses, the tonnage has been increased 258,000 tons, 5,500 men have been added to the enlisted force, 114 vessels have been built, sixty-three torpedo boats and destroyers have been authorized, and a navy has been made that is capable of throwing at one discharge of its guns 122,260 pounds of metal.

IT is not at all likely that in the event of the invasion of Cuba the American troops will suffer from disease in any such proportion as the Spanish forces have experienced. Medical skill is already at work on precautionary measures. Maps pointing out the fever tracts have been made and will be used in planning campaigns. United States soldiers will be better cared for than the Spanish, and will care better for themselves. Medical attendance will be the best, and the sanitary regulations will be faithfully enforced. There is no doubt of the dangers to health of the low-lying districts of Cuba, but it is a question if the menace is greater than in some parts of our own southern coast. The Americans who have fought with the Cuban insurgents in the highlands do not seem to have suffered severely from disease, and it must be remembered that insufficient and improper food has had much to do with the military distress in Cuba.

A Southern Tribute to Grant.

The first and firmest friend found by the defeated south was U. S. Grant.

The great soldier's efforts to restore entire peace and brotherhood began at Appomattox, when he accepted the surrender of Lee's army upon terms more magnanimous than victor had ever before extended to foeman. Grant made peace between north and south possible, and from the day the confederate army stacked its arms under the stars and stripes to that mournful day when the final summons came to him on Mt. McGregor, Grant hoped and prayed and strove for peace—everlasting brotherly peace. At the Grant birthday dinner in New York, the other day, Henry Watterson, the brilliant editor of the Louisville Courier-Journal and an officer in 1864 on the staff of the confederate general, Joe Johnston, called Grant "our great captain." In his address on the "Reunited Sections" Colonel Watterson referred to the present union of the once hostile sections as a sight that would have gladdened Grant's heart. Said the speaker:

"If the illustrious soldier whose memory we celebrate were with us here tonight, his heart would glow with satisfied pride in the answer which time has made to his prayer for peace between the once warring sections of the union and in the spectacle which the present unfolds of a whole people rallying as a single man under the stars and stripes.

"I cannot help thinking that, when the history of our generation comes finally to be made up, it will be related that two mistakes of the first order were perpetrated by the people of the United States the latter half of the nineteenth century. It was a mistake of the south, for any cause whatever, to precipitate a war of sections, and it was a mistake of the north, after the overthrow of the confederacy, to undertake a reconstruction of the union by force of arms. That the country has survived errors of such magnitude is proof of amazing vitality; of a vitality that draws its sustenance from the adaptability and the flexibility of free institutions and from a popular character equal to all emergencies. Man proposes and God disposes, and often we build wiser than we know. Perhaps the very mischances of these forty years of domestic controversy were needful to make us the nation we are today.

"It was General Grant himself who issued the order finally withdrawing the troops from the southern states, and, when we remember that it was none other than Grant who stood between the confederate soldier and a surrender that might have been dishonoring to American manhood, the debt we owe our great captain becomes incalculable."

When the south begins, as it has, to look back to Grant as "our great captain," it is time to realize that the wounds of the war have not only healed, but the scars have disappeared.

RUSH WAR ORDERS.

Cleveland Concern Filling Big Contract for Ponchos to be Used in Cuba.

CLEVELAND, May 9.—The Cleveland rubber works has just received a rush order from the United States government to furnish 15,000 ponchos for the volunteer army. The ponchos are light rubber blankets 72x45 inches, and are adapted to three uses. They can be used as blankets, as capes, or four of them may be laced together and made into a tent. It is the intention of the government to furnish all the volunteers with these blankets as they will be especially serviceable in Cuba during the rainy season.

Another order for 50,000 ponchos will probably be given the company within a few days.

Messrs. Warner and Swasey today shipped the various coast forts the first installment of new telescopic sights they have been making for the big guns.

Lieutenant Mongomery, of the United States army, inspected the new instruments and has pronounced them all right. The contract for these telescopic sights is the first given to an American firm, they having heretofore all been made in England.

Veterans of the late war are talking of arranging a public demonstration in honor of Admiral Dewey's great victory in the Philippines. Members of the G. A. R. and Union Veteran Legion are in favor of such a celebration, believing that such an event in American history deserves to be commemorated. Some of those gentlemen will probably call upon the city officials, and will also call on the business men, to work up a sentiment in favor of a public gathering.

WON ONE A PIECE.

New Castle and Fort Wayne Split Even Yesterday.

The Fort Waynes Could Not Solve Clarence Smith's Three-fingered Curves—Guese Was Wild—Notes.

There were more than 1,500 people at Lakeside park yesterday afternoon to see the double-header between the Fort Wayne and New Castle base ball clubs. Both games were interesting and each team was credited with a victory.

Clarence Smith, the young gentleman whose fingers are rather scarce on his pitching hand, was in the box for the Yanigans and the local batters could not solve his deceptive curves. Try as they would, only three times were Fort Wayne's hard sluggers able to hit the sphere safely and any "crank" knows that a game cannot be won on three hits. Minnehan pitched a nice game, too, and but for a wild throw by Fitch the score would have been 2 to 1.

Guese started to do the twirling for the visitors in the second game, he having pitched the eleven-inning, two to one, game last Friday. Yesterday, however, he was very wild and in four innings hit two men and gave four bases on balls. When he did get the ball over the plate the Fort Wayne sluggers generally lined it out for a safe hit. After seven runs were scored Woodside was sent to the pitcher's box by Manager Lytle and although he was hit as hard as Guese he had better control and kept the hits scattered. the result being that in five innings only one run was scored off him. Reiman pitched for Fort Wayne and was hit harder than Minnehan, but the hits were not bunched enough to score many runs. Scores:

MANSFIELD, 6; TOLEDO, 2.

TOLEDO, Ohio, May 9.—Inability to bat Miller's delivery, coupled with four rank errors by Second Baseman Beck, lost yesterday's game to the Mansfield team, which played its first game of the season here. The score:

Mansfield . . . 0 1 1 1 0 0 1 2 *— 6
Toledo. . . . . 2 0 0 0 0 0 0 0 0— 2

Base Hits—Toledo, 5; Mansfield, 7. Errors—Toledo, 6; Mansfield, 4. Batteries—Keenan and Arthur; Miller and Law. Umpire—Colgan.

YOUNGSTOWN, 17; GRAND RAPIDS, 10.

GRAND RAPIDS, Mich., May 9.—The visitors made nine runs in the third on four hits and five Grand Rapids errors. The score:

Youngstown . 5 0 9 2 0 1 0 0 *—17
Grand Rapids. 5 1 0 0 0 1 0 3 0—10

Hits—Grand Rapids, 18; Youngstown, 12. Errors—Grand Rapids, 8; Youngstown, 3. Batteries—Camp, Kostel and Cole; Brunner, Garvey and Zinran.

DAYTON, 7; SPRINGFIELD, 6.

DAYTON, May 9.—Dayton won the game here yesterday before an audience of 3,000. It was close and exciting from the start, as the teams are great rivals. The score:

Dayton . . . . . 0 0 1 2 2 1 1 0 0— 7
Springfield . . 0 0 2 0 2 0 0 0 2— 6

Base Hits—Dayton, 10; Springfield, 9. Errors—Dayton, 1; Springfield, 3. Batteries—E. Brown and C. Brown; Crabill and Graffius. Umpire—Lally. Time—2:00.

NOTES.

That was a cracking big crowd at Lakeside yesterday.

Warner's judgment on balls and strikes is not perfect and he is inclined to even up.

Pitcher Beam has signed a Mansfield contract and the Haymakers are correspondingly happy.

Hickey was strictly in it yesterday. His batting and Babb's fielding were features of Fort Wayne's play.

Youngtown is here for three games. Alloway is twirling today. Patterson will be in the points tomorrow.

The west side bleechers fell yesterday with several hundred people on them, but luckily no person was injured.

The Robison Park league season will open on the 29th of this month. Work on the grounds will begin this week.

The Youngstown ball team arrived at noon today and are guests of the Randall.

Belden is able to be about and has been on the bench with the other members of the team during the last two days. He may be able to play in a week.

Toledo Commercial: "'Shorty' Wetzel is again with the Dayton team. Aside from 'Goat' Fitch he is the most diminutive ball player in the league."

Grand Rapids fans are delighted with the article of ball put up by the Inter-State league, and are not at all sorry over their divorcement from the class A organization.

Manager Geer, of Youngstown, has released John Spears, pitcher, and John Smith, catcher. He expects to get two players from the Pittsburg league team—a first baseman and catcher.

Patterson, the Youngstown first baseman, never handles a ground ball cleanly, but he always ceases his fumbling just in time to retire a runner who may be getting encouraged at seeing his juggling specialty.

The Keystones defeated the True Blues yesterday at the jail flats by a score of 7 to 3. Batteries—For Keystones, Bates and Connelly; for True Blues, Green and Boseker. Base hits—Keystones, 11; True Blues, 5.

George Tebeau sends word to THE SENTINEL that he is well pleased with the new rules of the game. He says he never kicked except when he believed he had a "kick coming" and then he kicked good and strong. He would not have it any other way than the Brush resolution makes the game.

The ball game on the Concordia college grounds last Saturday afternoon was disastrous to the Penna club, the score standing 20 to 13 in favor of the college boys. This defeat has led to a reorganization of the Penna club, which hereafter will be under the management of W. S. Wells, with Frank Doriot as secretary and W. Y. Cherry as captain. Hugh Hogan, jr., who last year was a member of the Robinson Park league, has joined the Pennas and the club has been strengthened by other additions. On Saturday, May 21, this club will play the South Bends at that city and on Memorial day it will play at Columbia City with the Warsaw club.

Nattress is undoubtedly the best ball player in the New Castle team. He is the speediest runner, covers a big lot of ground and can hit as safely as any member of the team. His fielding while here was not perfect, but the poor fellow was on "nettles" all the time. Not only were the members of the team roasting him, but Manager Lytle kicked because the scorer did not credit up more errors against him, and the fast little fielder was covering more ground than any other two players on the team. He can give Lytle cards and spades and then beat him playing any point of the game. Quit knocking and New Castle will have the fastest little short stop in the Inter-State.

The Rifles defeated the Shamrocks yesterday morning by a score of 11 to 10. Heller was handled in gilt-edged style by Eising, but was given poor support on the infield. Collars' work in center was fine. Slow work on the bases and inability to connect with Baker's curves in the last inning lost the game to the Shamrocks. Tegtmeyer was in the points for the Rifles until the last inning, when a hot liner from Robbins' bat put him out of the business. When Tegtmeyer retired the score was 11 to 10 with two Shamrocks on bases and no one down. Baker went in the box at this point, and struck out the first two men up. The next hitter was retired on an easy one to Baker. Braiden caught two men on the bases in the eight inning. Tegtmeyer has plenty of steam, and with a little coaching will keep the Robison Park league teams guessing.

Columbus Journal: "The New Castle Inter-State league team is touring that circuit, heralded as an aggregation that could jump into the Western league and beat at least five teams that belong to Ban Johnson's "eight." In other words, the New Castle management states that their team could join the Western league and finish third or higher in the race. If winning seven out of the eight games at the opening of the season inflates the top pieces of the New Castle magnates to such an extent, some enterprising hatmaker should keep a representative with the New Castle team, as new headgear will be required frequently, until the inevitable process occurs. The New Castle team seems to be a good one in that company, but such absurd claims can only emanate from the brain of pipe devotees, who would do well to follow the example of Manager Torreysm of the Grand Rapids team. The latter gentleman honestly says that Inter-State ball cannot be as fast as the Western league furnishes, but that does not detract from the interest, as any time teams are well matched, no matter how small the league, complete satisfaction is given patrons." The New Castle team is not as strong by any means as several other clubs in the Inter-State.

Saturday workmen, while digging a trench near the barn in the barnyard at the C. S. Knight home on Spy Run avenue, dug up the almost intact skeleton of a man, presumably an Indian. The figure of the man must have been of good stature, for only a few of the bones of the skeleton are missing, and the frame is that of a big man. All of the teeth have remained in their place in the jaws of the late lamented red man, and this fact, too, tends to prove that the deceased belonged to the American rather than the Caucasian race.

IN POTTER'S FIELD

Sleep the Heroes of the Battleship Maine.

In Unmarked Graves, Beneath the Fierce Tropical Sun They Rest—Old Cemetery at Key West.

Copyright 1898, by the Associated Press.

FROM A STAFF CORRESPONDENT.

KEY WEST, Fla., May 6.—In the outskirts of the town, where the small Spanish cottages cluster silent and sunburned along the narrow street, is the city cemetery of Key West.

Near the main entrance, which is guarded by a croaking old wooden gate, is a group of newly made graves.

They are in the Potter's field—the part of the burying ground set apart for the pauper dead. These are the graves of the heroes who lost their lives on the battleship Maine in Havana harbor on the night of February 15.

There are twenty-four of them unmarked. Above each mound of glistening white limestone soil a small American flag droops in the fierce sun that beats incessantly down upon this island. The flags are faded and frayed When a breeze comes up from the ocean they flutter sadly for a moment and again droop to the scorched earth.

On the center of each mound is a small glass goblet which still holds the discolored and withered stems of flowers.

"They were put there by a lady from Philadelphia," said the dreamy old sexton, "but I don't know who she was. She came here about ten days after the bodies were buried and put flowers on all the graves. I asked her who she was, but she said no matter."

And these faded little flags and withered stems of flowers are all that mark the resting place of the heroes of whom the civilized world has been talking since the fatal night, nearly three months ago. There is nothing else to tell the stranger who passes through the potter's field where the heros of the Maine are sleeping.

The space where the graves are was evidently prepared in great haste. Near the little white mounds on all sides are unsightly heaps of litter and rubbish.

In one spot stands an old hearse, weather beaten and ghastly in its very aspect of loneliness and decay. The sexton said it had once been used as the city hearse, but one day it broke down while carrying a body to the potter's field and there it still stands.

Just to the north of the resting place of the Maine sailors is a small iron inclosure which marks the grave of Bridget E. Hoffman, who died in 1864.

"I guess we will have to call her Mother Hoffman," said the old sexton, "for she is the only one buried here who's got a name, and I think she ought to be mother of everybody in potter's field."

Very close to the twenty-four mounds is a group of thirty-six naval seamen who died of yellow fever. The sexton, however, was unable to tell when they were buried there. Nothing on the little twelve-inch slabs at the head of each group tells the story of the life or death of the dead seamen. The names and the words "United States navy" alone are carved upon the slabs.

But nature, even with the barren lime rock below and the scorching sun above, seems trying to do what the hand of man has failed to do in beautifying the graves of our heroes. Luxuriant trees of the tropical species are all about the newly made graves. On one side a massive green cactus lifts its pulpy foliage high in the air. On the opposite side a row of tropical trees refreshingly green are in full blossom, and with every breeze cover the sunburned mounds with beautiful scarlet flowers.

Near another side of the little burial plot is a row of royal spruce pines which throw a shadow upon the graves in the afternoon and through those branches the sea breezes constantly sing when the sun has gone down.

Rarely does any one visit the place. It is without care or attention—a by-corner of the island, where for two centuries Spaniards, negroes and fisher folks have put their dead and forgotten them.

Perhaps one-half the graves in the cemetery are those of unknown sailors whose sleeping places are unmarked. Most of the inscriptions on tombstones are in Spanish. The graves of the Maine's victims are surrounded by tombstones with Spanish inscriptions. It is a picture of melancholy desolation.

The graveyard is located on a high point in about the middle of the island and from it the great stretch of blue ocean may be seen on either side but a half mile distant. There is no soil there. The graves are carved out of the limestone and rock. All day the sun beats down upon the barren white rock surface until the scanty vegetation curls and crackles in the heat. Rarely is there a sound to break the melancholic silence.

Sometimes one hears the weary cry of a sea bird overhead, or the soft parrot-like voices of the Spanish children in the cottages nearby but that is all.

The voices from the warships out at sea, the clatter of commerce in the harbor and the idle babble of the town never disturbs the sleep of our hero sailors here in their rock-bound berths.

Of the twenty-four who are buried here only two were identified. They were a negro and a Japanese. It is probable that at some future time they may be removed to another burial place. If not, a suitable monument will be erected to their memory.

Mothers, be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. Mayscodaw

Good Reasons for Giving.

At the meeting of the Fifeshire association, held in London last night, Dr. Wallace told a story of a pensioner who used to stand with a placard on his breast enumerating his claims to the coppers he begged. The list ran thus: "Battles, 4; wounds, 5; children, 6; total, 15." This is almost as good as Sir M. Grant-Duff's story of the Irish beggar, who prayed: "For the love of God, sir, give me a crust, for I am so thirsty that I don't know where I shall sleep tonight."

Custom vs. Science.

The most ignorant frequently stumble upon discoveries which when developed prove of rare advantage. For many years the Southern blacks were in the habit of wrapping meat in pawpaw leaves to make it tender, as they said, and they also threw one or two of the leaves into a soup pot to make it taste better. No one gave the fact any thought until a chemist one day analyzed the leaf and found that it contained a new digestive principle of considerable importance. He began to manufacture the extract, which is now regarded as a panacea by many people who would have laughed to scorn the suggestion of using the pawpaw leaf as mentioned.—New York Mail and Express.

SPECIAL EXCURSION

To Indianapolis Via Wabash Railroad, Sunday, May 15.

The Wabash special Indianapolis train will leave Fort Wayne at 6:00 a. m., Sunday, May 15. The round trip ticket fare has been placed at only $1.50. Visit Indianapolis. Visit Camp Mount. 7 7t

Fast Time to Colorado.

A new through Sleeping Car line between St. Louis and Colorado Springs will be established over the Wabash-Rock Island Short Line May 15th, 1898. The time will be the fastest made with through service between these two points by many hours. A through sleeper will leave St. Louis on Wabash train No. 3, at 9:20 a. m., arriving at Colorado Springs the next morning at 11, with a direct connection for Denver, arriving at 11:30 a. m. This is the fastest regular through service ever established between St. Louis and Colorado. Returning, the sleeper will leave Colorado Springs at 2:45 p. m., and arrive at St. Louis the next evening at 6:15.

Patrons of this line will avoid the only unpleasant feature heretofore attendant on Colorado travel, inasmuch as the trip through Missouri's fertile fields will now be by daylight, and the unattractive portion of Kansas will be traversed during the night, with the mountain scenery to greet the tourists in the morning.

The fast time of this line will naturally commend the Wabash Route to intending Colorado tourists.

Particulars will be gladly furnished on application.

Catarrh

Mrs. Josephine Polhill, of Due West, S. C., had a severe case of catarrh, which finally became so deep-seated that she was entirely deaf in one ear, and part of the bone in her nose sloughed off. The best physicians treated her in vain, and she used various applications of sprays and washes to no avail. Fourteen bottles of S. S. S. promptly reached the seat of the disease, and cured her sound and well.

CURED BY

SSS

S. S. S. never fails to cure a blood disease, and it is the only remedy which reaches deep-seated cases. *Guaranteed purely vegetable.* Books free; address Swift Specific Co., Atlanta, Ga.

SPRING SUIT

DON'T let cheapness guide you. You must consider **Quality** if you expect **Satisfaction.** When that is missing disappointment is bound to follow.

This spring we have gathered for your delectation an assortment of Suits that lacks nothing of being perfect. Perfect in infinite variety. Perfect in its qualities. Perfect in its tailor-made stylishness.

Prices Range From

$5 to $18.

But we can give you no adequate idea of the values represented until you have made an examination.

WE PERMIT NO OVERSTATEMENTS

In Our Advertisments.

SOME people consider deception an art. It may be, but it's an art we have no use for. Fair dealing is artistic enough for us. It makes new friends and holds old ones, and that's all we are after. Prices are the only difference between clothing here and elsewhere. There is a chance to prove it. The competition in clothing has never been so keen as this season, and we realize that only some extraordinary effort on our part will enable us to get our share. This superhuman effort we are now making. Visit all the clothing stores in town, or the one which you consider the best, and then come to our establishment to compare styles and prices.

A WORN-OUT FAD.

"Spring Medicines," "Blood Purifiers" and "Tonics" an Old-Fashioned Idea.

Pure blood, strong nerves and muscles, firm, healthy flesh, can only come from wholesome food well digested. "Blood purifiers" and "nerve tonic" do not reach the cause of the mischief. The stomach is the point to be looked after. The safest and surest way to cure any form of indigestion is to take after each meal some harmless preparation of this kind composed of vegetable essences pure pepsin, golden seal and fruit salts, sold by druggists under name of Stuart's Dyspepsia Tablets, and these tablets taken after meals, assist digestion wonderfully because they will digest the food promptly before it has time to ferment and sour, and the weak stomach relieved and assisted in this way soon becomes strong and vigorous again.

Stuart's Dyspepsia Tablets are superior to any secret patent medicines because you know what you are taking into your stomach.

They are sold by druggists everywhere at 50c per package. Write F. A. Stuart Co., Marshall, Mich., for book on stomach diseases, mailed free.

AMES BURNS,
Ex-Collector of the Port of Kansas City.

Of the men who have occupied positions of public trust in Kansas City, either by gift of the people or by appointment; none has a more enviable reputation for ability, honesty and efficiency than James Burns, Collector of the Port of Kansas City under Grover Cleveland. He lived to the letter the maxim, "a public office is a public trust," and when he retired he carried with him the respect of everyone in the community—Democrats and Republicans alike.

James Burns has used Stuart's Dyspepsia Tablets and he does not hesitate to say they have accomplished wonders.

"I suffered with dyspepsia for twenty years," said Mr. Burns yesterday. "Never knew what it was to enjoy life—in fact living seemed a burden, as it does to all who suffer severely with dyspepsia. A few months ago I began taking Stuart's Dyspepsia Tablets. From the first I felt relief, and now, although I am still taking them, I feel entirely cured. For the first time in twenty years I can eat anything I want and suffer no ill effects from it. You can't imagine the pleasure of this unless you have been a dyspepsia sufferer.

"I never gave a testimonial for any medicine before, but I feel as if everybody ought to know of this remedy, and while it is personally distasteful to me to appear in print in this connection, I feel as if I had no right to shirk the opportunity to, perhaps help some other sufferers from dyspepsia. I have been recommending the Tablets to all my friends. Only recently I took James H. Lillis, the father of Father Lillis, down to get some, and I understand he also is being wonderfully benefitted. I can't recommend it too highly."

THE BIRD OBJECTED.

THIRTEEN HOURS

Is the Work Schedule at the Electric Works.

Several Accidents to Railway and Shop Employes—Randolph Breeze Is on the Montgomery.

The electric works is again falling away behind its orders for machinery and to facilitate the work of building dynamos the men in the machinery department, which is presided over by Charles F. Knothe, will hereafter work thirteen hours per day. The instrument makers under Foreman Strubey will also work thirteen hours per day.

TWO UNFORTUNATE SWITCHMEN.

James Young was struck by engine No. 198 last night and thrown several feet, but luckily he escaped any serious injury. He was taken to his home on Walton avenue, where Dr. G. C. Stemen attended him.

Switchman Minnich was caught between the deadwoods Saturday night and his right arm and hand were painfully pinched, but not so as to cripple them. He will be disabled a few days. Dr. G. C. Stemen attended him also.

WABASH'S NEW TIME CARD.

Next Sunday the Wabash will put a new time card into effect. As now arranged the card will be as follows:

No. 1, fast westbound mail, no change; arrive here at 6:30 p. m.

No 3, no change; 8 p. m.

No. 5, which leaves here now at 9:33, will become the "Continental Limited" and run via. Eel River road.

No. 7, no change; 12:30 p. m.

No 11, the Fort Wayne accommodation, will be changed to run between Lafayette and Springfield.

No. 25, new local passenger, will leave the city for the west at 9:10 a. m.

No. 2, now due at 5:31, will arrive at 6:07 a. m.

No. 4, due here at 6:25 p. m., will become the "Continental limited" and go to the Buffalo division.

No. 6, no change: 11:40 a. m.

No. 10, the accommodation from the west arriving here at 8:55, will be transferred to the middle division.

No. 20, no change; 5:55 a. m.

No. 24 will be a new local mail and passenger train and will pass here at 6 p. m.

There is a probability that there will be one or two minor changes in the foregoing time card, but its main features are correct.

PERSONAL AND OTHERWISE.

Blacksmith J. D. White, of the Pittsburg shops, is sick.

Nickel Plate engine 15 has gone to the shops for repairs.

Nickel Plate Fireman John Bresnihan is off duty on account of sickness.

Casper Lehmkuler is again confined to his home by sickness. He is a blacksmith.

The Wabash will inaugurate the dollar Sunday excursions to Toledo on the 22nd inst.

The electric works this morning shipped a 1,500 light incandescent machine to Elgin, Ill.

Fred Kaiser, a boilermaker in the Wabash shops at Peru, was the guest of James Olive, jr., over Sunday.

The machinists will hold their regular meeting tomorrow evening. All members are requested to be present.

Car Inspector R. Krull, who had been on the sick list, resumed his duties in the Pittsburg yards this morning.

The Wabash employes at Peru raised a big pole and flung the American flag to the breezes last Saturday.

George Noll was at Indianapolis yesterday to see his brother, who is a member of company B, Third regiment.

Walter Lyman has sold his interest in the Wayne Buggy company to Harges & Long. Mr. Lyman will continue in the employ of the firm.

The city freight depots at Indianapolis are now closed at 5 o'clock in the evening. They were formerly kept open until 6 and sometimes 7 o'clock.

It is said that J. A. Spoor, president of the Chicago, Hammond and Western road, was offered the presidency of the Nickel Plate, but declined it.

Capt. J. C. Kensill, who had one of his knees injured two weeks ago, is recovering and will resume his place in the Pittsburg shops tomorrow or Wednesday.

John Withers, an employe of the Wabash roundhouse at Andrews, dropped dead while at his work at 4:30 o'clock Saturday afternoon. He was supposed to be afflicted with heart disease.

John Slater, the blacksmith, is on the streets again and is making rapid progress towards health. He has been in a bad way physically for six months, but thinks he will speedily recover now.

Fred Hayden Shoaff, who has completed his course of instruction in the Fort Wayne Business college, has returned to Cleveland, Ohio, to accept a position in the general offices of the Nickel Plate.

William Wadsworth resumed his old place in the Pittsburg blacksmith shop this morning. He was a member of the true blues, but failed to pass examination at Indianapolis and was sent home.

The Baltimore and Ohio shopmen at Garrett, Ind., raised a large pole Saturday evening and hoisted upon it the American and the Cuban flags.

F. E. Long, Nickel Plate conductor, is again running in the through freight service, after being on a short haul out of Bellevue a few weeks.

Nickel Plate engine No. 2, just out of the Stony Island shops, has taken the place of engine 169 in the passenger service and the latter will now go to Stony Island for light repairs.

The Baltimore and Ohio Midland division may effect arrangements with the Panhandle, whereby the former may use the latter's terminals at Columbus, thus gaining access to the Union station.

President J. J. Hill, of the Great Northern, has returned from Europe. It is supposed that he will immediately endeavor to put a stop to the passenger rate war now being waged in the northwest.

John Rhinesmith, of the firm of Rhinesmith & Simonson, has returned from Warren, Ohio, where he spent six weeks. The sojourn there restored his health and he came back as "hearty as an ox."

Fred Hurst, a machinist at the electric works, had the little finger of his left hand so badly mangled Saturday afternoon that it will have to be amputated. The digit was caught in a lathe which Mr. Hurst was operating.

District Passenger Agent Thompson, of the Wabash, is distributing a little book which will be greatly prized by those interested in base ball. It is a well gotten up schedule of the Inter-State league games for the season of 1898.

The St. Paul, the warship on which our townsman, Philip Hess, is employed, sailed this morning for parts unknown to any but those on board the ship and naval authorities at Washington. She is thought to be bound for Cuban waters.

The Sunday excursions to Rome City are beginning to assume larger proportions, yesterday's numbering ninety-four. As the season advances these excursions will be more liberally patronized. The price of boats has been reduced from $1 to fifty cents a day.

All the lines leading into Indianapolis ran excursions into that city yesterday. Even the Pennsylvania, which announced a few weeks ago that it would run no Sunday excursions, took a hand in swelling the crowds in the Hoosier capital and at Camp Mount yesterday.

Freight traffic on the Nickel Plate is light at present and the trainmen have no trouble in getting a "lay off" when ever desired. Those who are at present enjoying that privilege are Engineer Ed. Wolf and Firemen G. Weisell, John Lalander, Abraham Stoner and W. Kohlbach.

Frank X. Miller, blacksmith, had one of this thumbs badly cut Saturday afternoon while at work in the Pittsburg shops. In placing a bar of iron in the furnace, he struck his hand against the protruding end of another bar with the foregoing result. Dr. George C. Stemen attended the injured man.

There is trouble brewing over the differential question and it is being inaugurated by the Vanderbilts, who were refused favors for the West Shore and Nickel Plate equal to those enjoyed by the Panhandle. Passenger men are inclined to the belief that this difficulty will end in the abolishment of differentials.

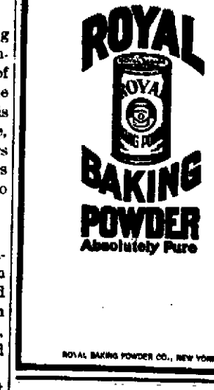
There are three important lodge events at Indianapolis this month for which the railways running to that city will make special low rates. They are the celebration of the fiftieth anniversary of Raper commander, Knights of Templar, May 14; grand lodge of Odd Fellows and Rebekah assembly of the state of Indiana, May 16 to 19, and the grand lodge of the Masons, May 25.

Arthur H. Dougall, a bookkeeper at the electric light offices, has resigned and will go to Hartford City to accept a similar position with the Hartford City Paper company, of which his brother-in-law, Stephen Fleming, is the general manager. Mr. Dougall has been employed at the electric works for several years, and during his term of service there was promoted three times.

A letter from Randolph Breeze, formerly of the Pittsburg shops, states that he is a member of the cruiser Montgomery's crew. He is a machinist by trade, but he is serving in the gunners' department on the war ship. Shortly after he left this city, a year ago, Mr. Breeze entered the government service and was placed on the Newport, where he served all last summer. When the trouble with Spain broke out he was transferred to the Montgomery. His father was a naval officer.

There will be a wedding in the country, four miles south of the city, next Sunday evening, which will interest the employes of the Wabash shops. The groom will be Frank Fruechtenich, of the boiler shop, and the bride Miss Durgens, the daughter of one of the prominent farmers out in that section. The ceremony will be performed by Rev. J. F. Miller. The prospective groom is maintaining the most strict secrecy about his approaching wedding, but the facts leaked out this morning.

Royal makes the food pure, wholesome and delicious.



ROYAL BAKING POWDER CO., NEW YORK.

STILL SOARING.

Wheat Has Its Kite Up and It Keeps Going.

July Touches $1.21 and Closes at $1.20 1-4 —May Leaps to $1.15 and Hangs There— Wild Scenes on the Board.

CHICAGO, May 9.—Wheat today on board of trade touched $1.21 a bushel for July, the active option, and closed within ¾c of the top, at an advance of 13¾c. The market opened mid wild excitement at an advance of 3c to 4c with sales of July all the way from $1.09¼ to $1.10¾. The price advanced to $1.16, fell back to $1.11¾ and rallied again to $1.16 in the first five minutes of trading.

From that time on July advanced steadily till it touched $1.21, just two minutes before the close, which was at $1.20¾. The May option which was neglected closed at the highest point of the session $1.15, a net gain of 8 cents. The pit was in a turmoil throughout the day, fluctuations between trades frequently being a full cent. The sensational advance at Liverpool, equal to 12 cents a bushel in July, was apparently the sole cause of the excitement.

CLOSING PRICES.

CHICAGO, May 9.—Wheat—May, $1.75; July, $1.20¾; Sept., 96½; Dec., 88¾.

Corn—May, 36¾c; July, 36¾@37; Sept., 37½@¾.

Oats—May, 31¾@¾; July, 25⅞@28; Sept., 24¾.

Pork—May, $10.90; July, $11.22.

Lard—May, $5.55; July, $5.92@5.95; Sept., $6.02.

Ribs—May, $5.55; July, $5.60; Sept., $5.67.

Barley—Cash No. 3, 45@52.

Rye—cash, 55; May, 55; July, 71.

Flax—Cash, $1.20; cash N. W., $1.38; May, $1.38; Sept., $1.24½.

Timothy—May, $2.80.

MAYOR'S CABINET.

He Has Not Made Official Announcement,

But Here's the Way It Will Probably Be—Only Two Changes—Berghoff and Shambaugh Again.

Mayor Scherer kept away from everybody today except two prisoners in police court, but THE SENTINEL learns from reliable, but unofficial sources, that his cabinet will be as follows:

City Attorney — W. H. Shambaugh.

Comptroller—H. C. Berghoff.

Board of Public Works—Peter Eggemann, J. K. McCracken and P. H. Kane.

Board of Safety—Charles Buck and L. C. Kasten, certain; J. L. Gruber, a possibility and the mayor's probable choice. He may, however, decide to appoint Abraham Wolf in place of Mr. Gruber.

Board of Health—Drs. Carl Schilling, A. J. Kessler and J. E. Miller.

City Civil Engineer—F. M. Randall.

The only changes from the old board are on the board of safety, Charles McCulloch and George H Wilson retiring.

BOB ACCEPTS.

Will Meet Kid McCoy in the Prize Ring.

He Also Tenders Pompadour Jim an Opportunity to Contest for the Heavy Weight Championship.

BOSTON, May 2.—Bob Fitzsimmons has announced his acceptance of the offer of Kid McCoy to pay the champion $10,000 for a fight at middle weight, and also his acceptance of the offer of James J. Corbett of $25,000 for an opportunity to regain the heavy weight championship. Fitzsimmons will meet either man before the regularly organized club offering the largest purse, but he will insist on a side bet of $10,000 in each case and both matches must take place before the last of September, this year.

This announcement is accompanied with the offer of Julian, Fitzsimmon's manager, and the prize fighter himself, to bet $2,500 that neither McCoy nor Corbett will make good his offer.

CORBETT IS EAGER.

DENVER, Colo., May 9.—After reading the Associated Press dispatch from Boston this afternoon, announcing that Robert Fitzsimmons had accepted his offer of $25,000 for an opportunity to regain the heavyweight championship, James J. Corbett sent the following dispatch to W. A. Brady, his manager, who is in New York city:

"Go after that man (Fitzsimmons) and make my offer to him again—$25,000 that I will stop him in ten rounds—and put up some money. Show him up."

A MEDICAL DISCOVERY.

RHEUMATISM NO LONGER A DREADED DISEASE.

Quickly Cured by Gloria Tonic—The Latest Find in Medicine.

As reports come in of the continued successes of Gloria Tonic in the cure of rheumatism, interest in this wonderful medicine has spread even among physicians who are not particularly favorable to new remedies that cure without the doctor's assistance. A case in point illustrates: John Carston of Belton, Texas, had planned for his wife a trip to Germany, but she was subject to rheumatism and the journey was delayed. She went through the usual experience of home remedies, doctors and so on without success, but finally got around to Gloria Tonic, and after using three boxes of the remedy was entirely cured. She was naturally overjoyed at the prospect of going abroad, and Mr. Carston, in writing to the proprietor of Gloria Tonic stated that his wife had started on her journey. He concludes his letter by saying:

"Kindly send me 5 more boxes of Gloria Tonic for a daughter of a neighbor who is also very seriously afflicted with rheumatism. I have recommended it to her very highly. She has spent a great deal of money with physicians without being helped and would like 5 boxes of this grand cure."

Gloria Tonic is made by John A. Smith, 243 Summerfield Church Building, Milwaukee, Wis., and is sold by all druggists at $1.00 a package.

A book of testimonials and a free trial package of Gloria Tonic is mailed free to those who will send Mr. Smith their name and address.

CANDLE MAKING IN SWEDEN.

Some Are Made From Stearin That Is Obtained From Insects.

W. S. Harwood has an article in St. Nicholas on "A Giant Candle," describing one of the unique features at the Stockholm exposition. Concerning candle making in Sweden, Mr. Harwood writes:

The candles of Sweden are not "dipped" in the old fashioned way, but are made on what might be called scientific principles, after the experience of a good many centuries has told the makers just what materials will produce the best results. They are not "run" in hand held molds, at the risk of burning somebody's fingers or spotting the kitchen floor with splashes of tallow. Tallow in its crude state is, indeed, used in the manufacture of these Swedish candles, but it must pass through a long treatment before it yields up the pure stearin from which the snowy candles are made.

Some of this tallow reaches Sweden after long ship journeyings from South America, while some of the stearin does not come from tallow at all, but from palm oil gathered by the natives of South Africa, and still another supply of stearin is secured in a curious way—from insects shipped from China. The insects, in dying, turn into a wax very rich in stearin.

When the stearin is ready for the mixing, it is nearly pure white in color, a clear liquid that has the hue and consistency of melted white sugar. In the factory the attendants fill their large, wide lipped zinc pitchers with the liquid stearin, step to a long row of candle molds, and pour in the melted stearin. The molds are in sections, 12 candles to a section of the smaller sized candles. The wicks for the candles have first been twisted from threads into the proper size and threaded through the molds by machinery.

As soon as the stearin has cooled around the wicks a keen knife passes under and cuts the ends of the wicks, the candles in the section are lifted out and another set of wicks, all threaded through another set of molds, stands ready for the next pouring. Swiftly breaking the candles apart, the attendant passes them on in a box to another workwoman, who sends them whizzing through a trimming and polishing machine, from which they go to the counting table.

I watched a young woman who was at work one day in a factory in Sweden (and the factory, by the way, was located in the candlestick of the giant candle), counting these candles—a small kind it happened to be that they then were making, perhaps five inches in length. With a deftness which was quite extraordinary she thrust her hands into a pile of candles and unerringly drew forth 24—never more, never less. All day long she stands at this counter and not once in a thousand times, so I was told by the superintendent, would she draw out other than 24. I suppose it had become a matter of intuition, so to speak. She knew exactly how many candles would be included in a grasp of her hands and she practically never made a mistake.

Ancient Gallantry.

The respect and veneration paid to the fair sex formed an essential ingredient in chivalry. This, it is supposed, was derived from the customs of the primitive Germans, whose females are represented to have been very high spirited and to have exercised considerable sway over the other sex. Whatever truth there may be in this statement, certain it is that a high species of gallantry forms the very spirit of modern chivalry, and as a proof of this we have only to refer to the classification of a knight's duty, to fear God and love the ladies, to perceive how necessary female adoration is to the very existence of this order.

This principle of female adoration, so prominently displayed in every aspect of chivalry, extended its influence to the laws of the times, for we find James II of Aragon ordering in this manner: "We will that every man, whether knight or no, who shall be in company with a lady, pass safe and unmolested unless he be guilty of murder."

And Louis II, duke of Bourbon, instituting the order of the Golden Shield, enjoins his knights to honor, above all, the ladies, and not permit any one to slander them, "because," adds he, "from them, after God, comes all the honor that man can acquire."—New York Ledger.

THE STING OF POVERTY.

Or the Unhappy Klondiker and the Baked Beans.

He stood outside the restaurant with sunken cheeks and eyes that glittered feverishly.

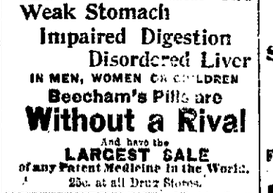
It was night, and to the weary wanderer the brilliantly lighted interior seemed like a glimpse of heaven. Not that that particular restaurant was one which would have held out many temptations to an epicure. As a matter of fact, it was distinctly a third rate establishment. But a starving man is seldom inclined to be fastidious.

To the tattered wretch who shivered outside and gazed longingly through the window the place was all that mortal could desire. But it was almost more than he could bear to see the waiters emerge from the kitchen laden with steaming dishes to set before the fortunate individuals who were seated at the tables. And every time the street door opened there was wafted to him an appetizing odor of cooking which mounted to his head like wine.

For the fiftieth time he drew out a slender pocketbook and carefully examined its contents. For the fiftieth time he replaced it with a heavy sigh. "It's no use," he murmured sadly. "There's only $2 left. Oh, this cursed poverty! Had I but $2 more I could boldly enter and call for a dish of baked beans."

Bursting into tears, the unhappy Klondiker turned away and went forth into the night.—New York Journal.

Been Doing Time.



Mr. Medders—Git out! I won't help you ergin. I don't believe you've done a thing all winter.

Wandering Willie—You wrong me, sir. I've just done 90 days.—Up to Date.

A Ruling.

"I object to that motion," exclaimed Broncho Bob at a meeting of the city council in Crimson Gulch.

"What motion?" inquired Rattlesnake Pete, who was in the chair for the first time.

"The one just made by Teepee Tom."

"Well," was the answer. "I didn't see the motion referred to, but the objection is sustained on general principles. In a gathering where there are so many seven shooters, all in easy reach, gentlemen cannot be too careful about how they make motions."—Washington Star.

Self Help Not Wanted There.

"What's that you're reading so hard, Mr. Cashier?"

"Oh, merely improving myself, sir—it's Smile's 'Self Help!'"

"H'm. You can draw your month's salary and leave at once, Mr. Cashier; we want no one in charge of the cash who has corrupted his mind with such pernicious literature. 'Self Help,' indeed!"—Pick Me Up.

NEWS NOTES.

Miss Katherine Bossler is in Cincinnati.

Mrs. Albrecht, of Kendallville, is visiting her son, Frank Albrecht.

Mrs. Morris Carroll, of Bucyrus, Ohio, is visiting friends in the city.

Born, to Mr. and Mrs. George App, of East Washington street—a son.

Miss Jessie Reitze entertained the B. E. S. club at her home Saturday afternoon.

Milo Meredith, of Wabash, grand commander of the K. O. T. M., is in the city today.

Dr. and Mrs. McCaskey and Master Edward have gone to Rome City for a few days.

Miss Adah Biggins was the hostess for the meeting of the J. U. G. club Saturday.

Mrs. Edward Reinhart, of St. Paul, is the guest of her sister, Mrs. James Harter.

Miss Clia Stubbs, of Richmond, is the guest of her sister, Miss Mary Stubbs, of Westminster seminary.

Rev. George McKay, representing the Chicago Interior, is in Fort Wayne in the interest of his publication.

Oliver Layman returned to his home in South Whitley Saturday, after an extended visit with the Misses Lockhart, of High street.

D. H. Caldwell and daughter, Helen, have gone to Denver to bring home Mrs. Caldwell and Miss Ruth, who have been in that city for several weeks.

The company of young men who have enrolled their names with I. W. Leonard will meet in the hall in the White Bank block this evening for permanent organization.

Edward and Allen Strous Mrs. Rebecca Craig, of Garrett, arrived in the city Saturday, to visit their brother, Joseph Stronse, better known as Joe Acton, the wrestler.

Dr. J. E. Miller returned Saturday evening from a three-months trip south for his health. Most of the time was spent on the farm of the doctor's father, in Ohio, but before returning a visit was made to Nashville. The doctor is much improved and says he never felt better in his life.

The Students' Art league will give their annual spring exhibition of work on May 26 and 27. This exhibition is open to all who wish to enter are work of any kind, such as painting, drawing, wood carving, etc. Miss Agnes Hamilton and Miss Fannie Winch are the committee for application. Miss Bertha Jackson, Miss Abbie Keegan and Miss Kate Chapin are the committee on entertainment.

Carl P. Swain returned home Sunday evening from Baltimore and Washington. Carl was at Old Point Comfort a few days and saw the flying squadron under Captain Schley, now lying at anchor in Hampton roads. He talked with many of the sailors and they are all anxious to fight. One old sailor knew Commodore Dewey and said he was a wonderful fighter, which fact has now been demonstrated. In Washington, Saturday, there was great excitement.

The St. Joseph classes, branch of the Ohio synod of the Reformed church of the United States, will hold its session here this week. The sessions will be held at the Heidelberg and St. John's Reformed churches, and it is expected that about sixty delegates will be in attendance at each meeting. Rev. Maurice Sampson will deliver the opening address of welcome to the city. Among the visitors will be Rev. B. B. Royer, of Goshen; Rev. Nicholson, of Colon, Mich.; Rev. Barbour, president of the classes at Culver, Ind., and Rev. Rohrbaug, of Three Rivers, Mich.

DEWEY.

Naval Hero, Born in Montpelier, Vt.

Son of Julius Y. Dewey, the Founder and First President of the National Life Insurance Company, and Brother of President Charles Dewey.

Charles Dewey, president.
James C. Houghton, vice president.
Joseph A. DeBoer, secretary.
Harry M. Cutler, treasurer.
Osman D. Clark, assistant secretary.
Clarence E. Moulton, assistant treasurer.

NATIONAL LIFE INSURANCE CO.,
MONTPELIER, Vt., May 5, 1898.
C. E. Fitch, General Agent, Fort Wayne, Ind.

DEAR SIR:—Your note of the 2nd inst., received. I take great pleasure in stating that Commodore Dewey was born in the city of Montpelier, the son of the company's first president, Dr. Julius Y. Dewey, and own brother to President Charles Dewey and Director Edward. Since the early fifties, Commodore Dewey has been continuously identified with the naval service of the United States. His own report of the engagement at Manila is not yet received, but it will undoubtedly substantiate what the cable messages tend to prove, a great and overwhelming victory on land and sea, equalling, if it does not surpass at every point, the greatest sea victories of history. It was most unusual as it was most pleasing that this victory by one brother should be announced in concurrence with the celebration by Mr. and Mrs. Charles Dewey of the fiftieth anniversary of their marriage, which occurred on Tuesday evening last. I am sure that the many very pleasant words received from representatives of the company are very gratifying to the president, as the event itself is a source of admiration and unbounded satisfaction to us all.

Yours truly,
JOSEPH A. DEBOER,
Secretary and Actuary.

The National Life Insurance company commenced business in 1850 with Dr. Julius Y. Dewey as president. As early as 1856 the National published in its yearly statement this rule of the company:

No. 9. Should the holder of a life policy after three or more years wish to surrender it, he will receive its equitable value in cash."

In the days of forfeitures and confiscations it required the courage of a Dewey to take the initiative in guaranteeing cash surrender values in life insurance policies.

Money to Loan.

A client of mine has $4,000 to loan on real estate or personal security.

Miss Minnie Smith returned to Chicago yesterday after a visit with her sister, Mrs. Saverood.

Miss Bertha Scott, of the Home Telephone office, has returned from a month's visit at Lima, Ohio.

Mr. and Mrs. Mason Long, who have been guests in Kansas for several weeks, have returned home.

The handsome saddle horse, Russ, which was owned by Sam Fisher for the past two years, has been sold to Maj. W. W. Barnett.

R. G. Thompson is in receipt of a letter informing him that Dr. T. J. Dills will leave Pomona, Cala., for Fort Wayne on May 25th.

Mrs C D. Gorham, accompanied by her granddaughter, Georgiana Bond, arrived in the city from Indianapolis Saturday evening.

Edward L Tenney and family have removed from Toledo to this city and will make this their home. They resided here some years ago.

The Tuesday Social club will be entertained by Mrs. L. O. Hull this week. Mrs. J. R. Swan, of Topeka, Kan., a sister of Mrs. Hull, will be the guest of honor.

Dr. and Mrs. W. W. Shryock left today noon for Springfield, Ill., where they will attend the Illinois Dental convention. They will be away until Saturday.

The board of waterworks trustees will hold their first meeting tonight. A president will be chosen and other business which may come before them will be disposed of.

Seventy-five children and four grown persons of the St. Peter's Catholic church, were confirmed yesterday by Bishop Rademacher, who also dedicated the bell, which was bought by the school children.

The annual meeting of the board of charities will be held in the city council chamber this evening. The annual reports of the officers will be received and the committees will be appointed to serve the ensuing year.

Mrs. Montgomery Hamilton and her mother, Mrs. Pond, and Master Quintus Hamilton, have returned from the east. Miss Madge Hamilton is at Saranac Lake, in the Adirondacks, where she will remain a month.

Howard Cohen, of New York, is registered at the Wayne and called on his Fort Wayne friends yesterday. Mr. Cohen is a member of Grand Rapids lodge of Elks. He was initiated in the B. P. O. E. in Fort Wayne and was transferred.

The following invitations are being distributed: "You are cordially invited by Mrs. Ormsby and pupils, in conjunction with the Westminster seminary, to attend the complimentary shakesperian recital rendered them by Prof. Blanchard, Friday evening, May 13th, at 8 o'clock, at Fort Wayne Club hall."

The Robison park season opened yesterday. Cars were run to the handsome pleasure resort every twelve minutes and more than 300 people availed themselves of the opportunity to enjoy the ride, notwithstanding it was somewhat chilly. A few warm days and cars will be running to the pleasure resort every day.

Dr. W. W. Barnett has purchased Hon. R. C. Bell's handsome riding horse for his own use in the field. He also purchased E. V. Emrick's horse for Adjutant Henry Hagerman. Sam Fisher's horse was purchased by Adjutant H. K. Scott, of Angola. They are the three best saddle horses in Fort Wayne and no doubt will appreciate the chance to help protect the red, white and blue.

Frank Alderman informs THE SENTINEL that some persons to him unknown destroyed young trees and shrubbery in his yard and along the sidewalk. Words of condemnation are not strong enough to denounce the action of vandals who may have done this work to gratify personal spite. The officers should make an investigation and the perpetrators of the vandalism located and punished.

There were two prisoners in police court this morning, one drunk and one vag. The drunk was sent over for eleven days and the vag for fifteen days. The alleged vagrant was a young man dressed in a bicycle suit, who was arrested by Officer Murphy about 1 o'clock Sunday morning. He claims to have attended school at Ann Arbor and says that his home is near there. The police are investigating.

Joe Nix has purchased the Peter Eggemann shoe shop, on East Main street. Mr. Eggemann has been again selected by Mayor Schoner to serve for three years as chairman of his board of public works and he decided to dispose of the business he established more than a quarter of a century ago. Mr. Nix has been in the employ of the retiring proprietor for a number of years and is thoroughly conversant with the business of the shop.

Frank Dutler and Maggie Rush have been licensed to wed.

The board of safety will probably reject all bids for the conduit system the city was to build and readvertise.

The Ladies' auxiliary of the Order of the Eastern Star will meet at the Masonic Temple tomorrow afternoon, at 2:30 o'clock.

Judge Mock is sitting in the superior court today listening to arguments for a new trial in the case of Miller vs. Bottenberg.

Mary Jansen brings suit for divorce and $500 alimony against her husband, Herman Jansen. E. V. Emrick is plaintiff's attorney.

Mr. and Mrs. Charles Lapp, Miss Blanch Coombs, Miss Lizzie Lapp and Frank Cutchall were the guests of Lieut. O. C. Meyers over Sunday.

The ladies of Degree of Honor No. 2 will be entertained Thursday, from 2 to 9 p. m., by Mrs. C. F. Haiber, corner Cass and Wells streets.

Mrs. John Watt, who has been very ill at the hospital for several weeks, has so far recoved that she is now able to be at her home on West Berry street.

The new Columbia locomotive No. 605 of the Wabash will stand in front of the passenger depot tomorrow afternoon from 2 to 4 o'clock. This is to enable the people to see it.

Mr. and Mrs. Alex Muirhead very delightfully entertained friends and relatives at a card party Saturday evening. The home was tastefully decorated with flowers, and a three course supper was served.

The L. B. Root company has filed articles of incorporation at Terre Haute in which the following are included as stockholders, as well as the heirs: Charles McCulloch, M. C. McDougall and S. R. Alden, of Fort Wayne, and Robert O. Miller, Fred J. Griffith and Harry J. Baker, of Terre Haute. The capital stock is $100,000. The company was formed for the purpose of carrying on the business and taking it out of the hands of the executrix. The holdings of the Fort Wayne stockholders are nominal.

MAY MEAN TROUBLE.

Seventh Ward Democrats Will Meet Tonight

And Discuss the False Returns Made Election Day by the Thirty-third Precinct Election Board.

The democrats in the Seventh ward will hold a meeting this evening in Gruber's barber shop, No. 331 Lafayette street, to discuss the false return that was made election night of the vote in the Thirty third precinct. There has been, in years past, so much alleged crooked work in the Seventh ward that the democrats are determined to locate the blame and try to put a stop to it. Some of the residents believe that there should be prosecutions, while others assert that it was purely an accident. There is some talk of a contest by Mr. Suelzer, although the latter gentleman is opposed to it, except in so far as a contest may guarantee a purer ballot in the future.

The voters of the Seventh ward are as reputable as those of any other ward in the city and they will not stand the stigma which is heaped upon them almost every election by a few men. If they are convinced that no person had knowledge of the mistake of twenty-five votes the matter will be dropped, but if there is any indication that members of the board did know the returns were wrong prosecutions will follow.

CHAUNCEY OLCOTT COMING

The Sweet Singer and Superb Actor at the Temple Tuesday Night.

Chauncey Olcott comes to the Temple Tuesday, May 10, to act and sing in Augustus Piton's Irish comedy drama, named after the village on the River Lee in Ireland, "Sweet Inniscara." In 1812 the wealthy young Irishman finds himself tired of London society and on his way to Cork stops at Inniscara and meets an heiress of vast estates who is for the time serving in the place of the tardy schoolmaster. The young man pretends he is the new master and falls in love with the heiress. Her father frowns and they meet secretly. They are discovered and there is a plot to carry off the lover. This partly succeeds, as he is knocked senseless and carried aboard a man-of-war, but just as the young lady's father is trying to persuade her to sign a marriage contract with the swain he favors, the lover escapes and returns. He tells who he is, whereupon the father loses no time in transferring his preference, especially as the man first favored is exposed as an adventurer. Mr. Olcott will sing several new sogs. This play attracted audiences from New Years until Memorial day, or thereabout, in New York last season, which shattered Mr. Olcott's record to smithereens.

WILL BE DISBANDED

Brooklyn's Crack Regiment, the Thirteenth, Has Dishonored Itself.

NEW YORK, May 9.—Brooklyn's former pride in the military line, the Thirteenth regiment, National guard, will, it is said, soon cease to exist, in consequence of the way in which it responded to the order to go into camp in compliance with the president's call for volunteers to fight against Spain. Colonel Watson of the Thirteenth, and many of the men, took the stand that the regimental integrity of the regiment should be guaranteed before they entered the service of the United States. In consequence, when Governor Black designated the Thirteenth along with other regiments to make up New York's quota under the president's call, there was a lame and unsatisfactory response.

Of a total membership of about 900 only 135 of Hempstead Plains are to be come a part of Camp Black. The presence of this remnant has not helped affairs at the camp and today the announcement is made that the Thirteenth boys will be sent home. It is also intimated very distinctly that the regiment will be disbanded by order of Governor Black.

A SUDDEN DEATH.

Mrs. Ira Ruppert Called Home Without Warning.

Arose From Her Bed and Commenced to Dress and Later Was Found Cold in Death—Funerals.

Mrs. Ira Ruppert died suddenly this morning at her home, No 231 West DeWald street. She was in her usual good health last night and this morning got up, and it is supposed, commenced to dress. Her aged husband, who lived alone with her, walked into the room at an early hour and noticed the bed was empty and, although he saw a black skirt lying on the floor between the bed and dresser, did not notice his wife, and went to another room. Presently a neighbor who looked after the affairs of Mr. and Mrs. Ruppert called and stepping into the sitting room saw Mrs. Ruppert lying on the floor in the bed room. He called her daughter, Mrs. Henry Stapleford, and when the daughter went to assist the mother she was horrified to find she was dead. Death probably resulted from cerebral apoplexy. Mrs. Ruppert leaves besides her aged husband two daughters, Mrs. Henry Stapleford, of this city and Mrs. Wallace Dawson, of Los Angeles, Cala. Deceased was sixty-eight years old.

CROWE.

Mrs. John Crowe, aged fifty-two years, died yesterday afternoon at the residence of her sister, Mrs. Al Palmer, 62 West Pontiac street, after a brief illness with pneumonia. The deceased was the wife of the contractor and builder who did an extensive business in this city prior to the world's fair, having a shop at Baker street and Fairfield avenue. In 1892 the family moved to Chicago and were just arranging to again take up a residence in this city, when the death of Mrs. Crowe occurred. The funeral will take place tomorrow morning at 9 o'clock, from St. Patrick's Catholic church.

SOLDIERS WILL MOVE

Indiana Troops Going to Washington and Chickamauga.

Secretary Alger Decides Where the Troops of the Several States Will Concentrate.

The Fort Wayne soldiers now at Indianapolis will soon be ordered to move. THE SENTINEL this afternoon received the following dispatch from the Associated Press:

"In answer to repeated requests from all sections of the country for information as to where the various organizations of state troops, which are being mustered into the United States service are to be sent, Secretary Alger today furnished the Associated Press the following statement, showing the destination of the volunteer troops. The list is subject to correction. It will be noticed that, generally speaking, three points are to receive the greater number of troops.

"It appears that that the animating purpose of the department in making the assignments was to divide the volunteer forces in such a way as to be available for three distinct purposes.

"The first regiments raised in each state mustered in and found ready for service are to be sent to Chickamauga to be 'licked into shape,' and thence sent to Tampa and other gulf ports, including Mobile, New Orleans and Galueston, preparatory to embarking for Cuba.

"The second division of regiments go to Washington, where they are to form a grand reserve, ready to reinforce the Cuban army at any moment to man the cost defenses, or for other purposes.

"The third division is to remain for the present in the state in which the organizations are mustered, subject to call for duty in the Philippines or for general reserve purposes. Possibly they may never be called upon to leave their native states."

Of the Indiana troops one regiment of infantry and one battery of light artillery will be ordered to Washington and two regiments of infantry and one battery of light artillery will be sent to Chickamauga.

The remaining infantry regiment will be assigned to department commanders for coast defense and reserve. The last regiment left in the state may never be ordered from Indiana soil.

As stated in THE SENTINEL'S Indianapolis dispatches the Third regiment, including the two Fort Wayne infantry companies, is one of the two regiments ordered to Chickamauga.

MAD WITH LOVE.

At South Bend Frank Harrington Kills Mrs. Vahlert and Himself.

SOUTH BEND, Ind., May 9.—Frank Harrington today fatally shot Mrs. Vahlert, a widow with whom he boarded, because she refused to marry him. He then blew out his own brains.

There will be a meeting of Home lodge No 342, F. and A. M., tomorrow evening.

NOT SCRIPPS-M'RAE.

The Hustling Press Association Sent No Bulletins to This City Last Night.

To the Editor of the News:

The bulletins which were posted last night at Woolworth's drug store regarding the alleged defeat of Admiral Sampson's fleet were not sent to Fort Wayne by the Scripps McRae league. These reports were current all over America circulated by bulletin associations but were not handled by the Scripps-McRae association which furnishes news to the Fort Wayne Daily News. Neither was the bulletin received or posted by the Postal Telegraph Co. this city.

FIGHT TO THE DEATH

Spain's Orders to the Philippine Commander.

Manila To be Defended to the Last Ditch.

General Agustl to Hold City Against Dewey.

Disorders Continue in Spain and Martial Law is Proclaimed in Other Provinces —Kingdom Needs Leaders.

LONDON, May 9.—It is announced today in a special dispatch from Madrid that the Spanish minister of war and marine, General Correa and Admiral Bermejo, declare they do not expect Manila to be attacked before the arrival of reinforcements for Rear Admiral Dewey from the United States. The dispatch adds that orders have been sent to General Augusti, the governor general of the Philippine Islands to resist to death any attack of Manila.

MADRID, May 9.—NOON.—The disorder in the Spanish provinces is increasing. Riots have now broken out at Cadiz and Alicante and the troubles are expected to spread to parts of the country which have hitherto been quiet. Martial law has been proclaimed in the provinces of Alhacef and Jaen. At Martos, nine miles from Jaen, men women and children have been parading the streets, crying "death to the thieves."

MADRID, May 9.—10:45 A. M.—The political situation here is unchanged. The consultation between the queen regent and Senor Gamaza, the liberal leader, as well as her majesty's conference with Senor Montero Rios, the president of the senate, have been without result. Everybody appears loath to assume the responsibilities of assuming office under the existing condition of affairs.

RIOTS IN SPAIN ARE SPREADING.

MADRID, May 9.—11 A. M.—There was serious rioting at Linares, twenty-three miles from Jaen, yesterday. The mob assembled in front of the town hall and finding the doors locked, tore out the windows, swarmed into the building and threw everything movable into the streets. The civil guards intervened and a desperate struggle followed in the passages of the building.

The rioters were finally driven out by the civil guards, who frequently fired into the mob. Some of the rioters procured guns and returned the fire.

Fourteen persons are said to have been killed and about sixty wounded.

The local forces are not considered strong enough to cope with the disturbance and reinforcements of troops have been asked for.

12:30 P. M.—Later the mob made another attack on the town hall and drove out the civil guards. The rioters were well supplied with ammunition and kept up a galling fire, while shouts of "down with the taxes" were raised on all sides. After forcing an entrance into the town hall, the rioters pillaged the building, subsequently carrying the residence of the tax collector by assault.

They demolished everything in sight, stole 2,100 pesetas and a box of jewels and attempted to set fire to the house. Serious disorders have occurred at Bronea, near Seville, at which place the village priest had been stoned to death.

MADRID, May 9.—2:00 P. M.—It is announced here this afternoon that the cabinet ministers have placed their portfolios in the hands of Senor Sagasta, the premier, with the view of a probable reconstruction of the ministry.

BURNED TO DEATH.

Mrs. Hubell and Two Children Lose Their Lives in a Fire.

SENECA FALLS, N. Y.—May 9.—Mrs. Fred Hubell and two children were suffocated by a fire that occurred at their home here today. Mr. Hubell occupied an up-stairs room with three children, while Mrs. Hubell with the two children slept down stairs. Hubell was awakened about 4 o'clock this morning by smoke and succeeded in saving the three children who slept with him, but was unable to save the others. The origin of the fire is not known.

WANT INTERVENTION.

An Appeal Made to the United States by Irishmen.

DUBLIN, May 9.—There was a demonstration near West Port, county Mayo, yesterday, to protest against "the indifference of our brutal English rulers towards starvation in Ireland."

It was resolved to start a national appeal to the president and congress of the United States, pointing out the condition of the population "insulted and coerced by insolent foreign masters," and praying for the intervention of the government of the great republic "to obtain self-government for Ireland and a cessation of the famine and overtaxation.

ORDERED SOUTH.

Two Indiana Regiments Ill Go to Chickamauga.

Second and Third Likely To be the Chosen Ones—Battery E Will Follow in a Few Days.

INDIANAPOLIS, May 9.—Yesterday Governor Mount received the following telegram from Secretary of War Alger:

"It is the intention to order to Camp George H. Thomas, Chickamauga National Park, Ga., the first two regiments of infantry of your state, which shall be first completely equipped. Every effort should be exerted to complete as fast as possible each regiment in turn, rather than all simultaneously. Report by telegraph when first regiment will be ready, also any subsequent changes in dates as to when regiment will be ready. It is the intention also to send one battery of light artillery to Camp Thomas."

The telegram was at once referred by Military Secretary Wilson to Captain May at Camp Mount, with instructions to be governed accordingly. Captain May, in speaking of the effect that the telegram would have on his work, stated that as yet no one regiment had been examined entirely and that its effect would be to stimulate all the regiments to become the first to get their men in shape for examination.

As soon as this work is completed, which will probably be this noon, Captain May will call the regiments out before him, and, taking each company, he will read over the names on the roll, each man stepping out from the ranks as his name is called. This is done in order to provide against duplications and to know that each man whose name appears on the rolls is actually present. He will then reach the mustering oath collectively, after which they will be a part of the United States Volunteer army. Before the sun sets tonight the Indiana National guard will be a thing of the past, and in its place will be four regiments of United States volunteers.

SECOND AND THIRD WILL GO SOUTH.

It is definitely known now that the Second and Third regiments, with battery A, have been selected to go. It is expected that the equipment for these troops will be here today and that an obstacle will intervene in the way of the men leaving Indianapolis tomorrow. Captain May, in speaking of the matter, stated that it was probable that before that time he would receive instructions to send the rest of the regiments to the same place if mustered and equipped by that time.

With regard to the other two regiments and Battery E, of Fort Wayne, neither Captain May nor any one else can say authoritatively what their destination is Chickamauga Park, and the fact that the first move made by the Indiana troops is in the nature of a division of forces presents an ominous feature of the chances of General McKee to lead the brigade as a federal organization. In fact, hope had about died in the breast of every one about headquarters, and, while expressing general regret at not being allowed to serve under him, they are more or less reconciled to the inevitable. General McKee presented his usual unruffled countenance yesterday, and if any one hoped to read his own private conclusions as to his chances for appointment in his face they were most signally disappointed. His air of reserved courtesy was the same as usual, and he attended to the details of his work with the same circumspection as has been characteristic with him.

ANNUAL MEETING.

Methodist Pastors and Stewards of Fort Wayne District to Assemble.

The annual meeting of the Methodist pastors and stewards of Fort Wayne district, will be held in the Simpson M. E. church tomorrow. All the other M. E. churches and the public are invited to attend these services. The program is as follows:

TUESDAY.

2:00 P. M.—Devotional by Rev. J. M. Bulnes.

2:30 P. M.—"Our Local Church Work." Discussion opened by Rev. F. M. Kemper.

3:30 P. M.—"Our Connectional Interests." Discussion opened by Rev. W. H. Daniel.

7:30 P. M.—Devotional by Rev. C. E. Davis. Sermon by Rev. W. D. Parr, D. D. Pentecostal services by Rev. T. M. Guild.

WEDNESDAY.

8:30 A. M.—Devotional by Rev. N. P. Barton.

9:00 A. M.—The apportionment of benevolences, by pastors and stewards.

10:00 A. M.—The stewards will fix and apportion the claim of the presiding elder, and apportion the claims of the bishops and conference claimants.

HONORS FOR DEWEY.

Congress Adopts Resolutions of Thanks.

Gratitude of the People Tendered the Hero.

President Recommends It in a Message.

Congress Passed a Bill Creating One More Rear Admiral and Dewey Will Be the Man To Get a Sword.

WASHINGTON, May 9. — Honors were showered thick today upon Commodore George Dewey and the heroes of his fleet at Manila.

President McKinley today sent a message to congress recommending that resolutions tendering the thanks and gratitude of the government and the people of the United States be passed by congress.

In both branches the resolutions were adopted without delay and a bill was passed by house and senate creating another rear admiral, to which rank Dewey will be raised.

In the senate a resolution was introduced and passed authorizing the president to present a sword to Dewey and medals to the officers and men who were under him at the battle at Manila. Ten thousands dollars is appropriated for the purpose.

PRESIDENT'S MESSAGE.

Following is the message sent to congress today by President McKinley:

To the Congress of the United States:

"On the 24th of April I directed the secretary of the navy to telegraph orders to Commodore George Dewey, of the United States navy, commanding the Asiatic squadron, then lying in port at Hong Kong, to proceed forthwith to the Philippine Islands, there to commence operations and engage the assembled Spanish fleet.

"Promptly obeying that order the United States squadron, consisting of the flagship Olympia, Baltimore, Raleigh, Boston, Concord and Petrel, with the revenue cutter McCulloch as an auxiliary dispatch boat, entered the harbor of Manila at daybreak on the 1st of May and immediately engaged the entire Spanish fleet of eleven ships, which were under the protection of the fire of the land forts.

"After a stubborn fight, in which the enemy suffered great loss, those vessels were destroyed or completely disabled and the water battery at Cavite silenced.

"Of our brave officers and men not one was lost and only eight injured, and those slightly. All of our ships escaped any serious damage.

"By the 4th of May Commodore Dewey had taken possession of the naval station at Cavite, destroying the fortifications there and at the entrance of the bay and paroling their garrisons. The waters of the bay are under his complete control. He has established hospitals within the American lines where 250 of the Spanish sick and wounded are assisted and protected.

"The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare. Outweighing any material advantage is the moral effect of this initial success. At this unsurpassed achievement the great heart of our nation throbs, not with boasting or with greed of conquest, but with deep gratitude that this triumph has come in a just cause and that by the grace of God an effective step has thus been taken toward the attainment of the wished for peace.

"To those whose skill, courage and devotion have won the fight, to the gallant commander and the brave officers and men who aided him, our country owes an incalculable debt.

"Feeling as our people feel and speaking in their name, I at once sent a message to Commodore Dewey, thanking him and his officers and men for their splendant achievement and overwhelming victory, and informing him that I had appointed him acting rear admiral.

"I now recommend that following our national precedents and expressing the fervent gratitude of every patriotic heart, the thanks of congress be given acting Rear Admiral George Dewey, of the United States navy, for highly distinguished conduct in conflict with the enemy, and to the officers and men under his command for their gallantry in the destruction of the enemy's fortifications in the bay of Manila. WILLIAM MCKINLEY.

"Executive Mansion, May 9, 1898."

Senator Hale and Representative Boutelle, chairman respectively of the senate and house committees on naval affairs, were called to the white house during the cabinet session this morning, to consider the resolution of thanks recommended in the president's message. They spent but a few minutes, and the chairmen subsequently met at the capitol and decided upon the form of legislation for making Commodore Dewey a rear admiral, to be introduced simultaneously.

In the senate Mr. Hale presented the resolution of thanks to Commodore Dewey and a bill permitting him to be made a rear admiral. At the same time Mr. Boutelle presented the resolutions and a similar bill in the house.

THE RESOLUTIONS.

Following are the resolutions presented and passed:

"Joint resolutions tendering the thanks of congress to Commodore George Dewey, U. S. N., and to the officers and men of the squadron under his command:

"Resolved, By the senate and house of representatives of the United States of America, in congress assembled, that in pursuance of the recommendation of the president, made in accordance with the provisions of 1508 of the revised statutes, the thanks of congress and of the American people are hereby tendered to Commodore George Dewey, U. S. N., commander-in-chief of the Asiatic Squadron, for highly distinguished conduct in conflict with the enemy as displayed by him in the destruction of the Spanish fleet and batteries in the harbor of Manila, Philippine Island, May 1, 1898.

"Section 2. That the thanks of congress and of the American people are hereby extended through Commodore Dewey to the officers and men under his command, for the gallantry and skill exhibited by them on that occasion.

"Section 3. Be it further resolved, that the president of the United States be requested to cause this resolution to be communicated to Commodore Dewey and through him to the officers and men under his command."

The resolutions were passed by the senate as soon as read, and at 10:20 they were passed in the house by a rising vote.

BILL PROMOTING DEWEY.

The following is the bill passed by congress raising the number of admirals from six to seven to provide for Commodore Dewey's promotion:

"Section 1. That the number of rear admirals in the United States navy now allowed by law be and is hereby increased from six to seven, and this act shall be construed and taken as validating and making in force and effect any promotion to said rank of rear admiral in the United States navy made heretofore or hereafter and during the existing war and based on the thanks of congress."

Senator Lodge presented and the senate passed a resolution authorizing the president to present a sword to Dewey and medals to officers and men under him who were in the battle at Manila. It appropriates $10,000 for the purpose.

SUNDAY RIOTS.

Three Hundred Persons Slain in Milan.

One Thousand Were Injured—Troops Replied to a Charge Upon the Maddened People.

LUGANO, Switzerland, May 8.—Sunday was a terrible day at Milan. About 1 o'clock in the afternoon a veritable battle occurred in the Via Santatrice. Thousands of tiles and chimneys were hurled from the roofs upon the troops, who were compelled to retire. A similar fight took place in the Via Torino, and it is believed that no fewer than 300 were killed and 1,000 injured.

A Swiss merchant who has arrived here from Milan describes the events of Sunday as completely anarchistical. According to his account the leaders of the agitation evidently had well arranged plans. Columns of rioters emerged from all the gates of the town and converged on a center, where they rapidly constructed barricades.

When they were dislodged by the troops they mounted to the roofs and rained tiles and chimneys down upon the soldiers.

The gates of the town were held by troops in the evening and throughout the night, so that workmen employed outside were unable to return to their homes. In this way the rising was deprived of additional help from without. During the night the city was in almost complete darkness and funeral silence. Artillery, cavalry and infantry have marched on the Piazza del Duomo, where re-enforcements were constantly arriving.

Late news last evening from Milan said the Secolo had been seized and its editor arrested. The Postal telegraph offices have been closed and all dispatches of mails stopped. The public buildings are guarded.

Many fugitives from Milan have crossed the frontier into the canton of Ticino and to Fontana, among them being the editor of the Italia Del Popolo, the incriminated republican paper, who eluded the police. Eight thousand troops are quartered in the city.

The night passed without any further serious rioting, though the city was in partial darkness, owing to the destruction of the electric lighting wires. A proclamation has been issued calling upon the people to remain tranquil. Re-enforcements of troops continue to arrive here. They will guard the outskirts of the city.

Mr. and Mrs. S. L. Lesynsky, of San Francisco, are guests of friends in the city. Mr. Lesynsky is the western representative of the Foster Shirt Waist factory and this is his first trip to this city.

WILL PUSH THE WAR

Aggressive Measures To be the Program.

Cabinet Decides on a Vigorous Campaign.

The Fighting Will be Forced From Now On.

Troops Will be Hurried to Dewey—Hawaii Will be Attached from Rear by United States Troops and Insurgents.

WASHINGTON, May 9.—At today's special cabinet meeting the leading subjects of discussion were the measures to be taken to reinforce Admiral Dewey at Manila and the probable movement on Cuba. As to the former there has been no material change to the plans. Approximately 5,000 troops will be dispatched on the City of Pekin and other transports. The Charleston will act as convoy.

The McCulloch has not left Mirs bay, outside Hong Kong harbor, where she is waiting further instructions to Admiral Dewey, which will be sent probably today or tomorrow. In his cablegram received here Saturday the admiral made no request for troops, not knowing the governor's intention in regard to the occupation of the islands. It seems quite certain, however, that the government intends to make an active campaign against the Spanish forces there and Admiral Dewey will be so informed.

It is not probable that the squadron will bombard the city or engage in an active work against the fortifications there except such as the admiral may find necessary in order to retain control of points now in his possession.

On the arrival of the troops, which will be immediately concentrated from the Pacific coast states, it is expected that a landing be made at once and operations begun to capture the city and reduce the remaining fortifications. In addition to the five or six thousand troops the transports also will take out a considerable cargo of supplies, including ammunition.

The president and the members of his cabinet are now expecting important news from Admiral Sampson's fleet which was dispatched against Porto Rico. It is believed that his victory there will be so complete that of Admiral Dewey at Manila although it is hardly to be expected that the consequences to his fleet will be as unimportant.

No alarm is felt as to the whereabouts of the Spanish fleet and it certainly is not expected that Admiral Sampson will encounter them at Porto Rico.

As to the plans of campaign in Cuba it is understood that there has been no material change from those announced some time ago. At the proper time it is expected that a landing of a considerable force with provisions and munitions for the insurgents will be effected at some easily accessible point and that an active campaign will then begin from the rear as well as from the fleets in front of Havana and other important seaports.

TRANSPORTS AND TROOPS WAITING.

SAN FRANCISCO, Cal., May 9.—Within this week 5,000 men will be quartered at the Presidio in this city awaiting transportation to Manila. Every day troops from Oregon, Washington, Utah and Idaho will be pouring in and the work of mustering in the militia will continue. The state and federal authorities here are working night and day to have all in readiness when the transports are alongside the wharves for their freight. Gen. B. G. Merriam is expected here hourly from Vancouver. Word came from Washington late last night that all branches of the service would be represented in the first shipment of troops to the Philippines and that California had earned the warm commendation of the secretary of war for its admirable celerity in mustering in its quota and for the character of those that composes it. No effort is being spared to get into the ranks of the army and navy every company in California.

Adjutant General Barrett has sent to General Greely, chief of the signal corps at Washington, information that 100 men of California's signal corps stand fully equipped and well qualified to go to the front immediately. The naval militia is extremely anxious to be assigned to duty.

The vessels in port or expected here during the next forty eight hours that could be used as transports for men, horses, munitions of war and coal, are the Australia, Mariposa, Ohio, City of Pueblo, Leelanaw, City of Pekin, City of Sydney, Progresso, Washtenaw and Willamette.

Of these, the Ohio and Leelanaw were brought out here from the east for the St. Nichols trade and it will not take long to fit them out to carry a large number of troops.

The Progresso carries 3,000 tons, the Washtenaw 4,000 tons and the Willamette 2,400 tons of coal. They are now on their way here heavily laden.

The big Australian colliers Barunah and Tida are now on their way here from Nanaimo, B. C., with about 10,000 tons of coal between them, so they would fill up the American steamer Progresso, Washtenaw and Willamette in short order.

The military carnival the Presidio is visited daily by thousands of citizens and the patriotic spirit of the people is shown by flags flying throughout the city.

ALMOST TRAPPED.

Vicksburg and Morrill Barely Escape Destruction.

Tricked by a Spanish Navy Schooner, the Warships Get In Range of the Havana Batteries.

KEY WEST, May 9.—Only the poor marksmanship of the Spanish gunners saved the Vicksburg and cutter Morrill from destruction off Havana Saturday morning. For over half an hour they were under the fire of the guns of the Santa Clara water batteries, but both escaped without material injury, although sharpened shells flew from eight inch guns and exploded all about them, and both now show pitted scars of the Spanish bullets. A small schooner was sent out from Havana harbor before daylight yesterday to draw the Americans into an ambuscade. She was not discovered until three miles off shore. The Morrill and Vicksburg were about six miles from the schooner when the chase began. They steamed after her at full speed, the Morrill leading until within a mile and a half of the Santa Clara batteries.

An eight inch Shrapnel passed over the Morrill between the pilot house and smokestack, and exploded less than fifty feet on the port quarter. Two more shots followed in quick succession. One burst close under the starboard quarter and the other, like the first, passed over and exploded just beyond. The Spanish gunners had the range and their time fuses were accurately set. Both boats withdrew rapidly. A solid eight inch shot grazed the Morrill's starboard quarter. All guns of the water battery were now at work. One of them cut the Jacob's ladder of the Vicksburg adrift and another carried away a portion of the rigging.

As the Morrill and Vicksburg steamed away their aft guns were used, but only a few shots were fired.

The Spaniards continued to fire shot and shell for twenty minutes. Their shots were ineffective. As soon as the ships steered off after the first fire, the Spanish gunners lost the range and their practice became ludicrous. Later in the day the Morrill captured the Spanish schooner Espana, bound for Havana, and towed the prize to Key West.

IT WAS A FAKE.

A Sensational Bulletin Causes Much Excitement.

Rumor That the Cincinnati Was Completely Destroyed the Work of an Imaginative Brain.

In years there has not been the intense excitement here caused by the posting of a bulletin last evening at the corner of Calhoun and Berry streets that Sampson had been defeated and the cruiser Cincinnati completely destroyed by the Spanish boats. The rumor spread like wild fire and in, less than an hour the telegraph and newspaper offices were besieged with hundreds of visitors and telephone calls came in by the scores. On the Cincinnati is Ensign Freeman, of this city, and his relatives and friends were sorrowful. The alleged terrible defeat was announced in some of the local churches. At 7:30 inquiry at the Chicago office of the Associated Press brought the answer that there had been no battle and the Cincinnati was safely harbored at Key West.

JOHN RYAN'S NERVE.

Not many young men who desire to enter the army to defend "Old Glory" will display the nerve exhibited by John B. Ryan, of this city. He joined Company B so that he would be in the front at the beginning. When he was examined Dr. W. W. Barnett found that the cords were so affected in one of his legs that he could not be accepted. John asked if an operation would help and when told that it would he went to an Indianapolis hospital, the operation was performed and now he is improving so rapidly that within a few days the young man will be able to take his place alongside the other patriots.

MUST BE PERFECT PHYSICALLY.

As there are many young patriots who desire to enlist in the army as volunteer soldiers, it is well for them to known that the secretary of war has instructed all United States mustering officers to refuse all persons under 18 years of age, and also all who have any physical defect, and especially all those whose eyesight is at all impaired or imperfect. Perfect vision is one of the many essentials of a soldier, as his own life and that of the army might depend on his being able to correctly distinguish signals and persons. The government will only accept, as volunteers, men nearly physically perfect. It is useless for others to try to get into the army.

SAMPSON THE NEXT.

The Country Now Waiting to Hear From Him.

News of a Battle Expected in a Day or Two.

Spanish Cruiser Puts in at Port St. Thomas.

The Battleship Oregon Reached Bahia, Brazil, This Morning—Her Movements are Secret—Naval News.

WASHINGTON, May 9.—Nothing has been learned here today of the whereabouts of Admiral Sampson's fleet. No news respecting it has been given out from the navy department. It is expected that he will have met and engaged the Spanish fleet by tomorrow night.

ST. THOMAS, West Indies, May 9. —The Spanish cruiser Isabel II, arrived from Vessel of 1,150 tons displacement and carrying a crew of about 130 men, arrived here at 8 o'clock this morning. Her commander communicated with the Spanish consul at this port and the cruiser cleared immediately, destination unknown. No news has been received here of any engagement yesterday.

LISBON, May 9.—The newspapers of this city say that a Spanish fleet, consisting of nine vessels, passed Cape Espichel, twenty-one miles south by west of this port at about 1:30 o'clock yesterday afternoon. The fleet was steering a southerly course.

BAHIA, Brazil, May 9.—The United States battleship Oregon arrived here at 9:10 this morning. It is said she is now acting under secret instructions from Washington.

NEW YORK, May 9.—The Commercial cable company announces that it is advised that telegrams for Spain written in code or cipher can only be accepted at senders' risk.

NASSAU, N. P., May 9.—First Lieutenant Andrew S. Rowan, of the Nineteenth infantry, the agent of the United States war department, who has been on a visit to Cuba, arrived here today, after accomplishing his mission. He has seen the Cuban leaders and, incidentally, he saw Rear Admiral Sampson's fleet steering in an easterly direction. Lieutenant Rowan left Cuba May 1 in an open boat.

NEW ORLEANS JOINS FLYING SQUADRON.

ON BOARD THE FLAGSHIP BROOKLYN, OFF FORT MONROE, Va., May 9.—Commodore Schley and his staff watched with great interest this morning from the bridge of the flagship the arrival of the new cruiser New Orleans. She came up Hampton Roads at a pretty lively gait and about 10 o'clock anchored about three miles distant from the squadron.

The New Orleans is in command of Captain Folger, and when she dropped anchor there and saluted the commodore's flag became one of the flying squadron.

Commodore Schley and officers of the fleet expressed admiration at the general appearance of the new cruiser. She is evidently a better fighter than the defeated Columbia although not quite so fast.

Commodore Schley decided not to have her go up to Newport News for either coal or painting and she will remain at anchor here getting her coal from lighters. The Minneapolis will come down this afternoon fully coaled and the squadron will then consist of three cruisers, two battleships and a converted yacht.

The formidable dynamite cruiser, the Vesuvius, got away finally this morning from Key West, accompanied by the Suwanee. Both boats will join the blockading squadron in the vicinity of Cuba.

INSURGENTS EAGER TO FIGHT WITH UNCLE SAM.

NEW YORK, May 9.—The Evening Post's Key West correspondent today says:

An artist who has just arrived from Gomez's camp says that there are 18,000 Cubans in the neighborhood of Santi Spiritus, but they are short of arms and ammunition. They also have difficulty in obtaining sufficient food, but are full of enthusiasm and desire to co-operate with our army. The condition of the reconcentrados is described as pitiable in the extreme.

TO ICY DEATH.

Ice Gives Way Beneath Party of Klondikers.

A Score of Men Precipitated to Certain and Awful Death—Some of the Victims Are Identified.

SAN FRANCISCO, May 9.—A special to the Examiner from Victoria, B. C., says:

On Monday last the ice covering a delta near Crater Lake, gave way under the passing throng of Klondikers, and more than a score of men were precipitated into the water and carried to certain death beneath the river's frozen coating. Dr. J. F. Frizelle, of Los Angeles, who came down in the Alki, who brings the news, passed the scene only a few hours after the calamity occurred. It was on the other side of the summit between Linderman and Long lake, at a point in the canyon some twenty-four miles above Stone House, where an ice slide over a mountain stream has been utilized as a path for sleds by the fortune seeker. A number of men were advancing in an unbroken rank, each hauling a heavy laden sled, when there was a sudden crash.

The ice opened for thirty feet or more and in an instant twenty-two men with their supplies were whirled down and under the smooth surface of the stream to drown without even the chance of battling for life. The names of the victims of the ice Dr. Frizelle says he cannot give. There is no possibility of identifying them now, he says, nor can the names be announced with positiveness until the bodies are delivered by the stream at the lake or the disappearance of the ice.

Four Montana and two California men are thought to have been among the victims, while the others included an eastern party of seven, almost all being remembered only by the nicknames which western freedom had given them.

MAINE MEMORIAL.

Heroes of the Battleship Honored by Children.

Rev. Sherman Powell Preaches a Brilliant Discourse—Hopeful Talks of the War.

Maine memorial services were held in several of the M. E. churches of Fort Wayne last evening. Sermons especially appropriate to the occasion were preached and the services were attended by unusually large audiences. Music appropriate and thrilling was arranged, and the throngs of people were brought to a high pitch of patriotic fervor.

TRINITY M. E. CHURCH.

At Trinity M. E. church every available inch of room was occupied, and the crowd overflowed to the outside, and strained its ears to catch some fragment of the discourse.

The music was stirring and well rendered. The address of Rev. Sherman Powell, the pastor, aroused great enthusiasm, and evoked several demonstrations of high feeling. Rev. Powell discussed the Spanish character with special reference to Spain and its national aspect.

"Honor without character is an ephemeral pretension," he said. "The only 'honor' Spain has to defend is the honor of being the most intolerant, the most brutal and the most tyrannical nation in Christendom."

WAYNE STREET M. E. CHURCH.

Memorial services at Wayne street M. E. church were attended by a great audience and the sermon by Rev. W. D. Parr was strong and appropriate. He referred to the destruction of the Maine, as the darkest incident of its kind in all history. He did not hold the Spanish government directly responsible, but Spanish influence was responsible. Rev. Parr said that now the war was on it was the duty of all citizens to support the administration. "We do not want one inch of land," he said. "We do want justice and fair play, and now that war is on we mean to have it, you will see. What a spectacle! The young republic literally getting a thrashing on mercy's account. It is America's honor to give the new and broader definition to the doctrine of brotherhood. By devotion to duty the heroes of the noble Maine have built their own monument. The tooth of time cannot destroy it. A grateful people will never forget."

The annual election of officers of the Morning Musical, was held at the Fort Wayne club Saturday morning, with the following result: Mrs. W. H. Myers was re-elected as president; Mrs. S. O. Lumbard, vice president; Mrs. C. E. Barsley, second vice president; Mrs. Will Crighton, third vice president; Miss Edith Yarnelle, recording secretary; Miss Helen Snyder, corresponding secretary; Mrs. Minnie Brown, treasurer; Miss Stella Swearingen, librarian.

Justice Bollerman this morning united in marriage in his office Robert Talmage and Ida Weiss.

C. J. Welker,

WHEN Uncle Sam gets Cuba "pacified" perhaps he will find time to pacify Spain.

PAUL JONES was more fortunate than Dewey. His name was no encouragement to the funny men.

SOME legal measures are in order to protect the three glorious names of Dewey from the blasphemies of the irrepressible punster.

THE Spaniards have abandoned Manila. What Dewey now needs is troops and the Philippines will be under the stars and stripes.

THE real war is raging among about a dozen of the leading American newspapers, each one of which solemnly claims to have scored a great "beat," the most "remarkable journalistic achievement of the century." In first publishing the news that Dewey had been heard from and giving details of the great engagement at Manila.

CUBA should soon be rid of Spaniards. Havana waits to be taken. As soon as Sampson finishes his work with the Spanish fleet and reduces Porto Rico the only remaining detail will be the conquest of Spain in Cuba. And that will be as easy as any job yet undertaken. The soldiers of the new republic will help the affair along with vast celerity.

FROM Washington comes the welcome announcement that henceforth the war against Spain is to be pushed with all vigor. That is the thing to do. Strike the enemy and give him no rest. To strike and keep striking was the offensive policy of Napoleon. Grant made it his rule of war to hurl himself upon his enemy whenever and wherever he found him. It is good news that the United States intends to force the fighting. That will mean a speedy end to the war.

THE disparagement of our navy has been so persistent for years that the people have witnessed with a thrill of delight the developments of the last month. Though the United States navy is far from commensurate with the position we hold among nations, great progress has been made in the last few years in naval construction. Congressman Boutelle, chairman of the house committee on naval affairs, says that fifteen years ago there was not a modern gun afloat in the navy of the United States. Since that time $285,000,000 has been appropriated for naval expenses, the tonnage has been increased 268,000 tons, 5,500 men have been added to the enlisted force, 114 vessels have been built, sixty-three torpedo boats and destroyers have been authorized, and a navy has been made that is capable of throwing at one discharge of its guns 122,260 pounds of metal.

IT is not at all likely that in the event of the invasion of Cuba the American troops will suffer from disease in any such proportion as the Spanish forces have experienced. Medical skill is already at work on precautionary measures. Maps pointing out the fever tracts have been made and will be used in planning campaigns. United States soldiers will be better cared for than the Spanish, and will care better for themselves. Medical attendance will be the best, and the sanitary regulations will be faithfully enforced. There is no doubt of the dangers to health of the low-lying districts of Cuba, but it is a question if the menace is greater than in some parts of our own southern coast. The Americans who have fought with the Cuban insurgents in the highlands do not seem to have suffered severely from disease, and it must be remembered that insufficient and improper food has had much to do with the military distress in Cuba.

A Southern Tribute to Grant.

The first and firmest friend found by the defeated south was U. S. Grant.

The great soldier's efforts to restore entire peace and brotherhood began at Appomattox, when he accepted the surrender of Lee's army upon terms more magnanimous than victor had ever before extended to foeman. Grant made peace between north and south possible, and from the day the confederate army stacked its arms under the stars and stripes to that mournful day when the final summons came to him on Mt. McGregor, Grant hoped and prayed and strove for peace—everlasting brotherly peace. At the Grant birthday dinner in New York, the other day, Henry Watterson, the brilliant editor of the Louisville Courier-Journal and an officer in 1864 on the staff of the confederate general, Joe Johnston; called Grant "our great captain." In his address on the "Reunited Sections" Colonel Watterson referred to the present union of the once hostile sections as a sight that would have gladdened Grant's heart. Said the speaker:

"If the illustrious soldier whose memory we celebrate were with us here tonight, his heart would glow with satisfied pride in the answer which time has made to his prayer for peace between the once warring sections of the union and in the spectacle which the present unfolds of a whole people rallying as a single man under the stars and stripes.

"I cannot help thinking that, when the history of our generation comes finally to be made up, it will be related that two mistakes of the first order were perpetrated by the people of the United States the latter half of the nineteenth century. It was a mistake of the south, for any cause whatever, to precipitate a war of sections, and it was a mistake of the north, after the overthrow of the confederacy, to undertake a reconstruction of the union by force of arms. That the country has survived errors of such magnitude is proof of amazing vitality; of a vitality that draws its sustenance from the adaptability and the flexibility of free institutions and from a popular character equal to all emergencies. Man proposes and God disposes, and often we build wiser than we know. Perhaps the very mischances of these forty years of domestic controversy were needful to make us the nation we are today.

"It was General Grant himself who issued the order finally withdrawing the troops from the southern states, and, when we remember that it was none other than Grant who stood between the confederate soldier and a surrender, that might have been dishonoring to American manhood, the debt we owe our great captain becomes incalculable."

When the south begins, as it has, to look back to Grant as "our great captain," it is time to realize that the wounds of the war have not only healed, but the scars have disappeared.

RUSH WAR ORDERS.

Cleveland Concern Filling Big Contract for Ponchos to be Used in Cuba.

CLEVELAND, May 9.—The Cleveland rubber works has just received a rush order from the United States government to furnish 15,000 ponchos for the volunteer army. The ponchos are light rubber blankets 72x60 inches, and are adapted to three uses. They can be used as blankets, as capes, or four of them may be lased together and made into a tent. It is the intention of the government to furnish all the volunteers with these blankets as they will be especially serviceable in Cuba during the rainy season.

Another order for 50,000 ponchos will probably be given the company within a few days.

Messrs. Warner and Swasey today shipped the various coast forts the first installment of new telescopic sights they have been making for the big guns.

Lieutenant Mongomery, of the United States army, inspected the new instruments and has pronounced them all right. The contract for these telescopic sights is the first given to an American firm, they having heretofore all been made in England.

Veterans of the late war are talking of arranging a public demonstration in honor of Admiral Dewey's great victory in the Philippines. Members of the G. A. R. and Union Veteran Legion are in favor of such a celebration, believing that such an event in American history deserves to be commemorated. Some of those gentlemen will probably call upon the city officials, and will also call on the business men, to work up a sentiment in favor of a public gathering.

WON ONE APIECE.

New Castle and Fort Wayne Split Even Yesterday.

The Fort Wayne Could Not Solve Clarence Smith's Three-Inspired Curves—Game Was Well—Notes.

There were more than 1,500 people at Lakeside park yesterday afternoon to see the double-header between the Fort Wayne and New Castle base ball clubs. Both games were interesting and each team was credited with a victory.

Clarence Smith, the young gentleman whose fingers are rather scarce on his pitching hand, was in the box for the Yanigans and the local batters could not solve his deceptive curves. Try as they would, only three times were Fort Wayne's hard sluggers able to hit the sphere safely and as y "crank" knows that a game cannot be won on three hits. Minnehan pitched a nice game, too, and but for a wild throw by Fitch the score would have been 2 to 1.

Unese started to do the twirling for the visitors in the second game, he having pitched the eleven inning, two to one, game last Friday. Yesterday, however, he was very wild and in four innings hit two men and gave four bases on balls. When he did get the ball over the plate the Fort Wayne sluggers generally lined it out for a safe hit. After seven runs were scored Woodside was sent to the pitcher's box by Manager Lytle and although he was hit as hard as Unese he had better control and kept the hits scattered, the result being that in five innings only one run was scored off him. Reiman pitched for Fort Wayne and was hit harder than Minnehan, but the hits were not bunched enough to score many runs. Scores:

Stolen bases—Kihm, Hilbert, Abbottsbeck. Sacrifice hits—Sharp. Two base hits—O'Meara, Campbell, Hicks, Reiman, Bade, Natteus, 2; O'Rourke, Hansel, Bayless, Struck out—By Reiman, 2; by Hansel, 2. Base on balls—Off Reiman, 2; off Hansel, 1. Hit by pitcher—Hansel, Sharp. Passed ball—Campbell. Umpire—Werrer. Time of game—1:35.

MANSFIELD, 6; TOLEDO, 2.

TOLEDO, Ohio, May 9.—Inability to bat Miller's delivery, coupled with four rank errors by Second Baseman Beck, lost yesterday's game to the Mansfield team, which played its first game of the season here. The score:

Mansfield....0 1 1 1 0 0 1 2 *— 6
Toledo.....2 0 0 0 0 0 0 0 0— 2

Base Hits—Toledo, 5; Mansfield, 7. Errors—Toledo, 6; Mansfield, 4. Batteries—Keenan and Arthur; Miller and Law. Umpire—Colgan.

YOUNGSTOWN, 17; GRAND RAPIDS, 10.

GRAND RAPIDS, Mich., May 9.—The visitors made nine runs in the third on four hits and five Grand Rapids errors. The score:

Youngstown 5 0 9 2 0 1 0 0 *—17
Grand Rapids 5 1 0 0 0 1 0 3 0—10

Hits—Grand Rapids, 18; Youngstown, 12. Errors—Grand Rapids, 8; Youngstown, 3. Batteries—Camp, Postel and Cole; Brouner, Garvoy and Zharan.

DAYTON, 7; SPRINGFIELD, 6.

DAYTON, May 9.—Dayton won the game here yesterday before an audience of 3,000. It was close and exciting from the start, as the teams are great rivals. The score:

Dayton .....0 0 1 2 2 1 1 0 0—7
Springfield...0 0 2 0 2 0 0 0 2—6

Base Hits—Dayton, 10; Springfield, 8. Errors—Dayton, 1; Springfield, 3. Batteries—E. Brown and C. Brown; Crabill and Graffius. Umpire—Lally. Time—2:00.

NOTES.

That was a cracking big crowd at Lakeside yesterday.

Warner's judgment on balls and strikes is not perfect and he is inclined to even up.

Pitcher Beam has signed a Mansfield contract and the Hagmakers are correspondingly happy.

Hickey was strictly in it yesterday. His batting and Babb's fielding were features of Fort Wayne's play.

Youngstown is here for three games. Alloway is twirling today. Patterson will be in the points tomorrow.

The west side bleachers fell yesterday with several hundred people on them, but luckily no person was injured.

The Robison Park league season will open on the 29th of this month. Work on the grounds will begin this week.

The Youngstown ball team arrived at noon today and are guests of the Randall.

Belden is able to be about and has been on the bench with the other members of the team during the last two days. He may be able to play in a week.

Toledo Commercial: "Shorty" Welzel is again with the Dayton team. Aside from Clint Fitch he is the most diminutive ball player in the league."

Grand Rapids fans are delighted with the article of ball put up by the Inter-State league, and are not at all sorry over their divorcement from the class A organization.

Manager Geer, of Youngstown, has released John Spears, pitcher, and John Smith, catcher. He expects to get two players from the Pittsburg league team—a first baseman and catcher.

Patterson, the Youngstown first baseman, never handles a ground ball cleanly, but he always causes his fumbling just in time to retire a runner who may be getting encouraged at seeing his juggling specialty.

The Keystones defeated the True Blues yesterday at the ball flats by a score of 7 to 3. Batteries—For Keystones, Bates and Connelly; for True Blues, Green and Boecker. Base hits—Keystones, 11; True Blues, 5.

George Tebeau sends word to THE SENTINEL that he is well pleased with the new rules of the game. He says he never kicked except when he believed he had a "kick coming" and then he kicked good and strong. He would not have it any other way than the brush resolution makes the game.

The ball game on the Concordia college grounds last Saturday afternoon was disastrous to the Penna club, the score standing 20 to 13 in favor of the college boys. This defeat has led to a reorganization of the Penna club, which hereafter will be under the management of W. S. Wells, with Frank Doriot as secretary and W. V. Cherry as captain. Hugh Hogan, jr., who last year was a member of the Robinson Park league, has joined the Pennas and the club has been strengthened by other additions. On Saturday, May 21, this club will play the South Bends at that city and on Memorial day it will play at Columbia City with the Warsaw club.

Natteus is undoubtedly the best ball player in the New Castle team. He is the speediest runner, covers a big lot of ground and can hit as safely as any member of the team. His fielding while here was not perfect, but the poor fellow was on "nettles" all the time. Not only were the members of the team roasting him, but Manager Lytle kicked because the scorer did not credit up more errors against him, and the fast little fielder was covering more ground than any other two players on the team. He can give Lytle cards and spades and then beat him playing any point of the game. Quit knocking and New Castle will have the fastest little short stop in the Inter-State.

The Rifles defeated the Shamrocks yesterday morning by a score of 11 to 10. Keller was handled in gilt-edged style by Rising, but was given poor support on the infield. Collars' work in center was fine. Slow work on the bases and inability to connect with Baker's curves in the last inning lost the game to the Shamrocks. Tegtmeyer was in the points for the Rifles until the last inning, when a hot liner from Robbins' bat put him out of the business. When Tegtmeyer retired the score was 11 to 10 with two Shamrocks on bases and no one down. Baker went in the box at this point, and struck out the first two men up. The next hitter was retired on an easy one to Baker. Braiden caught two men on the bases in the eight inning. Tegtmeyer has plenty of steam, and with a little coaching will keep the Robison Park league teams guessing.

Columbus Journal: "The New Castle Inter-State league team is touring that circuit, heralded as an aggregation that could jump into the Western league and beat at least five teams that belong to Ban Johnson's 'eight.' In other words, the New Castle management states that their team could join the Western league and finish third or higher in the race. If winning seven out of the eight games at the opening of the season inflates the top pisces of the New Castle magnates to such an extent, some enterprising hatmaker should keep a representative with the New Castle team, as new headgear will be required frequently, until the inevitable process occurs. The New Castle team seems to be a good one in that company, but such absurd claims can only emanate from the brain of pipe dreamers, who would do well to follow the example of Manager Torreyson of the Grand Rapids team. The latter gentleman honestly says that Inter-State ball cannot be as fast as the Western league furnishes, but that does not detract from the interest, as any time teams are well matched, no matter how small the league, complete satisfaction is given patrons." The New Castle team is not as strong by any means as several other clubs in the Inter-State.

Saturday workmen, while digging a trench near the barn in the barnyard at the G. S. Knight home on Spy Run avenue, dug up the almost intact skeleton of a man, presumably an Indian. The figure of the man must have been of good stature, for only a few of the bones of the skeleton are missing, and the frame is that of a big man. All of the teeth have remained in their place in the jaws of the late lamented red man, and this fact, too, tends to prove that the deceased belonged to the American rather than the Caucasian race.

IN POTTER'S FIELD

Sleep the Heroes of the Battleship Maine.

In Unmarked Graves, Beneath the Flower Trod Sailors They Died—Sad Cemetery at Key West.

Copyright 1898, by the Associated Press.
FROM A STAFF CORRESPONDENT.

KEY WEST, Fla., May 6.—In the outskirts of the town, where the small Spanish cottages cluster silent and sunburned along the narrow street, is the city cemetery of Key West.

Near the main entrance, which is guarded by a crumbling old wooden gate, is a group of newly made graves.

They are in the Potter's field—the part of the burying ground set apart for the pauper dead. These are the graves of the heroes who lost their lives on the battleship Maine in Havana harbor on the night of February 15.

There are twenty-four of them unmarked. Above each mound of glistening white lime-stone soil a small American flag droops in the fierce sun that beats incessantly down upon this island. The flags are faded and frayed. When a breeze comes up from the ocean they flutter sadly for a moment and again droop to the scorched earth.

On the center of each mound is a small glass goblet which still holds the discolored and withered stems of flowers.

"They were put there by a lady from Philadelphia," said the dreamy old sexton, "but I don't know who she was. She came here about ten days after the bodies were buried and put flowers on all the graves. I asked her who she was, but she said no matter."

And these faded little flags and withered stems of flowers are all that mark the resting place of the heroes of whom the civilized world has been talking since the fatal night, nearly three months ago. There is nothing else to tell the stranger who passes through the potter's field where the heroes of the Maine are sleeping.

The space where the graves are was originally prepared in great haste. Near the little white mounds on all sides are unsightly heaps of litter and rubbish.

In one spot stands an old hearse, weather beaten and ghastly in its very aspect of loneliness and decay. The sexton said it had once been used as the city hearse, but one day it broke down while carrying a body to the potter's field and there it still stands.

Just to the north of the resting place of the Maine sailors is a small iron inclosure which marks the grave of Bridget E. Hoffman, who died in 1864.

"I guess we will have to call her Mother Hoffman," said the old sexton, "for she is the only one buried here who's got a name, and I think she ought to be mother of everybody in potter's field."

Very close to the twenty-four mounds is a group of thirty-six naval seamen, who died of yellow fever. The sexton, however, was unable to tell when they were buried there. Nothing on the little twelve-inch slabs at the head of each group tells the story of the life or death of the dead seamen. The names and the words "United States navy" alone are carved upon the slabs.

But nature, even with the barren lime rock below and the scorching sun above, seems trying to do what the hand of man has failed to do in beautifying the graves of our heroes. Luxuriant trees of the tropical species are all about the newly made graves. On one side a massive green cactus lifts its pulpy foliage high in the air. On the opposite side a row of tropical trees refreshingly green are in full blossom, and with every breeze down the sun-burned mounds with beautiful scarlet flowers.

Near another side of the little burial plot is a row of royal spruce pines which throw a shadow upon the graves in the afternoon and through those branches the sea breezes constantly sing when the sun has gone down.

Rarely does any one visit the place. It is without care or attention—a by-corner of the island, where for two centuries Spaniards, negroes and fisher folks have put their dead and forgotten them.

Perhaps one-half the graves in the cemetery are those of unknown sailors whose sleeping places are unmarked. Most of the inscriptions on tombstones are in Spanish. The graves of the Maine's victims are surrounded by tombstones with Spanish inscriptions. It is a picture of melancholy desolation.

The graveyard is located on a high point in about the middle of the island and from it the great stretch of blue ocean may be seen on either side but a half mile distant. There is no soil there. The graves are carved out of the limestone and rock. All day the sun beats down upon the barren white rock surface until the scanty vegetation curls and crackles in the heat. Rarely is there a sound to break the melancholic silence.

Sometimes one hears the weary cry of a sea bird overhead, or the soft parrot-like voices of the Spanish children in the cottages nearby, but that is all.

The voices from the warships out at sea, the clatter of commerce in the harbor and the idle babble of the town never disturbs the sleep of our hero sailors here in their rock-bound beds.

Of the twenty-four who are buried here only two were identified. They were a negro and a Japanese. It is probable that at some future time they may be removed to another burial place. If not, a suitable monument will be erected to their memory.

Mothers, be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. May6eod&w

Good Reasons for Giving.

At the meeting of the Wiltshire association, held in London last night, Dr. Wallace told a story of a pensioner who used to stand with a placard on his breast enumerating his claims to the coppers he begged. The latter ran thus: "Battles, 4; wounds, 5; children, 6; total, 15." This is almost as good as Sir M. Grant-Duff's story of the Irish beggar, who prayed: "For the love of God, sir, give me a crust, for I am so thirsty that I don't know where I shall sleep tonight."

Curious vs. Science.

The most ignorant frequently stumble upon discoveries which when developed prove of rare advantage. For many years the Southern blacks were in the habit of wrapping meat in pawpaw leaves to make it tender, so they said, and they also threw one or two of the leaves into a soup pot to make it taste better. No one gave the fact any thought until a chemist one day analyzed the leaf and found that it contained a new digestive principle of considerable importance. He began to manufacture the extract, which is now regarded as a panacea by many people who would have laughed to scorn the suggestion of using the pawpaw leaf as mentioned.—New York Mail and Express.

CASTORIA

For Infants and Children

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

SPECIAL EXCURSION

To Indianapolis via Wabash Railroad, Sunday, May 15.

The Wabash special Indianapolis train will leave Fort Wayne at 6:00 a. m., Sunday, May 15. The round trip tickets have been placed at only $1.50. Visit Indianapolis. Visit Camp Mount. 7 7c

First Time to Colorado.

A new through Sleeping Car line between St. Louis and Colorado Springs will be established over the Wabash-Rock Island Short Line May 15th, 1898. The time will be the fastest made with through service between these two points by many hours. A through sleeper will leave St. Louis on Wabash train No. 3, at 9:20a. m., arriving at Colorado Springs the next morning at 11, with a direct connection for Denver, arriving at 11:30 a. m. This is the fastest regular through service ever established between St. Louis and Colorado. Returning, the sleeper will leave Colorado Springs at 2:15 p. m., and arrive at St. Louis the next evening at 6:15.

Patrons of this line will avoid the only unpleasant feature heretofore attendant on Colorado travel, inasmuch as the trip through Missouri's fertile fields will now be by daylight, and the unattractive portion of Kansas will be traversed during the night, with the mountain scenery to greet the tourists in the morning.

The first time of this line will naturally command the Wabash Route to intending Colorado tourists.

Particulars will be gladly furnished on application.

Catarrh

Mrs. Josephine Follmit, of Dry West, S. C., had a severe case of catarrh, which finally became so deep-seated that she was entirely deaf in one ear, and part of the bone in her nose sloughed off. The best physicians treated her in vain, and she used various applications of sprays and washes in no avail. Fourteen bottles of S. S. S. promptly reached the seat of the disease, and cured her sound and well.

CURED BY

S. S. S. never fails to cure blood disease, and it is the only remedy which reaches deep-seated cases. Guaranteed purely vegetable. Books free.

IN SELECTING

A SPRING SUIT

DON'T let cheapness guide you. You must consider Quality if you expect Satisfaction. When that is missing disappointment is bound to follow.

This spring we have gathered for your delection an assortment of Suits that lacks nothing of being perfect. Perfect in infinite variety. Perfect in its qualities. Perfect in its tailor-made stylishness.

Prices Range From $5 to $18.

But we can give you no adequate idea of the values represented until you have made an examination.

WE PERMIT NO OVERSTATEMENTS In Our Advertisments.

SOME people consider deception an art. It may be, but it's an art we have no use for. Fair dealing is artistic enough for us. It makes new friends and holds old ones, and that's all we are after. Prices are the only difference between clothing here and elsewhere. There is a chance to prove it. The competition in clothing has never been so keen as this season, and we realize that only some extraordinary effort on our part will enable us to get our share. This superhuman effort we are now making. Visit all the clothing stores in town, or the one which you consider the best, and then come to our establishment to compare styles and prices.

"Spring Medicines," "Blood Purifiers" and "Tonics" an Old-Fashioned Idea.

Pure blood, strong nerves and muscles, firm, healthy flesh, can only come from wholesome food well digested. "Blood purifiers" and "nerve tonic" do not reach the cause of the mischief. The stomach is the point to be looked after. The "exhaustion" and "unrest" way to cure any form of indigestion is to take after each meal some harmless preparation of this kind composed of vegetable essence pure pepsin, golden seal and fruit salts, sold by druggists under name of Stuart's Dyspepsia Tablets, and those tablets taken after meals, assist digestion wonderfully because they will digest the food promptly before it has time to ferment and sour, and the weak stomach relieved and assisted in this way soon becomes strong and vigorous again.

Stuart's Dyspepsia Tablets are superior to any secret patent medicine because you know what you are taking into your stomach, where at 50c per package. Write F. A. Stuart Co., Marshall, Mich., for book on stomach diseases, mailed free.

AMES BURNS,
Ex-Collector of the Port of Kansas City.

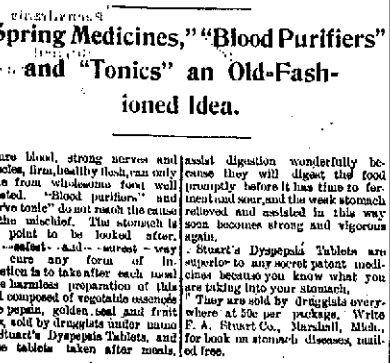
Of the men who have occupied positions of public trust in Kansas City, either by gift of the people or by appointment, none has a more enviable reputation for ability, honesty and efficiency than James Burns, Collector of the Port of Kansas City under Grover Cleveland. He lived to the letter the maxim, "a public office is a public trust," and when he retired he carried with him the respect of everyone in the community—Democrats and Republicans alike.

James Burns has used Stuart's Dyspepsia Tablets and he does not hesitate to say they have accomplished wonders.

"I suffered with dyspepsia for twenty years," said Mr. Burns yesterday. "Never knew what it was to enjoy life—in fact living seemed a burden, as it does to all who suffer severely with dyspepsia. A few months ago I began taking Stuart's Dyspepsia Tablets. From the first I felt relief, and now, although I am still taking them, I feel entirely cured. For the first time in twenty years I can eat anything I want and suffer no ill effects from it. You can't imagine the pleasure of this unless you have been a dyspepsia sufferer.

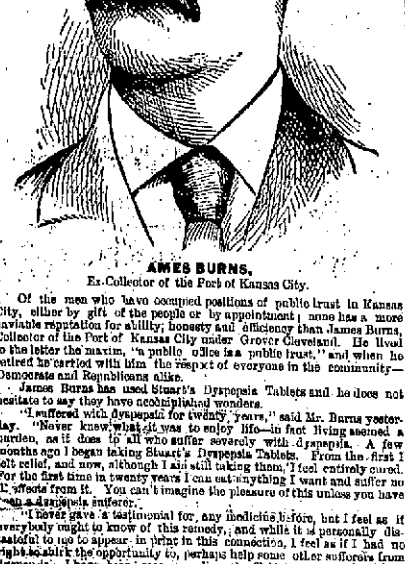
"I never gave a testimonial for any medicine before, but I feel as if everybody ought to know of this remedy, and while it is personally distasteful to me to appear in print in this connection, I feel as if I had no right to shirk the opportunity to, perhaps help some other sufferers from dyspepsia. I have been recommending the Tablets to all my friends. Only recently I took James H. Lillis, the father of Father Lillis, down to get some, and I understand he also is being wonderfully benefited. I can't recommend it too highly."

THE BIRD OBJECTED.



1—Say, Mandy, reason me 'bout some of them feathers for our parlor mantle piece.

2—Ostrich—Oh! I guess not!!



THIRTEEN HOURS

Is the Work Schedule at the Electric Works.

Several Accidents to Railway and Shop Employes—Limelight Drama in an Engine—Montgomery.

The electric works is again falling away behind its orders for machinery and to facilitate the work of building dynamos the men in the machinery department, which is presided over by Charles F. Knothe, will hereafter work thirteen hours per day. The instrument makers under Foreman Struboy will also work thirteen hours per day.

TWO UNFORTUNATE SWITCHMEN.

James Young was struck by engine No. 198 last night and thrown several feet, but luckily he escaped any serious injury. He was taken to his home on Walton avenue, where Dr. G. C. Siemon attended him.

Switchman Minnich was caught between the deadwoods Saturday night and his right arm and hand were painfully pinched, but not so as to cripple them. He will be disabled a few days. Dr. G. C. Siemon attended him also.

WABASH'S NEW TIME CARD.

Next Sunday the Wabash will put a new time card into effect. As now arranged the card will be as follows:

No. 1, fast westbound mail, no change; arrive here at 6:20 p. m.

No 3, no change; 8 p. m.

No. 5, which leaves here now at 9:33, will become the "Continental Limited" and run via. Bellevue road.

No. 7, no change; 12:30 p. m.

No 11, the Fort Wayne accommodation, will be changed to run between Lafayette and Springfield.

No. 25, new local passenger, will leave the city for the west at 9:10 a. m.

No. 2, now due at 5:31, will arrive at 5:07 a. m.

No. 4, due here at 6:25 p. m., will become the "Continental Limited" and go to the Buffalo division.

No. 6, no change; 11:10 a. m.

No. 10, the accommodation from the west arriving here at 8:55, will be transferred to the middle division.

No. 20, no change; 6:55 a. m.

No. 24 will be a new local mail and passenger train and will pass here at 6 p. m.

There is a probability that there will be one or two minor changes in the foregoing time card, but its main features are correct.

PERSONAL AND OTHERWISE.

Blacksmith J. D. White, of the Pittsburg shops, is sick.

Nickel Plate engine 15 has gone to the shops for repairs.

Nickel Plate Fireman John Breslining is off duty on account of sickness.

Casper Lehmkuler is again confined to his home by sickness. He is a blacksmith.

The Wabash will inaugurate the dollar Sunday excursions to Toledo on the 22nd inst.

The electric works this morning shipped a 1,500 light incandescent machine to Elgin, Ill.

Fred Kaiser, a boilermaker in the Wabash shops at Peru, was the guest of James Olive, jr., over Sunday.

The machinists will hold their regular meeting tomorrow evening. All members are requested to be present.

Car Inspector R. Krull, who had been on the sick list, resumed his duties in the Pittsburg yards this morning.

The Wabash employes at Peru raised a big pole and flung the American flag to the breezes last Saturday.

George Noll was at Indianapolis yesterday to see his brother, who is a member of company B, Third regiment.

Walter Lyman has sold his interest in the Wayne Buggy company to Harges & Long. Mr. Lyman will continue in the employ of the firm.

The city freight depots at Indianapolis are now closed at 5 p'clock in the evening. They were formerly kept open until 6 and sometimes 7 o'clock.

It is said that J. A. Spoor, president of the Chicago, Hammond and Western road, was offered the presidency of the Nickel Plate, but declined it.

Capt. J. C. Kensill, who had one of his knees injured two weeks ago, is recovering and will resume his place in the Pittsburg shops tomorrow or Wednesday.

John Williams, an employe of the Wabash roundhouse at Andrews, dropped dead while at his work at 4:30 o'clock Saturday afternoon. He was supposed to be afflicted with heart disease.

John Slater, the blacksmith, is on the streets again and is making rapid progress towards health. He has been in a bad way physically for six months, but thinks he will speedily recover now.

Fred Hayden Shoaff, who has completed his course of instruction in the Fort Wayne Business college, has returned to Cleveland, Ohio, to accept a position in the general offices of the Nickel Plate.

William Warfenbee resumed his old place in the Pittsburg blacksmith shop this morning. He was a member of the true blues, but failed to pass examination at Indianapolis and was sent home.

The Baltimore and Ohio shopmen at Garrett, Ind., raised a large pole Saturday evening and hoisted upon it the American and the Cuban flags.

P. E. Long, Nickel Plate conductor, is again running in the through freight service, after being on a short haul out of Bellevue a few weeks.

Nickel Plate engine No. 2, just out of the Stony Island shops, has taken the place of engine 189 in the passenger service and the latter will now go to Stony Island for light repairs.

The Baltimore and Ohio Midland division may effect arrangements with the Panhandle, whereby the former may use the latter's terminals at Columbus, thus gaining access to the Union station.

President J. J. Hill, of the Great Northern, has returned from Europe. It is supposed that he will immediately endeavor to put a stop to the passenger rate war now being waged in the northwest.

John Rhinesmith, of the firm of Rhinesmith & Simonson, has returned from Warren, Ohio, where he spent six weeks. The sojourn there restored his health and he came back as "hearty as an ox."

Fred Horst, a machinist at the electric works, had the little finger of his left hand so badly mangled Saturday afternoon that it will have to be amputated. The digit was caught in a lathe which Mr. Horst was operating.

District Passenger Agent Thompson, of the Wabash, is distributing a little book which will be greatly prized by those interested in baseball. It is a well gotten up schedule of the Inter-State league games for the season of 1898.

The St. Paul, the warship on which our townsman, Philip Hoss, is employed, sailed this morning for parts unknown to any but those on board the ship and naval authorities at Washington. She is thought to be bound for Cuban waters.

The Sunday excursions to Rome City are beginning to assume larger proportions, yesterday's numbering ninety-four. As the season advances these excursions will be more liberally patronized. The price of boats has been reduced from $1 to fifty cents a day.

All the lines leading into Indianapolis ran excursions into that city yesterday. Even the Pennsylvania, which announced a few weeks ago that it would run no Sunday excursions, took a hand in swelling the crowds in the Hoosier capital and at Camp Mount yesterday.

Freight traffic on the Nickel Plate is light at present and the trainmen have no trouble in getting a "day off" when ever desired. Those who are at present enjoying that privilege are Engineer Ed. Wolf and Firemen G. Weisell, John Lalandor, Abraham Stover and W. Kohlbach.

Frank X. Miller, blacksmith, had one of this thumbs badly cut Saturday afternoon while at work in the Pittsburg shops. In placing a bar of iron in the furnace, he struck his hand against the protruding end of another bar with the foregoing result. Dr. George C. Siemon attended the injured man.

There is trouble brewing over the differential question and it is being inaugurated by the Vanderbilts, who were refused favors for the West Shore and Nickel Plate equal to those enjoyed by the Panhandle. Passenger men are inclined to the belief that this difficulty will end in the abolishment of differentials.

There are three important lodge events at Indianapolis this month for which the railways running to that city will make special low rates. They are the celebration of the fiftieth anniversary of Raper commander, Knights of Templar, May 11; grand lodge of Odd Fellows and Rebekah assembly of the state of Indiana, May 16 to 19, and the grand lodge of the Masons, May 25.

Arthur H. Dougall, a bookkeeper at the electric light offices, has resigned and will go to Hartford City to accept a similar position with the Hartford City Paper company, of which his brother-in-law, Stephen Fleming, is the general manager. Mr. Dougall has been employed at the electric works for several years, and during his term of service there was promoted three times.

A letter from Randolph Brenze, formerly of the Pittsburg shops, states that he is a member of the cruiser Montgomery's crew. He is a machinist by trade, but he is serving in the gunners' department on the warship. Shortly after he left this city, a year ago, Mr. Brenze entered the government service and was placed on the Newport, where he served all last summer. When the trouble with Spain broke out he was transferred to the Montgomery. His father was a naval officer.

There will be a wedding in the country, four miles south of the city, next Sunday evening, which will interest the employes of the Wabash shops. The groom will be Frank Fruechtenich, of the boiler shop, and the bride Miss Burgess, the daughter of one of the prominent farmers out in that section. The ceremony will be performed by Rev. J. F. Miller. The prospective groom is maintaining the most strict secrecy about his approaching wedding, but the facts leaked out this morning.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

STILL SOARING.

Wheat Has Its Kite Up and It Keeps Going.

July Touches $1.21 and Closes at $1.20 1-4—May Leaps to $1.15 and Rings There—Wild Scenes on the Board.

CHICAGO, May 9.—Wheat today on board of trade touched $1.21 a bushel for July, the native option, and closed within ⅜c of the top, at an advance of 13⅞c. The market opened mild wild excitement at an advance of 3c to 4c with sales of July all the way from $1.09½ to $1.19⅝. The price advanced to $1.16, fell back to $1.11⅝ and rallied again to $1.16 in the first five minutes of trading.

From that time on July advanced steadily till it touched $1.21. Just two minutes before the close, which was at $1.20½. The May option which was neglected closed at the highest point of the session $1.15, a not gain of 8 cents. The pit was in a turmoil throughout the day, frustrations between trades frequently being a full cent. The sensational advance at Liverpool, equal to 12 cents a bushel in July, was apparently the sole cause of the excitement.

CLOSING PRICES.

CHICAGO, May 9.—Wheat—May, $1.75; July, $1.20¼; Sept., 96¼; Dec., 83¾.

Corn—May, 36¾; July, 36⅞@37; Sept., 37¾@37⅝.

Oats—May, 31⅝@31¾; July, 25¾@25⅞; Sept., 24½.

Pork—May, $10.90; July, $11.22½.

Lard—May, $5.65; July, $5.92½@5.95; Sept., $6.02½.

Ribs—May, $5.55; July, $5.60; Sept., $5.67½.

Barley—Cash No. 3, 46@52.

Rye—cash, 55c; May, 55c; July, 71c.

Flax—Cash, $1.20; cash N. W., $1.23; May, $1.28; Sept., $1.21½.

Timothy—May, $2.50.

MAYOR'S CABINET.

He Has Not Made Official Announcement,

But Here's the Way It Will Probably Be—Only Two Changes—Bergdoll and Shambaugh Again.

Mayor Schoner kept away from everybody today except two prisoners in police court, but The Sentinel learns from reliable, but unofficial sources, that his cabinet will be as follows:

City Attorney — W. H. Shambaugh.

Comptroller—H. C. Bornhoff.

Board of Public Works—Peter Eggemann, J. K. McCracken and P. H. Kane.

Board of Safety—Charles Buck and L. C. Easton, certain; J. L. Graber, a possibility and the mayor's probable choice. He may, however, decide to appoint Abraham Wolf in place of Mr. Graber.

Board of Health—Drs. Carl Schilling, A. J. Kessler and J. E. Miller.

City Civil Engineer—F. M. Randall.

The only changes from the old board are on the board of safety, Charles McCulloch and George H. Wilson retiring.

BOB ACCEPTS.

Will Meet Kid McCoy in the Prize Ring.

He Also Tenders Pompadour Jim an Opportunity to Contest for the Heavy Weight Championship.

BOSTON, May 9.—Bob Fitzsimmons has announced his acceptance of the offer of Kid McCoy to pay the champion $10,000 for a fight at middle weight, and also his acceptance of the offer of James J. Corbett of $25,000 for an opportunity to regain the heavy weight championship. Fitzsimmons will meet either man before the regularly organized club offering the largest purse, but he will insist on a side bet of $10,000 in each case and both matches must take place before the last of September, this year.

This announcement is accompanied with the offer of Julian, Fitzsimmon's manager, and the prize fighter himself, to bet $2,500 that neither McCoy nor Corbett will make good his offer.

CORBETT IS EAGER.

DENVER, Colo., May 9.—After reading the Associated Press dispatch from Boston this afternoon, announcing that Robert Fitzsimmons had accepted his offer of $25,000 for an opportunity to regain the heavy weight championship, James J. Corbett sent the following dispatch to W. A. Brady, his manager, who is in New York city:

"Go after that man (Fitzsimmons) and make my offer to him again—$25,000 that I will step him in ten rounds—and put up some money. Show him up."

A MEDICAL DISCOVERY.

RHEUMATISM NO LONGER A DREADED DISEASE.

Quickly Cured by Gloria Tonic—The Latest Fiad in Medicine.

As reports come in of the continued successes of Gloria Tonic in the cure of rheumatism, interest in this wonderful medicine has spread even among physicians who are not particularly favorable to new remedies that cure without the doctor's assistance. A case in point illustrates: John Carston of Belton, Texas, had planned for his wife a trip to Germany, but she was subject to rheumatism and the journey was delayed. She went through the usual experience of home remedies, doctors and so on without success, but finally got around to Gloria Tonic, and after using three boxes of the remedy was entirely cured. She was naturally overjoyed at the prospect of going abroad, and Mr. Carston, in writing to the proprietor of Gloria Tonic stated that his wife had started on her journey. He concludes his letter by saying:

"Kindly send me 5 more boxes of Gloria Tonic for a daughter of a neighbor who is also very seriously afflicted with rheumatism. I have recommended it to her very highly. She has spent a great deal of money with physicians without being helped and would like 5 boxes of this grand cure."

Gloria Tonic is made by John A. Smith, 213 Summerfield Church Building, Milwaukee, Wis., and is sold by all druggists at $1.00 a package.

A book of testimonials and a free trial package of Gloria Tonic is mailed free to those who will send Mr. Smith their name and address.

CANDLE MAKING IN SWEDEN.

Some Are Made From Stearin That Is Obtained From Insects.

W. S. Harwood has an article in St. Nicholas on "A Giant Candle," describing one of the unique features at the Stockholm exposition. Concerning candle making in Sweden, Mr. Harwood writes:

The candles of Sweden are not "dipped" in the old fashioned way, but are made on what might be called scientific principles, after the experience of a good many centuries has told the makers just what materials will produce the best results. They are not "run" in hand held molds, at the risk of burning somebody's fingers or spotting the kitchen floor with splashes of tallow. Tallow in its crude state is, indeed, used in the manufacture of these Swedish candles, but it must pass through a long treatment before it yields up the pure stearin from which the snowy candles are made.

Some of this tallow reaches Sweden after long ship journeyings from South America, while some of the stearin does not come from tallow at all, but from palm oil gathered by the natives of South Africa, and still another supply of stearin is secured in a curious way from insects shipped from China. The insects, in dying, turn into a wax very rich in stearin.

When the stearin is ready for the mixing, it is nearly pure white in color, a clear liquid that has the fine and consistency of melted white sugar. In the factory the attendants fill their large, wide lipped zinc pitchers with the liquid stearin, step to a long row of candle molds, and pour in the melted stearin. The molds are in sections, 12 candles to a section of the smaller sized candles. The wicks for the candles have first been twisted from threads into the proper size and threaded through the molds by machinery.

As soon as the stearin has cooled around the wicks a keen knife passes under and cuts the ends of the wicks, the candles in the section are lifted out and another set of wicks, all threaded through another set of molds, stands ready for the next pouring. Swiftly breaking the candles apart, the attendant passes them on in a box to another workwoman, who sends them whizzing through a trimming and polishing machine, from which they go to the counting table.

I watched a young woman who was at work one day in a factory in Sweden (and the factory, by the way, was located in the candlestick of the giant candle), counting these candles—a small kind it happened to be that they were making, perhaps five inches in length. With a dexterous which was quite extraordinary she thrust her hands into a pile of candles and unerringly drew forth 24—never more, never less. All day long she stands at this counter and not once in a thousand times, so I was told by the superintendent, would she draw out other than 24. I suppose it had become a matter of intuition, so to speak. She knew exactly how many candles would be included in a grasp of her hands and she practically never made a mistake.

Ancient Calisthenics.

The respect and veneration paid to the fair sex formed an essential ingredient in chivalry. This it is supposed, was derived from the customs of the primitive Germans, whose females are represented to have been very high spirited, and to have exercised considerably sway over the other sex. Whatever truth there may be in this statement, certain it is that a high species of gallantry forms the very spirit of modern chivalry, and as a proof of this we have only to refer to the classification of a knight's duty, to fear God and love the ladies, to perceive how necessary female education is to the very existence of this order.

This principle of female education, so prominently displayed in every aspect of chivalry, extended its influence to the lands of the times, for we find James II of Aragon ordering in this manner: "We will that every man, whether knight or no, who shall be in company with a lady, pass safe and unmolested unless he be guilty of murder."

And Louis II, duke of Bourbon, instituting the order of the Golden Shield, enjoins his knights to honor, above all, the ladies, and not permit any one to slander them, "because," adds he, "from them, after God, comes all the honor that man can acquire."—New York Ledger.

THE STING OF POVERTY.

Or the Unhappy Bloodriver and the Baked Beans.

He stood outside the restaurant with sunken cheeks and eyes that glittered feverishly.

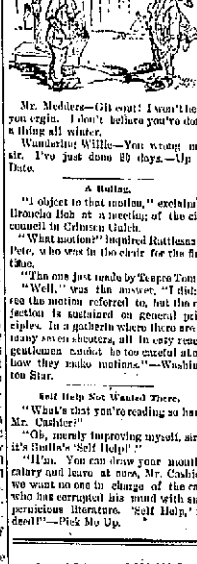
It was night, and to the weary wanderer the brilliantly lighted interior seemed like a glimpse of heaven. Not that that parte ular restaurant was one which would have held out many temptations to an epicure. As a matter of fact, it was distinctly a third rate establishment. But a starving man is seldom inclined to be fastidious.

To the tattered wretch who shivered outside and gazed longingly through the window the place was all that mortal could desire. But it was almost more than he could bear to see the waiters emerge from the kitchen laden with steaming dishes to set before the fortunate individuals who were seated at the tables. And every time the street door opened there was ushered in him an appetizing odor of cooking which mounted to his head like wine.

For the fiftieth time he drew out a slender pocketbook and carefully examined its contents. For the fiftieth time he replaced it with a heavy sigh. "It's no use," he murmured sadly. "There's only $3 left. Oh, this cursed poverty! Had I but $2 more I could lightly enter and call for a dish of baked beans."

Hurrying into vests, the unhappy Klondiker turned away and went forth into the night.—New York Journal

Been Doing Time.



Mr. Meddlers—Oh cum! I won't help you cryin. I don't believe you've done a thing all winter.

Wumbletop Willie—You wrong me, sir. I've just done 90 days.—Up to Date.

A Ruling.

"I object to that motion," exclaimed Broncho Bob at a meeting of the city council in Cactus Gulch.

"What motion?" inquired Rattlesnake Pete, who was in the chair for the first time.

"The one just made by Teapot Tom."

"Well," was the answer, "I didn't see the motion referred to, but the objection is sustained on general principles. In a gathering where there are so many sessions of this kind, gentlemen cannot be too careful about how they make motions."—Washington Star.

Self Help Not Wanted There.

"What's that you're reading so hard, Mr. Cashier?"

"Oh, merely improving myself, sir—it's Smith's 'Self Help!'"

"Then. You can draw your month's salary and leave at once, Mr. Cashier; we want no one in charge of the cash who has corrupted his mind with such pernicious literature. 'Self Help,' indeed!"—Pick Me Up.

Tell It To Your Neighbor

If he does not know it, that it is not necessary to pay a tailor a high price in order to get clothing that fits and are right in every respect. We can do it, and do it for less money and do it a great deal better than the so-called cheap tailor, and certainly as well and for a price way below a first-class tailor. Investigation will prove it.

FRIENDS,
Calhoun and Berry Streets.

NEWS NOTES.

Miss Katherine Bosler is in Cincinnati.

Mrs. Albrecht, of Kendallville, is visiting her son, Frank Albrecht.

Mrs. Morris Carroll, of Bucyrus, Ohio, is visiting friends in the city.

Born, to Mr. and Mrs. George Apa, of East Washington street—a son.

Miss Josie Reiter entertained the H. C. S. club at her home Saturday afternoon.

Milo Meredith, of Wabash, grand commander of the K. O. T. M., is in the city today.

Dr. and Mrs. McCaskey and Master Edward have gone to Rome City for a few days.

Miss Adah Higgins was the hostess for the meeting of the J. U. G. club Saturday.

Mrs. Edward Reinhart, of St. Paul, is the guest of her sister, Mrs. James Harle-11.

Miss Ella Stubbs, of Richmond, is the guest of her sister, Miss Mary Stubbs, of Westminster seminary.

Rev. George McKay, representing the Chicago Interior, is in Fort Wayne in the interest of his publication.

Oliver Layman returned to his home in South Whitley Saturday, after an extended visit with the Misses Lockhart, of High street.

D. B. Caldwell and daughter, Helen, have gone to Denver to bring home Mrs. Caldwell and Miss Ruth, who have been in that city for several weeks.

The company of young men who have enrolled their names with L. W. Leonard will meet in the hall in the White Bank block this evening for permanent organization.

Edward and Allen Stroup, Mrs. Rebecca Craig, of Garrett, arrived in the city Saturday, to visit their brother, Joseph Stroup, better known as Joe Acton, the wrestler.

Dr. J. E. Miller returned Saturday evening from a three-months trip south for his health. Most of the time was spent on the farm of the doctor's father, in Ohio, but before returning a visit was made to Nashville. The doctor is much improved and says he never felt better in his life.

The Students' Art league will give their annual spring exhibition of work on May 26 and 27. This exhibition is open to all who wish to enter are work of any kind, such as painting, drawing, wood carving, etc. Miss Agnes Hamilton and Miss Fannie Winch are the committee for application. Miss Bertha Jackson, Miss Abbie Keegan and Miss Kate Chapin are the committee on entertainment.

Carl P. Swain, returned home Sunday evening, from Baltimore and Washington. Carl was at Old Point Comfort a few days and saw the flying squadron under Captain Schley, now lying at anchor in Hampton roads. He talked with many of the sailors and they are all anxious to fight. One old sailor knew Commodore Dewey and said he was a wonderful fighter, which fact has now been demonstrated. In Washington, Saturday, there was great excitement.

The St Joseph classes, branch of the Ohio synod of the Reformed church of the United States, will hold its session here this week. The sessions will be held at the Heidelberg and St. John's Reformed churches, and it is expected that about sixty delegates will be in attendance at each meeting. Rev. Maurice Sampson will deliver the opening address of welcome in the city. Among the visitors will be Rev. B. B. Royer, of Goshen; Rev. Nicholson, of Colon, Mich.; Rev. Barbour, president of the classes at Culver, Ind., and Rev. Rohrbaug, of Three Rivers, Mich.

DEWEY.

Naval Hero, Born in Montpelier, Vt.

Son of Justin L. Dewey, the Founder and First Pre-ident of the National Life Insurance Company, and Brother of President Charles Dewey.

Charles Dewey, president.
James C. Boughton, vice president.
Joseph A. DeBoer, secretary.
Harry M. Cutler, treasurer.
Gaman D. Clark, assistant secretary.
Clarence E. Moulton, assistant treasurer.

NATIONAL LIFE INSURANCE CO.,
MONTPELIER, Vt., May 5, 1898.
C. H. Fitch, General Agent, Fort Wayne, Ind.:
DEAR SIR:—Your note of the 2nd inst., received. I take great pleasure in stating that Commodore Dewey was born in the city of Montpelier, the son of the company's first president, Dr. Julius Y. Dewey, and own brother to President Charles Dewey and Director Edward. Since the early fifties, Commodore Dewey has been continuously identified with the naval service of the United States. His own report of the engagement at Manila is not yet received, but it will undoubtedly substantiate what the cable messages tend to prove, a great and overwhelming victory on land and sea, equalling, if it does not surpass at every point, the greatest sea victories of history. It was most unusual as it was most pleasing that this victory by one brother should be announced in conjunction with the celebration by Mr. and Mrs. Charles Dewey of the fiftieth anniversary of their marriage, which occurred on Tuesday evening last. I am sure that the many very pleasant words received from representatives of the company are very gratifying to the president, as the event itself is a source of admiration and unbounded satisfaction to us all.

Yours truly,
JOSEPH A. DEBOER,
Secretary and Actuary.

The National Life Insurance company commenced business in 1850 with Dr. Julius Y. Dewey as president. As early as 1866 the National published in its yearly statement this rule of the company:

No. 9. Should the holder of a life policy after three or more years wish to surrender it, he will receive its equitable value in cash."

In the days of forfeitures and confiscations it required the courage of a Dewey to take the initiative in guaranteeing cash surrender values in life insurance policies.

Money to Loan.

A client of mine has $1,000 to loan on real estate or personal security.
J. C. ABEL.

The Crenduze entertainment at Library hall on the evening of Tuesday, May 17, promises to be of exceptional merit. The musical numbers will be strictly up to date and the comedy work will be entrusted to the best timber the organization contains. Rehearsals are being held every night and rapid progress is being made. Tickets can be procured of any member or at A. C. Ammrix's, 16 West Berry street.

BASE BALL
Tomorrow, Youngstown vs. Fort Wayne. Game called at 3:30. 9-2t

THE SILVER KING.
Notice.
On account of the raising of flour and vegetables, the Star Restaurant and Hotel will advance in price. Hereafter it will be known as a $1 per day house, and regular meals will be 25 cents instead of 15 cents. These prices will take effect today.

Mrs. F. A. Newton has returned to Chicago.

D. W. Lewis, of Mentone, Ind., spent Sunday in the city.

Miss E. E. Nelson has returned from a visit in Indianapolis.

The West End Golf club met with Carl Woodworth Saturday evening.

Mrs. L. Wessel, of Springfield, Ill., is visiting Mr. and Mrs. H. C. Katt.

Another case of scarlet fever is reported at Freiburger's, on Charles street.

Mrs. Ora Schaffer was in the city Sunday spending the day with friends.

Mrs. A. B. Crowe has returned from a visit with relatives in Hartford city.

Guy Bell was home from Chicago university to spend Sunday with his parents.

Mr. and Mrs. William Moellering are expected home from a western trip this week.

Miss Minnie Smith returned to Chicago yesterday after a visit with her sister, Mrs. Saverseal.

Miss Bertha Scott, of the Home Telephone office, has returned from a month's visit at Lima, Ohio.

Mr. and Mrs. Mason Long, who have been guests in Kansas for several weeks, have returned home.

The handsome saddle horse, Enos, which was owned by Sam Fisher for the past two years, has been sold to Major W. W. Barnett.

R. G. Thompson is in receipt of a letter informing him that Dr. T. J. Dills will leave Panama, Cuba, for Fort Wayne on May 25th.

Mrs. C. D. Durham, accompanied by her granddaughter, Georgiana Bond, arrived in the city from Indianapolis Saturday evening.

Edward L. Tenney and family have removed from Toledo to this city and will make this their home. They resided here some years ago.

The Tuesday Social club will be entertained by Mrs. L. O. Hull this week. Mrs. J. R. Swan, of Topeka, Kan., a sister of Mrs. Hull, will be the guest of honor.

Dr. and Mrs. W. W. Shryock left today noon for Springfield, Ill., where they will attend the Illinois Dental convention. They will be away until Saturday.

The board of waterworks trustees will hold their first meeting tonight. A president will be chosen and other business which may come before them will be disposed of.

Seventy-five children and ten grown persons of the St. Peter's Catholic church, were confirmed yesterday by Bishop Rademacher, who also dedicated the bell, which was bought by the school children.

The annual meeting of the board of charities will be held in the city council chamber this evening. The annual reports of the officers will be received and the committees will be appointed to serve the ensuing year.

Mrs. Montgomery Hamilton and her mother, Mrs. Pond, and Master Quintus Hamilton, have returned from the east. Miss Madge Hamilton is at Havana Lake, in the Adirondacks, where she will remain a month.

Howard Cohen, of New York, is registered at the Wayne and called on his Fort Wayne friends yesterday. Mr. Cohen is a member of Grand Rapids lodge of Elks. He was initiated in the B. P. O. E. in Fort Wayne and was transferred.

The following invitations are being distributed: "You are cordially invited by Mrs. Ormsby and pupils, in conjunction with the Westminster seminary, to attend the complimentary Shakespearian recital tendered them by Prof. Blanchard, Friday evening, May 13th, at 8 o'clock, at Fort Wayne Club hall."

The Rolston park season opened yesterday. Cars were run to the handsome pleasure resort every twelve minutes and more than 300 people availed themselves of the opportunity to enjoy the ride, notwithstanding it was somewhat chilly. A few warm days and cars will be running to the pleasure resort every day.

Dr. W. W. Barnett has purchased Hon. R. C. Bell's handsome riding horse for his own use in the field. He also purchased E. V. Eovrick's horse for Adjutant Henry Hagerman. Sam Fisher's horse was purchased by Adjutant H. K. Scott, of Angola. They are the three best saddle horses in Fort Wayne and no doubt will appreciate the chance to help protect the red, white and blue.

Frank Alderman informs THE SENTINEL that some persons to him unknown destroyed young trees and shrubbery in his yard and along the sidewalk. Words of condemnation are not strong enough to denounce the action of vandals who may have done this work to gratify personal spite. The officers should make an investigation and the perpetrators of the vandalism located and punished.

There were two prisoners in police court this morning, one drunk and one vag. The drunk was sent over for eleven days and the vag for fifteen days. The alleged vagrant was a young man dressed in a bicycle suit, who was arrested by Officer Murphy about 1 o'clock Sunday morning. He claims to have attended school at Ann Arbor and says that his home is near there. The police are investigating.

Joe Nix has purchased the Peter Eggemann shoe shop, on East Main street. Mr. Eggemann has been again selected by Mayor Schnorr to serve for three years as chairman of his board of public works and he decided to dispose of the business he established more than a quarter of a century ago. Mr. Nix has been in the employ of the retiring proprietor for a number of years and is thoroughly conversant with the business of the shop.

Frank Dicker and Maggie Bush have been licensed to wed.

The board of safety will probably reject all bids for the conduit system the city was to build and readvertise.

The Ladies' auxiliary of the Order of the Eastern Star will meet at the Masonic Temple tomorrow afternoon, at 2:30 o'clock.

Judge Mack is sitting in the superior court today listening to arguments for a new trial in the case of Miller vs. Bottenberg.

Mary Jansen brings suit for divorce and $500 alimony against her husband, Herman Jansen. E. V. Emrick is plaintiff's attorney.

Mr. and Mrs. Charles Lapp, Miss Blanch Combs, Miss Lizzie Lapp and Frank Catchall were the guests of Lieut. O. C. Meyers over Sunday.

The ladies of Degree of Honor No. 2 will be entertained Thursday, from 2 to 9 p. m., by Mrs. C. F. Halber, corner Cass and Wells streets.

Mrs. John Watt, who has been very ill at the hospital for several weeks, has so far recovered that she is now able to be at her home on West Berry street.

The new Columbia locomotive No. 605 of the Wabash will stand in front of the passenger depot tomorrow afternoon from 2 to 4 o'clock. This is to enable the people to see it.

Mr. and Mrs. Alex Muirhead very delightfully entertained friends and relatives at a card party Saturday evening. The house was tastefully decorated with flowers, and a three-course supper was served.

The L. B. Root company has filed articles of incorporation at Terre Haute in which the following are included as stockholders, as well as the heirs: Charles McCulloch, M. C. McDougall and S. R. Alden, of Fort Wayne, and Robert O. Miller, Fred J. Griffith and Harry J. Baker, of Terre Haute. The capital stock is $100,000. The company was formed for the purpose of carrying on the business and taking it out of the hands of the executrix. The holdings of the Fort Wayne stockholders are nominal.

MAY MEAN TROUBLE.

Seventh Ward Democrats Will Meet Tonight

And Discuss the Lake Erie Election Day by the Thirty-third Precinct Election Board.

The democrats in the Seventh ward will hold a meeting this evening in Gruber's barber shop, No. 331 Lafayette street, to discuss the false return that was made election night of the vote in the Thirty-third precinct. There has been, in years past, so much alleged crooked work in the Seventh ward that the democrats are determined to locate the blame and try to put a stop to it. Some of the residents believe that there should be prosecutions, while others assert that it was purely an accident. There is some talk of a contest by Mr. Suelzer, although the latter gentleman is opposed to it, except in so far as a contest may guarantee a purer ballot in the future.

The voters of the Seventh ward are as reputable as those of any other ward in the city and they will not stand the slights which is heaped upon them almost every election by a few men. If they are convinced that no person had knowledge of the mistake of twenty-five votes the matter will be dropped, but if there is any indication that members of the board did know the returns were wrong prosecutions will follow.

CHAUNCEY OLCOTT COMING

The Sweet Singer and Superb Actor at the Temple Tuesday Night.

Chauncey Olcott comes to the Temple Tuesday, May 10, to act and sing in Augustus Pitou's Irish comedy drama, named after the village on the River Lee in Ireland, "Sweet Inisfacen." In 1812 the wealthy young Irishman finds himself tired of London society and on his way to Cork stops at Inniscarra and meets an heiress of rare estates who is for the time serving in the place of the family schoolmaster. The young man pretends he is the new master and falls in love with the heiress. Her father frowns and they meet secretly. They are discovered and there is a pick to carry off the lover. This partly succeeds, as he is knocked senseless and carried aboard a man-of-war, but just as the young lady's father is trying to persuade her to sign a marriage contract with the weak he favors, the lover escapes and returns. He tells who he is, whereupon the father loses no time in transferring his preference, especially as the man first favored is exposed as an adventurer. Mr. Olcott will sing several new songs. This play attracted audiences from New York until Memorial day, or thereabout, in New York last season, which shattered Mr. Olcott's record to smithereens.

WILL BE DISBANDED

Brooklyn's Crack Regiment, the Tuxedoes, Has Disbanded Itself.

NEW YORK, May 9.—Brooklyn's former pride in the military line, the Thirteenth regiment, National guard, will, it is said, soon cease to exist, in consequence of the way in which it responded to the order to go into camp in compliance with the president's call for volunteers to fight against Spain. Colonel Watson of the Thirteenth, and many of the men, took the stand that the regimental integrity of the regiment should be guaranteed before they entered the service of the United States. In consequence, when Governor Black designated the Thirteenth along with other regiments to make up New York's quota under the president's call, there was a hang and unsatisfactory response.

Of a total membership of about 900 only 175 of Hempstead Plains are to be made a part of Camp Black. The pressure of this remnant has not helped affairs at the camp and today the announcement is made that the Thirteenth boys will be sent home. It is also intimated very distinctly that the regiment will be disbanded by order of Governor Black.

A SUDDEN DEATH.

Mrs. Ira Rappert Called Home Without Warning.

Arose From Her Bed and Commenced to Dress and Later Was Found Cold in Death—Funerals.

Mrs. Ira Rappert died suddenly this morning at her home, No. 231 West DeWald street. She was in her usual good health last night and this morning got up, and it is supposed, commenced to dress. Her aged husband, who lived alone with her, walked into the room at an early hour and noticed the bed was empty and, although he saw a black skirt lying on the floor between the bed and dresser, did not notice his wife, and went to another room. Presently a neighbor who landed after the affairs of Mr. and Mrs. Rappert called and stepping into the sitting room saw Mrs. Rappert lying on the floor in the bed room. He called her daughter, Mrs. Henry Stapleford, and when the daughter went to assist the mother she was horrified to find she was dead. Death probably resulted from cerebral apoplexy. Mrs. Rappert leaves besides her aged husband two daughters, Mrs. Henry Stapleford, of this city and Mrs. Wallace Dawson, of Los Angeles, Cala. Deceased was sixty-eight years old.

CROWE.

Mrs. John Crowe, aged fifty-two years, died yesterday afternoon at the residence of her sister, Mrs. Al Palmer, 62 West Pontiac street, after a brief illness with pneumonia. The deceased was the wife of the contractor and builder who did an extensive business in this city prior to the world's fair, having a shop at Baker street and Fairfield avenue. In 1893 the family moved to Chicago and were just arranging to again take up a residence in this city when the death of Mrs. Crowe occurred. The funeral will take place tomorrow morning at 9 o'clock, from St. Patrick's Catholic church.

SOLDIERS WILL MOVE

Indiana Troops Going to Washington and Chickamauga.

Secretary Alger Decides Where the Troops of the Several States Will Concentrate.

The Fort Wayne soldiers now at Indianapolis will soon be ordered to move. THE SENTINEL this afternoon received the following dispatch from the Associated Press:

"In answer to repeated requests from all sections of the country for information as to where the various organizations of state troops, which are being mustered into the United States service are to be sent, Secretary Alger today furnished the Associated Press the following statement, showing the destination of the volunteer troops. The list is subject to correction. It will be noticed that, generally speaking, three points are to receive the greater number of troops.

"It appears that that the animating purpose of the department in making the assignments was to divide the volunteer forces in such a way as to be available for three distinct purposes.

"The first regiments raised in each state mustered in and found ready for service are to be sent to Chickamauga to be clothed into shape, and thence sent to Tampa and other gulf ports, including Mobile, New Orleans and Galveston, preparatory to embarking for Cuba.

"The second division of regiments go to Washington, where they are to form a grand reserve, ready to reinforce the Cuban army at any moment to man the east defenses, or for other purposes.

"The third division is to remain for the present in the state in which the organizations are mustered, subject to call for duty in the Philippines or for general reserve purposes. Possibly they may never be called upon to leave their native states."

Of the Indiana troops one regiment of infantry and one battery of light artillery will be ordered to Washington and two regiments of infantry and one battery of light artillery will be sent to Chickamauga.

The remaining infantry regiment will be assigned to department commanders for coast defense and reserve. The last regiment left in the state may never be ordered from Indiana soil.

As stated in THE SENTINEL'S Indianapolis dispatches the Third regiment, including the two Fort Wayne infantry companies, is one of the two regiments ordered to Chickamauga

MAD WITH LOVE.

At South Bend Frank Huntington Kills Mrs. Vallett and Himself.

SOUTH BEND, Ind., May 9.—Frank Huntington today fatally shot Mrs. Vallett, a widow with whom he resided, because she refused to marry him. He then blew out his own brains.

There will be a meeting of Homo lodge No. 318, F. and A. M., tomorrow evening.

NOT SCRIPPS-M'RAE.

The Reading From Association and No Bulletins to This City Last Night.

To the Editor of The Sentinel:

The bulletins which were posted last night at Woolworth's drug store regarding the alleged defeat of Admiral Sampson's fleet were not sent to Fort Wayne by the Scripps Mellan league. Those reports were current all over America circulated by bulletin associations but were not handled by the Scripp-Mellan association which furnishes news to the Fort Wayne Daily News. Neither was the bulletin received or posted by the Postal Telegraph to this city.
